

AB 2060 2.0

Orientation Q & A

June 1, 2016

Q1: Does a probationer need to meet Adult or DW eligibility for this program?

A: The Recidivism Reduction Funds offered under this grant are designed to address the training and employment needs of California's supervised population as defined in Penal Code §1234(c) - all persons who are on probation, mandatory supervision, or post-release community supervision and are supervised by, or are under the jurisdiction of, a county. Parolees are not eligible participants for this grant. In addition, the grantee are responsible for defining their eligibility criteria and document participant eligibility within this framework within their application. (See page 7 of the RFA)

Q2: If someone falls into the permitted categories but is ALSO parolee, are they eligible?

A: No. Parolees are not eligible participants for this grant. (See page 7 of the RFA)

Q3: If participant is on dual supervision are they eligible?

A: As long as they fall into any of the three listed categories (which can include multiple categories) and are NOT on parole they are eligible.

Q4: What are the performance standards?

A: Performance standards are determined by the program goals set by the applicant. When you completed your Participant Plan (Form 4) you identified your target goal (number of participants in supervised population you plan to serve, success rate of participants who complete training, amount of participants enrolled, etc.). We utilize your performance standards and goals in determining the success of your program.

Q5: Are we limited to using the CalJOBS codes listed?

A: Yes. Grant code 2028 is designated for AB 2060 participants only.

Q6: Are we limited to the activity codes posted on the State Board website?

A: The listed activity codes are used to log specific participant activity such as orientation, on the job training, secondary education, etc. The current list of activity codes on the State Board website is for 1.0 Grantees. A new list of activity codes will be updated soon for 2.0 Grantees to utilize. When these codes are released you will receive an email with a copy of the codes along with a link to access them online.

Q7: What documentation do you want for subset eligibility?

A: Grantees were required to define their eligibility criteria and document participant eligibility within their application and submit a pre and post participant enrollment flow chart that outlines the project service delivery model as an attachment with their application. (See page 7 of the RFA)

Q8: When will I receive a copy of the AB 2060 presentation?

A: The presentation was attached to the AB 2060 Orientation Webinar Announcement email along with the Invoicing Instructions Sample. The presentation and FAQs will also be posted on the State Board website at: <http://cwdb.ca.gov/Initiatives.htm>

Q9: Will participants need to meet I-9 requirements minimally?

A: See response to Question 7. We understand that one of the difficulties in serving this population is the likelihood that participants will not have right to work documents (I-9). Assisting participants to acquire these documents is an allowable activity. That being said, we realize that CalJOBS is built to meet WIOA guidelines which require participants to have I-9 docs in order to be entered into the system. We are working with EDD to address this issue and will have a solution by the time CalJOBS training is hosted for all awardees sometime in July.

Q10: Is there a designated time set for the June 15th EDD Project Launch Orientation?

A: This meeting is tentatively set for June 15, 2016 10:00 AM - 11:00 AM (PST). An invitation and calendar request will be sent to you confirming the meeting details.
