---

This emergency rulemaking by the Department of Pesticide Regulation (the "Department") amends sections 6148, 6148.5, 6170, and 6216 in Title 3 of the California Code of Regulations. The Department is amending these sections to increase application fees for registration and renewal of each pesticide product from \$750 to \$1,150, and to change the application fee for label amendments from \$100 for amendments that require the support of data to \$25 for any amendment to a registered pesticide product. The increased application fees will ensure that the total collected revenue for the next three upcoming fiscal years is sufficient to support projected expenditure levels for the Department's pesticide registration program. Through this emergency rulemaking, the Department is also making non-substantive changes to the Application for Pesticide Registration.

OAL approves this emergency regulatory action pursuant to sections 11346.1 and 11349.6 of the Government Code.

This emergency regulatory action is effective on 10/1/2015 and, pursuant to Food and Agricultural Code section 12812, is a permanent emergency for which no Certificate of Compliance is needed.
