

California Film & Television Tax Credit Program

FACT SHEET: USING THE TAX CREDITS

GENERAL INFORMATION:

1. The California Film Commission will not issue any Credit Certificates prior to January 1, 2011. However, the California Film Commission has been allocating tax credits to applicants since July 1, 2009.
2. For taxable years beginning on or after January 1, 2011, qualified taxpayers or their affiliates are allowed a credit against the "net tax" in the amount specified on the Tax Credit Certificate.
3. Tax Credits are governed by the year the credit certificate is issued. Once a taxpayer receives a Credit Certificate, they can claim it on their tax return beginning with the year the Certificate was issued. (Rev & Tax Code 17053.85 (a)(2) and 23685 (a)(2) provide that the credit "shall be allowed for the taxable year in which the California Film Commission issues the credit certificate..")
4. Tax credits may be assigned to one or more affiliates. The term affiliate is generally broadly applied.
5. Qualified Taxpayers may elect to split the credits and apply a portion to their income tax liability and a portion to their sales & use, however, only one Credit Certificate will be issued to the taxpayer.
6. There is no recapture provision for any Tax Credit Certificates issued.
7. Productions must retain all records pertinent to the Credit Certificate for a minimum of 3 years from the date of filing their tax return claiming the credit.

TAX CREDIT OFFSET AGAINST INCOME TAX LIABILITY:

8. In the case where the credit allowed exceeds the "net tax", the excess credit may be carried over to reduce the "net tax" in the following taxable year, and succeeding five taxable years if necessary, until the credit has been exhausted.
9. Credits applied to income tax liability are not refundable.
10. Tax credits are not reportable as income if they are taken as a credit only. However, if the taxpayer sells the credit, the sale amount is reportable as taxable income. (See Transferable Tax Credits below for more information.)
11. The Franchise Tax Board is developing a form to report assignments and sales of the credits. The California Film Commission will post the forms when they become available.

TAX CREDIT OFFSET AGAINST SALES AND USE TAX LIABILITY:

12. When used to offset Sales & Use tax, credits may be applied only to the state General Fund portion – 6% as of April 1, 2009. (Credit will not apply to: 0.25% state Fiscal Recovery Fund, 0.50% state Local Revenue Fund, 0.50% state Local Public Safety Fund taxes and local Bradley-Burns and transactions and use taxes). On July 1, 2011, the General Fund portion is expected to be 5%.

California Film & Television Tax Credit Program

13. Sales & Use tax liability for Company "A" (or its affiliates) applies only to Sales tax liability that Company "A" owes for retail sales to its customers and Use tax liability that Company "A" owes for purchases subject to use tax, including purchases from out of state vendors and taxable rentals for use in California.
14. Credits cannot be applied to Sales taxes paid by Company "A" to its vendors on Company "A" purchases. Sales taxes paid or owed by California vendors are not the company's sales taxes, even if Company "A" paid sales tax reimbursement to the vendors. When an individual or company pays sales tax on an item purchased from a vendor, the purchaser is actually reimbursing the vendor for the sales tax that the vendor will owe to the state.
15. Refund may only be for taxes paid during the period commencing on the 1st day of the calendar quarter in which the production period (pre-production) began and ending through the due date of the claimant's most recent sales and use tax return. Claimants will be required to file a standard Claim for Refund form with the Board of Equalization (BOE). The BOE will be developing a publication with special instructions for claiming the credit.
16. The Board of Equalization (BOE) may issue a refund for qualified sales & use taxes paid through the due date of the claimant's most recent sales and use tax return.
17. Credits may be claimed against sales and use taxes due for the five years following the close of the production period, without regard to the fiscal year from which the credits were allocated. (Production is considered complete when the process of post production has been finished and a final composite answer print, delivery air master, or digital cinema files of the qualified motion picture is produced.)
18. Credits may be applied to any General Fund tax liability that may come up as an assessment from an audit (subject to the provisions provided in Revenue and Taxation Code section 6902.5).

TRANSFERABLE TAX CREDITS:

19. **ONLY** qualified taxpayers who receive credits attributable to an "**Independent Film**" may sell these credits to an unrelated party.
20. Qualified taxpayers who have credits attributable to qualified motion pictures whose qualified expenditure budget is over \$10 million dollars **cannot** sell or transfer the credits.
21. Credits cannot be sold to more than one party and may not be resold by the unrelated party to another taxpayer or other party.
22. The qualified taxpayer will need to notify the Franchise Tax Board (FTB) prior to the sale of the credit with all of the required information regarding the purchase and sale of the credit, in the form and manner specified by the Franchise Tax Board. Information will be available on the FTB website at a later date.
23. If a taxpayer transfers and sells the credits, the sale amount is reportable as taxable income.
24. If a third party purchases credits from an independent film production, the credits may only be applied to the purchaser's income tax liabilities - not the purchaser's sales and use taxes.

California Film & Television Tax Credit Program

25. A party that purchases tax credits from a qualified taxpayer shall be subject to all the same requirements that apply to the qualified taxpayer.
26. A party that purchases the tax credits must report income on the difference between what they paid and what the credit is worth. For example, Buyer purchases \$1 million dollars worth of credits from an independent film for \$800,000. Buyer applies that \$1 million dollars of tax credits to satisfy her \$1 million dollar tax bill. Buyer pays tax on the \$200,000.
27. In no event may a qualified taxpayer assign or sell any tax credit that is claimed on any tax return of the qualified taxpayer. Should the taxpayer originally allocated a credit and a taxpayer to whom the credit has been sold both claim the same amount of credit on their tax returns, the FTB may disallow the credit of either taxpayer.
