**PROPOSED ACTION ON REGULATIONS**

*Information contained in this document is published as received from agencies and is not edited by Thomson Reuters.*

**TITLE 2. DEPARTMENT OF FAIR EMPLOYMENT AND HOUSING**

**PROCEDURAL REGULATIONS**

The Department of Fair Employment and Housing (“DFEH” or “Department”) proposes to amend sections 10001 to 10065 of Title 2 of the California Code of Regulations after considering all comments, objections, and recommendations regarding the proposed action. This action will make permanent the DFEH’s emergency regulations and does not make any further amendments.

**PUBLIC HEARING**

The DFEH has not scheduled a public hearing on this proposed action. However, the DFEH will hold a hearing if it receives a written request for a public hearing from any interested person, or his or her authorized representative, no later than 15 days before the close of the written comment period.

**WRITTEN COMMENT PERIOD**

Any interested person, or his or her authorized representative, may submit written comments relevant to the proposed regulatory action to the DFEH. The written comment period closes at 5:00 p.m. on April 6, 2015. The DFEH will only consider comments received by that time. Written comments can be mailed to:

Department of Fair Housing and Employment  
c/o Annmarie Billotti, Acting Director  
2218 Kausen Drive, Suite 100  
Elk Grove, CA 95758

Comments may also be submitted by e-mail to [annmarie.billotti@dfeh.ca.gov](mailto:annmarie.billotti@dfeh.ca.gov).

**AUTHORITY AND REFERENCE**

Government Code section 12930(e) authorizes the Department to adopt these proposed regulations. The proposed regulations implement, interpret, and make specific section 12900 et seq. of the Government Code.

**INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW**

This rulemaking action clarifies, makes specific, and supplements existing state regulations interpreting the Fair Employment and Housing Act (FEHA) set forth in Government Code section 12900 et seq. Under the FEHA, the DFEH is empowered to adopt, promulgate, amend, and rescind its procedural rules and regulations governing its investigation, prosecution, and dispute resolution duties. These procedural regulations are located at Chapter 1 of Division 4.1 of Title 2 of the California Code of Regulations (2 CCR 10000 et seq.).

These regulations describe the complaint intake process and the Department’s procedures for the prosecution of complaints. They are currently outdated since they describe (1) the complaint intake process from an older software version of the DFEH’s online system and (2) a component of the previous prosecution process whereby “accusations” were issued prior to Senate Bill 1038’s (2012) elimination of “accusations” and authorization of the DFEH to pursue civil actions directly in state and federal courts.

The broad objective of these regulations is to update the regulations to reflect accurately how the Department fulfills its statutory functions. The proposed regulations will amend the DFEH’s procedural regulations to reflect the DFEH’s current complaint intake process and the DFEH’s new statutory power to pursue civil action in state and federal courts. This will benefit the public by eliminating confusion and misunderstanding arising from the inaccuracies and out-of-date information embedded in the regulations.

The Department has determined that these proposed amendments are not inconsistent or incompatible with existing regulations. After conducting a review for regulations that would relate or affect this area, the Department has concluded that these are the only regulations that concern the Department’s procedural rules.

**DISCLOSURES REGARDING THE PROPOSED ACTION**

*The Department has made the following initial determinations:*

**Mandate on local agencies and school districts:**  
None.

**Cost or savings to any state agency:** None.

**Cost to any local agency or school district, which must be reimbursed in accordance with Government Code sections 17500 through 17630:** None.

**Other nondiscretionary cost or savings imposed on local agencies:** None.

**Cost or savings in federal funding to the state:** None.

**Cost impacts on a representative private person or businesses:** The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. The Department has determined that the proposed regulations will not expand obligations, financial or otherwise, imposed on private persons or businesses beyond what is currently required by the FEHA.

**Results of the economic impact assessment/analysis:** The DFEH anticipates that the adoption of the regulations will not impact the creation or elimination of jobs within the state, the creation of new businesses or the elimination of existing businesses within the state, or the expansion of businesses currently doing business within the state. To the contrary, adoption of the proposed amendments to existing regulations is anticipated to benefit California businesses, workers, and the state's judiciary by clarifying and streamlining the operation of the law and reducing litigation costs for businesses by having easier-to-understand complaints.

**Statewide adverse economic impact directly affecting businesses and individuals:** The DFEH has made an initial determination that the proposed action *will not* have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

**Significant effect on housing costs:** None.

**Small Business Determination:** The DFEH anticipates that the regulations will not create additional costs or savings beyond those imposed by existing FEHA regulations. Similarly, the DFEH has determined that there is no impact on small businesses as a result of this proposed action because these regulations primarily serve to clarify and codify existing rules and to update the rules with a recent statutory amendment.

**Business Report:** The DFEH has determined that the proposed regulations do not require a report to be made.

## CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Department must de-

termine that no reasonable alternative it considered or that has otherwise been identified and brought to the Department's attention would be more effective in carrying out the purpose for which this action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Department has thus far not become aware of a better alternative and invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period.

Fax: (916) 653-4256

The written comment period closes on April 6, 2015, at 5:00 p.m. Only written comments received by that time shall be reviewed and considered by the Board before it adopts, amends, or repeals a regulation.

**AUTHORITY AND REFERENCE**

The Board proposes the adoption of sections 25 and 26 of Title 2, Chapter 1 of the CCR pursuant to the authority vested in it by the California Constitution, article 7, section 3, and Government Code sections 18502, 18660, and 18701. The proposed regulations will implement, interpret, and make specific the provisions of Government Code sections 18573, 18660, and 18661.

**INFORMATIVE DIGEST/POLICY STATEMENT  
OVERVIEW**

The Board is a constitutional body responsible for enforcing California's civil service statutes. (Cal. Const., art. VII, § 3.) In addition, the Board, by majority vote of all its members, prescribes probationary periods and classifications, adopts other rules authorized by statute, and reviews disciplinary actions imposed against state employees. (Ibid.) The Board also establishes rules implementing and enforcing the merit principle in the state civil service system. (Gov. Code, § 18660; see Cal. Const., art. VII, § 1, subd. (b).) Consistent with the merit principle, the Board promulgates rules to govern classifications, examinations, probationary periods, disciplinary actions, and other matters related to its authority under Article VII of the California Constitution. (Gov. Code, § 18502, subd. (b).)

Regulations adopted by the Board are exempt from the Administrative Procedure Act (APA), except as expressly specified. (Gov. Code, §§ 18211, 18215, & 18216.) The Board's regulations concerning selection, examinations, and classification may be adopted by the Board without public notice or comment; however, regulations related to selection and examinations shall be reasonably available to all interested parties. (Gov. Code, § 18213.) The rulemaking procedures set forth in Government Code section 18214 apply to the adoption of Board regulations concerning other matters.

In this instance, the subject matter of the proposed regulations relates to recordkeeping and the selection

process. These regulations are exempt from the APA process; however, given that these regulations are entirely new, the Board finds that a public comment period would be appropriate for this regulatory package.

#### DISCLOSURES REGARDING THE PROPOSED ACTION

The Board has made the following initial determinations:

- Mandate on local agencies and school districts: None.
- Cost or savings to any State agency: There may be additional operating costs related to the personnel-related recordkeeping requirement; however, any increase in costs will be minimal given that State agencies are currently required to maintain certain personnel-related documents.
- Cost to any local agency or school district that must be reimbursed in accordance with Government Code sections 17500 through 17630: None.
- Other nondiscretionary cost of savings imposed on local agencies: None.
- Cost or savings in federal funding to the State: None.
- Significant, statewide adverse economic impact directly affecting businesses including the ability of California businesses to compete with businesses in other states: None.
- Cost impacts on a representative private person or business: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.
- Adoption of these regulations will not:
  1. Create or eliminate jobs within California.
  2. Create new businesses or eliminate existing businesses within California.
  3. Affect the expansion of businesses currently doing business within California.
- Significant effect on housing costs: None.

#### SMALL BUSINESS DETERMINATION

The proposed regulations set a standard for personnel-related record keeping procedures applicable only to state civil service. The proposed regulations also clarify the application of civil service laws and rules to civil service appointments. Accordingly, it has been determined that the adoption of the proposed regulations would not affect small businesses in any way.

#### CONSIDERATION OF ALTERNATIVES

The Board has initially determined that no reasonable alternatives it has considered or that have been otherwise identified and brought to the attention of the Board would be more effective in carrying out the purposes for which the instant action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

INFORMATIVE DIGEST/POLICY STATEMENT  
OVERVIEW

The proposed regulations would further the CDE’s efforts, and those of its partner agencies efforts, to bring state regulations into conformance with state statutes in two ways: 1) by amending and repealing sections of the California Code of Regulations, Title 2 that were affected by the passage of AB 114 (Chapter 43, Statutes of 2011); and 2) by amending regulations in California Code of Regulations, Title 2 to update citations to feder-

al regulations found in Title 34 of the Code of Federal Regulations, which were amended in 2006.

In particular, the CDE, DHCS and CDSS are seeking to amend California Code of Regulations, Title 2, Sections 60000, 60010, 60510, 60550, and 60560.

While a substantial number of required changes have previously been achieved through filings under the process established in California Code of Regulations, Title 1, Section 100, the Office of Administrative Law determined that the amendments proposed herein did not meet the Section 100 eligibility criteria. These proposed amendments will bring the regulations fully into conformance with current federal and state law.

*Anticipated Benefits of the Proposed Regulation:*

Clarification of these regulations to make them consistent with current law will have specific benefits. The lack of alignment between the regulations and enabling statutes creates confusion concerning the applicability of both the affected statutes and regulations. The proposed amendments identify the appropriate authority and clarify the responsibility of entities involved in the provision of special education and related services to students with disabilities. The proposed amendments further clarify the lawful process for determining students’ disability related needs to ensure that students have access to the free appropriate public education to which they are entitled.

*Determination of Inconsistency/Incompatibility with Existing State Regulations*

The proposed regulatory amendments are consistent and compatible with state laws and regulations. The CDE, DHCS and CDSS reviewed all state regulations relating to mental health services for students with disabilities, including California Code of Regulations, Title 2, Sections 60000 through 60610, inclusive, and California Code of Regulations, Title 5, Sections 3000 through 4670, inclusive, and found that none exist that are inconsistent or incompatible with these regulations.

DISCLOSURES REGARDING THE PROPOSED  
ACTION/ FISCAL IMPACT

*The SSPI, DHCS and CDSS have made the following initial determinations:*

There are no other matters as are prescribed by statute applicable to the specific state agency or to any specific regulations or class of regulations.

The proposed regulations do not require a report to be made.

Mandate on local agencies and school districts: None.

Cost or savings to any state agency: None.

Costs to any local agencies or school districts for which reimbursement would be required pursuant to Part 7 (commencing with Section 17500) of division 4 of the Government Code: None.

Other non-discretionary costs or savings imposed on local educational agencies: None.

Costs or savings in federal funding to the state: None.

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None.

Cost impacts on a representative private person or businesses: The SSPI, DHCS and CDSS are not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Effect on housing costs: None.

Effect on small businesses: The proposed regulations would not have an effect on any small business because the proposed changes to the state's system for delivering services to students with disabilities does not reduce students' entitlement for services, or the responsibility of the state to ensure that those services are provided.

#### RESULTS OF THE ECONOMIC IMPACT ANALYSIS

Adoption of these regulations will not, 1) create or eliminate jobs within California; 2) create new businesses or eliminate existing businesses within California; or 3) affect the expansion of businesses currently doing business within California.

Benefits of the proposed action: Clarification of these regulations to make them consistent with current law will have specific benefits. The lack of alignment between the regulations and enabling statutes creates confusion concerning the applicability of both the affected statutes and regulations. The proposed amendments identify the appropriate authority and clarify the responsibility of entities involved in the provision of special education and related services to students with disabilities. The proposed amendments further clarify the lawful process for determining students' disability related needs and to ensure that students have access to the free appropriate public education to which they are entitled.

The SSPI, DHCS and CDSS have determined that the proposed regulations will have no effect on the health and welfare of California residents, worker safety, and the state's environment.

The SSPI, DHCS and CDSS have determined that the proposed regulations will ensure that students have access to the free appropriate public education to which they are entitled.

#### CONSIDERATION OF ALTERNATIVES

The SSPI, DHCS and CDSS must determine that no reasonable alternative they considered or that has otherwise been identified and brought to their attention, would be more effective in carrying out the purpose for which the action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The SSPI, DHCS and CDSS invite interested persons to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the written comment period.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law provides that the Secretary is obligated to investigate the existence of any pest that is not gener-

ally distributed within this state and determine the probability of its spread and the feasibility of its control or eradication ( Food and Agricultural Code (FAC) 5321).

Existing law also provides that the Secretary may establish, maintain and enforce quarantine, eradication and other such regulations as he deems necessary to protect the agricultural industry from the introduction and spread of pests (FAC Sections 401, 403, 407 and 5322).

#### Anticipated Benefits from This Regulatory Action

Existing law, FAC Section 403, provides that the department shall prevent the introduction and spread of injurious insect or animal pests, plant diseases, and noxious weeds.

Existing law, FAC Section 407, provides that the Secretary may adopt such regulations as are reasonably necessary to carry out the provisions of this code which she is directed or authorized to administer or enforce.

Existing law, FAC Section 5321, provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this State and determine the probability of its spread, and the feasibility of its control or eradication.

Existing law, FAC Section 5322, provides that the Secretary may establish, maintain, and enforce quarantine, eradication, and such other regulations as are in her opinion necessary to circumscribe and exterminate or prevent the spread of any pest which is described in FAC Section 5321.

The existing law obligates the Secretary to investigate and determine the feasibility of controlling or eradicating pests of limited distribution but establishes discretion with regard to the establishment and maintenance of regulations to achieve this goal. This amendment provides the necessary regulatory authority to prevent the artificial spread of a serious insect pest which is a mandated statutory goal.

The amendment of this regulation benefits the citrus industries (nurseries, fruit growers, wholesalers, retailers, exporters) and the environment by having a quarantine program to prevent the artificial spread of ACP over long distances. Most all of the commercial citrus fruit and nursery stock production is located outside this proposed quarantine boundary area.

The national and international consumers of California citrus benefit by having high quality fruit available at lower cost. It is assumed that any increases in production costs will ultimately be passed on to the consumer.

The amendment of this regulation benefits homeowners who grow citrus for consumption and host material which is planted as ornamentals in various rural and urban landscapes.

FAC Section 401.5 states, "the department shall seek to protect the general welfare and economy of the state

and seek to maintain the economic well-being of agriculturally dependent rural communities in this state." The amendment of this regulation is preventing the artificial spread of ACP to uninfested areas of the State.

Huanglongbing (HLB) is generally distributed in Florida due to ACP being generally distributed there. The University of Florida Institute of Food and Agricultural Sciences Extension calculated and compared the impact of having and not having HLB present in Florida and concluded HLB had a total impact of \$3.64 billion and eliminated seven percent of the total Florida workforce. The overall California economy benefits by the amendment of this regulation which is intended to prevent ACP from becoming generally distributed in California and resulting in a similar effect on our economy as to what happened in Florida. This is now critical as HLB has been introduced into California.

There is no existing, comparable federal regulation or statute regulating the intrastate movement.

The Department considered any other possible related regulations in this area, and we find that these are the only regulations dealing in this subject area, and the only State agency which can implement plant quarantines. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of this regulation and has determined that it is not inconsistent or incompatible with existing state regulations.

#### AMENDED TEXT

This regular rulemaking action established the quarantine area for ACP in Madera County by approximately 100 square miles. The effect of the amendment of this regulation is to provide authority for the State to perform quarantine activities against ACP within this additional area. The total area which would be under regulation is now approximately 51,217 square miles.

#### DISCLOSURES REGARDING THE PROPOSED ACTION

*The Department has made the following initial determinations:*

Mandate on local agencies and school districts: None.  
Cost or savings to any state agency: None.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code Sections 17500 through 17630: None and no nondiscretionary costs or savings to local agencies or school districts.

Cost or savings in federal funding to the state: None.

The Department has made an initial determination that there will be no significant, statewide adverse eco-

conomic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

Cost impacts on a representative private person or business: Most businesses will not be affected. There are no citrus production nurseries in the affected area that will be impacted. There are no retail nurseries in the affected area. There are two citrus growers in the proposed area. There is no additional cost to growers who take their fruit to a packinghouse inside the current quarantine area. Growers choosing a packinghouse outside the quarantine area have three options: 1. Conduct pre-harvest treatments with an approved pesticide while fruit is still on the trees; 2. Field clean the fruit to remove leaves and stems during harvest; 3. Send the fruit to a packinghouse within the quarantine area to be cleaned. Pre-harvest treatments cost growers approximately \$60 per acre and are required to be covered with a tarp while in transit. Tarps range in price from \$2,500–\$3,000 a piece. Field cleaning the fruit will cost the grower approximately \$150–\$320 per acre depending on the citrus variety. Field cleaned fruit does not require a tarp for transport and can be moved within or from the quarantined area. Cleaning at a packinghouse within the quarantine area will cost the grower approximately \$300–\$400 per acre and the fruit must remain within the quarantine area, although the loads do not need to be covered with a tarp. There are zero citrus packing houses located within this quarantine area.

Based on the preceding above information, it was determined that due to the amendment of Section 3435(b), the agency is not aware of any cost impact on a representative business or private person. For the vast majority of businesses within the regulated area, no additional costs will be incurred.

#### *Small Business Determination*

The Department has determined that the proposed regulations may affect small business.

Significant effect on housing costs: None.

#### Results of the Economic Impact Analysis

Amendment of these regulations will not:

- (1) Create or eliminate jobs within California;
- (2) Create new businesses or eliminate existing businesses within California; or
- (3) Affect the expansion of businesses currently doing business within California.

The Department is not aware of any specific benefits the amendment of this regulation will have on worker safety or the health of California residents. The Department believes the amendment of this regulation benefits the welfare of California residents by protecting the economic health of the entire citrus industry. In 2010 the estimated value was \$2.1 billion for citrus fruit and

\$28.5 million for citrus nursery stock without all the upstream buyers and downstream retailers included (*Reference: John Gilstrap of California Citrus Nursery Board for citrus nursery stock value and USDA–National Agricultural Statistics Service 2010 data for citrus fruit*). This is a needed source of revenue for the State’s economic health and this amendment will help protect this source of revenue.

#### ALTERNATIVES CONSIDERED

The Department must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law than the proposal described in this Notice.

#### AUTHORITY

The Department proposes to amend Section 3435(b) pursuant to the authority vested by Sections 407, 5301, 5302 and 5322 of the FAC.

#### REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 5301, 5302 and 5322 of the FAC.

OVERVIEW**

This action will:

- Update the Milestone Completion Credit Schedule to account for various additions, revisions, and deletions to the rehabilitative programs available to inmates and the amount of credit inmates may earn for successful completion.

- Establish that inmates assigned to any combination of a half-time work assignment plus a rehabilitative program shall be designated in Work Group A-1.

**DOCUMENTS INCORPORATED  
BY REFERENCE**

Milestone Completion Credit Schedule (Rev. 01/15)

PROPOSED REGULATIONS**

The Department anticipates that these regulations will help to reduce recidivism and, eventually, prison overcrowding, by helping to better prepare inmates to find employment upon their release from California prisons.

**EVALUATION OF  
CONSISTENCY/COMPATIBILITY WITH  
EXISTING LAWS/REGULATIONS**

The Department has researched existing statutes and regulations regarding inmate credit earning and has determined that these proposed regulations are not inconsistent or incompatible with existing state laws and regulations.

**LOCAL MANDATES**

- Cost or savings to any state agency: *None.*
- Other nondiscretionary cost or savings imposed on local agencies: *None.*

**EFFECT ON HOUSING COSTS**

The Department has made an initial determination that the proposed action will have no significant effect on housing costs.

**SIGNIFICANT STATEWIDE ADVERSE  
ECONOMIC IMPACT ON BUSINESS**

The Department has initially determined that the proposed regulations will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

**EFFECT ON SMALL BUSINESSES**

The Department has determined that the proposed regulations may not affect small businesses. It is determined that this action has no significant adverse economic impact on small businesses because they are not affected by the internal management of state prisons.

**RESULTS OF THE ECONOMIC  
IMPACT ASSESSMENT**

The Department has determined that the proposed regulation will have no effect on the creation of new, or the elimination of existing, jobs or businesses within California, or affect the expansion of businesses currently doing business in California. The Department has determined that the proposed regulations will have no effect on worker safety or the state's environment because they relate strictly to the internal management of CDCR institutions.

The Department has determined that the proposed regulations may have an indirect positive impact upon

The board does not intend to conduct a Regulation Hearing on the matter, unless requested. Any interested person may submit a written request for a public hearing no later than 15 days prior to the close of the written comment period.

The Board of Pharmacy, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals substantially as described below or may modify such proposals if such modifications are sufficiently related to the original text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

Authority and Reference: Pursuant to the authority vested by Section 4005 of the Business and Professions Code, and to implement, interpret or make specific Sections 163.5, 4005, 4007, 4038, 4115, 4202, 4207 and 4400 of the Business and Professions Code, the Board of Pharmacy is proposing to amend Section 1793.5 of Article 11 of Division 17 of Title 16 of the California Code of Regulations as follows:

#### INFORMATIVE DIGEST

##### A. Informative Digest

The Board of Pharmacy proposes to amend Section 1793.5 of Article 11 of Division 17 of Title 16 of the California Code of Regulations and to update Authority and Reference citations.

##### B. Policy Statement Overview/Anticipated Benefits of Proposal

Existing regulation at Section 1793.5 requires an applicant for a pharmacy technician license to submit an application to the board. The application, Form 17A-5 (Rev. 01/11) is incorporated by reference; this proposed regulation amends this application and incorporates by reference an updated Pharmacy Technician Applica-

tion, Form 17A–5 with a revision date of October 2015. As proposed, the pharmacy technician application incorporates educational and licensing requirements currently found in Division 2 of Chapter 9 of the Business and Professions Code.

This proposal would ensure the application reflects changes in current law as a result of recently enacted legislation and provide guidance on application requirements. The updated application, Form 17A–5 (Rev. 10/15), incorporated by reference in this proposal, would include modifications to the criminal conviction question to conform to legal requirements and incorporate changes made to facilitate implementation of SB 1159 (Lara, Chapter 752, Statutes of 2014) and SB 1226 (Correa, Chapter 657, Statutes of 2014), as well as a few additional changes designed to provide more clarification of educational and licensing requirements. This proposal would benefit applicants applying for a pharmacy technician license with the board as well as the regulated public. By incorporating by reference a Pharmacy Technician Application (17A–5) that reflects current laws and regulations and helps clarify the educational and licensing requirements, the board believes that applicant inquiries and deficiencies will be reduced which will streamline the application process and facilitate processing of the application.

Existing regulation in subdivision (a)(4) of section 1793.5 requires an applicant for a pharmacy technician license to submit to the board with his or her application a sealed, original Self Query Report from the National Practitioner Data Bank — Healthcare Integrity and Protection Data Bank (NPDB–HIPDB). The board has determined the need to update the name of the Data Bank in response to recently enacted legislation resulting in consolidated operations of the National Practitioner Data Bank (NPDB) with those of the Healthcare Integrity and Protection Data Bank (HIPDB). To conform to the actual name of the Data Bank, this proposal would amend terminology in that subdivision to properly refer to the National Practitioner Data Bank (NPDB). The proposed action would benefit applicants applying for a pharmacy technician license with the board, as well as the regulated public, by providing clarity on the exact name of the specific agency from which the Self Query Report is obtained, as required in that subdivision.

C. Consistency and Compatibility with Existing State Regulations

During the process of developing these regulations and amendments, the Board of Pharmacy has conducted a search of any similar regulations on this topic and has concluded that these regulations are neither inconsistent nor incompatible with existing state regulations.

The Board, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals substantially as described below or may modify such proposals if such modifications are sufficiently related to the original text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

#### AUTHORITY AND REFERENCE

Pursuant to the authority vested by Section 1614 of the Business and Professions Code, to implement, interpret or make specific 1670 of the Business and Professions Code, and Sections 11500 through 11528 of the Government Code, the Board is considering changes to Division 10 of Title 16 of the California Code of Regulations as follows:

#### INFORMATIVE DIGEST/ POLICY STATEMENT OVERVIEW

The Board currently regulates approximately 102,000 licensees, consisting of approximately 45,600 dentists (DDS), approximately 54,700 registered dental assistants (RDA), and 1,700 registered dental assistants in extended functions (RDAEF). In addition, the Board has the responsibility for setting the duties and functions of approximately 50,000 unlicensed dental assistants. The Board's highest priority is the protection of the public when exercising its licensing, regulatory, and disciplinary functions. The primary methods by which the Board achieves this goal are: issuing licenses to eligible applicants; investigating complaints against licensees and disciplining licensees for violations of the Dental Practice Act (Act); monitoring licensees whose licenses have been placed on probation; and managing the Diversion Program for licensees whose practice may be impaired due to abuse of dangerous drugs or alcohol.

Pursuant to Business and Professions Code (BPC) Section 1614, the Board is authorized to adopt, amend, or repeal such rules and regulations as may be reasonably necessary to enable the Board to carry into effect the provisions of the Dental Practice Act.

The main purpose of this proposal is to amend California Code of Regulations, Title 16, Section 1001

to delegate to the Board's Executive Officer the authority to approve settlement agreements for the revocation, surrender, or interim suspension of a license without requiring the Board to vote to adopt the settlement.

#### ANTICIPATED BENEFITS

The benefit from these proposed regulations will be to provide efficient protection to the California consumers against licensees who are found to be in violation of the laws or the Dental Practice Act and whose license may be revoked, surrendered, or suspended as a result of a settlement agreement approved by the Board's Executive Officer. These benefits are a direct result of the Board's statutorily mandated priority (BPC Section 1601.2). The protection of the public is the highest priority of the Board in exercising licensing, regulatory, and disciplinary functions. This proposal will ensure that individuals who have violated the laws relating to the practice of dentistry will be effectively and efficiently disciplined in a manner that will protect the public.

#### CONSISTENCY & COMPATIBILITY WITH EXISTING STATE REGULATIONS

After conducting a review for any regulations that would relate to or affect this area, the Board has evaluated this regulatory proposal and it is not inconsistent or incompatible with existing state regulations. The Board is the only state entity that regulates the practice of dentistry through a licensure process in the interest of public protection; therefore, the Board is the only entity that may delegate authority to the Board's Executive Officer to approve a settlement agreement for the revocation, surrender, or interim suspension of a license without requiring the Board to vote to adopt the settlement.

#### FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

Nondiscretionary Costs/Savings to Local Agencies: None.

Local Mandate: None.

Cost to Any Local Agency or School District for Which Government Code Sections 17500–17630 Require Reimbursement: None.

Business Impact:

The Board has made the initial determination that the proposed regulation would not have a significant, state-wide adverse economic impact directly affecting busi-

ness, including the ability of California businesses to compete with businesses in other states.

The Board has determined that only the following types of businesses may be affected by the proposal:

- Businesses owned by licensees of the Board who face disciplinary action due to violations of the Dental Practice Act that would warrant revocation, surrender, or interim suspension of licensure.
- Businesses that employ licensees of the Board who face disciplinary action due to violations of the Dental Practice Act that would warrant revocation, surrender, or interim suspension of licensure.

A business owned by a licensee whose license is revoked, surrendered, or suspended may incur a significant fiscal impact. Businesses that employ a licensee whose license is revoked, surrendered, or suspended may incur a significant fiscal impact. The Board does not maintain data relating to the number or percentage of licensees who own a business; therefore, the number or percentage of businesses that may be impacted cannot be predicted. The Board only has authority to take administrative action against a license and not a business. Accordingly, the initial or ongoing costs for a small business owned by a licensee who is the subject of revocation, surrender, or interim suspension order cannot be projected. Businesses operated by licensees who are in compliance with the law will not incur any fiscal impact.

The Board has not considered proposed alternatives that would lessen any adverse economic impact on businesses and invites you to submit such proposals. Submissions may include the following considerations:

- (A) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to businesses.
- (B) Consolidation or simplification of compliance and reporting requirements for businesses.
- (C) The use of performance standards rather than prescriptive standards.
- (D) Exemption or partial exemption from the regulatory requirements for businesses.

The rulemaking file includes the facts, evidence, documents, testimony, and/or other evidence which supports this determination.

Cost Impact on Representative Private Person or Business:

The cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action and that are known to the Board are:

► Impact on Licensees Whose License is Revoked:

The Board currently regulates approximately 102,000 licensees, consisting of approximately 45,600 dentists (DDS), approximately 54,700 registered dental assistants (RDA), and 1,700 registered dental assistants in extended functions (RDAEF). The average salary of a DDS in California is approximately \$150,000 per year and the annual salary of a RDA in California is approximately \$35,000 per year.

This proposal would impact individual licensees of the Board whose license is the subject of the revocation, surrender, or interim suspension order as a result of committing a violation of the Dental Practice Act. Revocation, surrender, or interim suspension of a license means that the individual would no longer be able to legally practice which would result in a loss of income earned by an individual when the license was valid. Licensees who are in compliance with the law will not incur any fiscal impact.

Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

The Board has determined that the proposed regulations would not affect small businesses.

A small business owned by a licensee whose license is revoked, surrendered, or suspended may incur a significant fiscal impact. Small businesses that employ a licensee whose license is revoked, surrendered, or suspended may incur a significant fiscal impact. The Board does not maintain data relating to the number or percentage of licensees who own a small business; therefore, the number or percentage of small businesses that may be impacted cannot be predicted. The Board only has authority to take administrative action against a license and not a small business. Accordingly, the initial or ongoing costs for a small business owned by a licensee who is the subject of revocation, surrender, or interim suspension order cannot be projected. Small businesses operated by licensees who are in compliance with the law will not incur any fiscal impact.

RESULTS OF ECONOMIC IMPACT ASSESSMENT/ANALYSIS

Impact on Jobs/Businesses:

The Board has determined that this regulatory proposal will not have a significant impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

This determination was made because the proposed changes are not sufficient to create or eliminate jobs or businesses.

The Board has determined that this regulatory proposal will have the following benefits to the health and welfare of California residents, worker safety, and state's environment:

The benefit from these proposed regulations will be to provide efficient protection to the California consumers against licensees who are found to be in violation of the laws or the Dental Practice Act and whose license may be revoked, surrendered, or suspended as a result of a settlement agreement approved by the Board's Executive Officer. These benefits are a direct result of the Board's statutorily mandated priority (BPC Section 1601.2). The protection of the public is the highest priority of the Board in exercising licensing, regulatory, and disciplinary functions. This proposal will ensure that individuals who have violated the laws relating to the practice of dentistry will be effectively and efficiently disciplined in a manner that will protect the public.

This regulatory proposal does not affect worker safety because this proposal is not relative to worker safety.

This regulatory proposal does not affect the state's environment because this proposal is not relevant to the state's environment.

#### CONSIDERATION OF ALTERNATIVES

The Board must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law than the proposal described in this Notice.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above-mentioned hearing.

#### INITIAL STATEMENT OF REASONS AND INFORMATION

The Board has prepared an initial statement of the reasons for the proposed action and has available all the information upon which the proposal is based.

#### TEXT OF PROPOSAL

**INFORMATIVE DIGEST/POLICY STATEMENT  
OVERVIEW**

Senate Bill (SB) 1041 (Chapter 47, Statutes of 2012) made substantial changes to the California Work opportunity and Responsibility to Kids (CalWORKs) Welfare-to-Work (WTW) program requirements that were effective January 1, 2013. The CalWORKs WTW program is the employment and training component of CalWORKs which is funded, in part, by the federal Temporary Assistance to Needy Families (TANF) Block Grant.

Federal welfare reform enacted the TANF program through the Personal Responsibility and Work Opportunity Reconciliation Act (PRWOA) in 1996, limiting federally-funded cash aid to adult recipients to a total of five years. The intent of the WTW program is to provide employment and training services to the maximum possible number of individuals within the adult CalWORKs population to aid them in achieving economic self-sufficiency within this timeframe.

SB 1104 (Chapter 229, Statutes of 2004) and SB 68 (Chapter 78, Statutes of 2005) established a requirement that adults in the WTW program must participate in at least 20 hours per week in specified core WTW activities that will provide them with the necessary training to obtain employment. The balance of their 32- or 25-hour per week participation requirement could be spent in other specified noncore activities.

These proposed regulations amend, adopt, and repeal WTW regulations to comply with SB 1041 by repealing the requirement that adults must participate in at least 20 hours in core WTW activities during a cumulative 24-month period; establishing more stringent participation requirements that are closely aligned with the re-

quirements of the federal TANF Block Grant after exhausting the 24-month period; repealing specified young child WTW participation exemptions for adults and establishing a WTW reengagement process for affected adults; and establishing a new one-time young child exemption for adults with a child under 24 months of age.

This regulatory action will benefit the health and welfare of California residents by establishing a requirement that adults in the Welfare-to-Work Program can participate in any welfare-to-work activity they need, consistent with their assessments, during the Welfare-to-Work 24-month Time Clock period to provide them with the necessary training to obtain employment. Worker safety and the state's environment will not be impacted by these amended regulations. This regulatory action does not make changes to regulations involving worker safety or the state's environment. The amended and adopted regulations will increase the likelihood of stable employment and self-sufficiency for CalWORKs recipients resulting in a positive economic impact to the state.

In addition, the proposed regulations will make other technical, conforming changes, such as adding and renumbering of sections and amending cross references as necessary.

The Department evaluated the proposed regulation for any inconsistency or incompatibility with existing state law and has found that these are the only regulations concerning participation requirement changes to CalWORKs Welfare-to-Work program. Therefore, the proposed regulations are neither inconsistent nor incompatible with existing state regulations, but do fulfill the intent of the Legislature in enacting SB 1041.

**COST ESTIMATE**

1. **Costs or Savings to State Agencies:** The funding was budgeted at approximately \$3 million in the 2014-15 Appropriation, under the Employment Services and WTW Services/Reengagement premises.
2. **Costs to Local Agencies or School Districts Which Must Be Reimbursed in Accordance With Government Code Sections 17500-17630:** None.
3. **Nondiscretionary Costs or Savings to Local Agencies:** There is no impact to the county share of cost for affected programs.
4. **Federal Funding to State Agencies:** The funding was budgeted at approximately \$86 million in the 2014-15 Appropriation, under the Employment Services and WTW Services/Reengagement premises.

**LOCAL MANDATE STATEMENT**

These proposed CalWORKs regulations changes do impose a mandate on local agencies, but not on school districts. The mandate is not required to be reimbursed pursuant to part 7 (commencing with Section 17500) of Division 4 of the Government Code or Section 6 of Article XIII B of the California Constitution because implementation of these regulations will, if anything, result in negligible savings.

**STATEMENT OF SIGNIFICANT ADVERSE ECONOMIC IMPACT ON BUSINESS**

The CDSS has made an initial determination that the proposed action will not have a significant, statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. This determination is made based on the proposed regulatory action, which is designed to impact only the CalWORKs population in order to aid them in achieving economic self-sufficiency.

**STATEMENT OF POTENTIAL COST IMPACT ON PRIVATE PERSONS OR BUSINESSES**

The CDSS is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. This regulatory action is designed to impact only the CalWORKs population in order to aid them in achieving economic self-sufficiency.

**SMALL BUSINESS IMPACT STATEMENT**

The CDSS has made an initial determination that there is no impact on small businesses as a result of filing these regulations because these regulations are only applicable to state and county agencies. The current determination is made based on the proposed regulatory action, which is designed to impact only the CalWORKs population in order to aid them in achieving economic self-sufficiency.

**STATEMENT OF RESULTS OF ECONOMIC IMPACT ASSESSMENT**

The adoption of the proposed amendments will neither create nor eliminate jobs in the State of California nor result in the elimination of existing businesses or create or expand businesses in the State of California. This regulatory action will benefit the health and welfare of California residents by establishing a requirement that adults in the Welfare-to-Work Program can

participate in any welfare-to-work activity they need, consistent with their assessments, during the Welfare-to-Work 24-month Time Clock period to provide them with the necessary training to obtain employment. Worker safety and the state's environment will not be impacted by these amended regulations. This regulatory action does not make changes to regulations involving worker safety or the state's environment. The amended and adopted regulations will increase the likelihood of stable employment and self-sufficiency for CalWORKs recipients resulting in a positive economic impact to the state.

The documents relied upon in proposing this regulatory action are Senate Bill 1041, Chapter 47, Statutes of 2012; Senate Bill 855, Chapter 29, Statutes of 2014; and Assembly Bill 1471, Chapter 439, Statutes of 2012.

#### STATEMENT OF EFFECT ON HOUSING COSTS

The proposed regulatory action will have no effect on housing costs.

#### STATEMENT OF ALTERNATIVES CONSIDERED

In developing the regulatory action, CDSS did not consider any other alternatives because no alternatives were proposed. Additionally, the Legislature mandated that regulations be adopted for these amendments by SB 1041.

The CDSS must determine that no reasonable alternative considered or that has otherwise been identified and brought to the attention of CDSS would be more effective in carrying out the purpose for which the regulations are proposed or would be as effective as and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

#### AUTHORITY AND REFERENCE CITATIONS

The CDSS adopts these regulations under the authority granted in Sections 10553 and 10554. Subject regulations implement and make specific Sections 11265.45, 112565.46, 11265.47, 11265.48, 11320.3, 11322.63, 11322.8, 11322.85, 11322.86, 11322.87, 11451.5, and 11454.5 of the Welfare and Institutions Code [SB 1041 (Chapter 47, Statutes of 2012)].

#### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT

#### SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (Proposition 65)

#### NOTICE TO INTERESTED PARTIES February 20, 2015

#### ANNOUNCEMENT OF THE DEVELOPMENTAL AND REPRODUCTIVE TOXICANT IDENTIFICATION COMMITTEE MEETINGS SCHEDULED FOR MAY 7 AND MAY 21, 2015, AND THE AVAILABILITY OF HAZARD IDENTIFICATION MATERIALS FOR BISPHENOL A (FEMALE REPRODUCTIVE TOXICITY)

The California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA) is the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986<sup>1</sup> (Proposition 65). The Developmental and Reproductive Toxicant Identification Committee (DARTIC) advises and assists OEHHA in compiling the list of chemicals known to the State to cause reproductive toxicity as required by Health and Safety Code section 25249.8. The Committee serves as the state's qualified experts for determining whether a chemical has been clearly shown through scientifically valid testing according to generally accepted principles to cause reproductive toxicity.

Bisphenol A (BPA) will be considered for possible listing based on female reproductive toxicity by the DARTIC at its next meeting scheduled for **Thursday, May 7, 2015**. At this May 7 meeting, the DARTIC will consider whether BPA has been clearly shown by scientifically valid testing according to generally accepted

<sup>1</sup> Health and Safety Code section 25249.5 et seq.

principles to cause **female reproductive toxicity**. BPA is being brought to the DARTIC at this time, consistent with the committee’s request at its July 15, 2009 meeting to re-visit consideration of BPA if additional epidemiological or other specific types of data on reproductive and developmental toxicity became available. Substantial new epidemiological and toxicological data on BPA and female reproductive toxicity have become available since 2009, and thus OEHHA has assembled materials on BPA and female reproductive toxicity for the DARTIC’s consideration.

The May 7 meeting will be held in the Coastal Hearing Room at the Cal/EPA Headquarters building, 1001 I Street, Sacramento, CA. The meeting will begin at 10:00 a.m. and will last until all business is conducted or until 5:00 p.m. If the DARTIC does not complete its deliberations on May 7, the meeting will be continued on **May 21, 2015** at the same location. The agenda for the May 7 meeting will be provided in a future public notice published in advance of the meeting.

OEHHA announces the availability for public review of hazard identification materials on BPA and female reproductive toxicity. The DARTIC will consider these materials in making any listing decision on this chemical. These materials include a recent 2014 scientific review of BPA, other recent relevant scientific publications, and documents provided in 2009 to the DARTIC for its previous consideration of BPA.

Copies of the materials are available from OEHHA’s website at the following address: <http://www.oehha.ca.gov/prop65.html>. The materials may also be requested from OEHHA’s Proposition 65 Implementation Office by calling (916) 445-6900.

This notice marks the beginning of a 45-day public comment period on these materials. **OEHHA must receive comments and any supporting documentation by 5:00 p.m. on Tuesday, April 6, 2015.** We encourage you to submit comments in electronic form, rather than in paper form. Comments transmitted by e-mail should be addressed to [P65Public.Comments@oehha.ca.gov](mailto:P65Public.Comments@oehha.ca.gov). Please include “BPA-female reproductive toxicity” in the subject line.  California Competes Tax Credit

The Governor's Office of Business and Economic Development (GO-Biz) submitted this timely certificate of compliance action to make permanent five sections in title 10 of the California Code of Regulations that were adopted in OAL file nos. 2014-0210-01E, 2014-0808-01EE, and 2014-1107-06EE. The adopted regulations implement Revenue and Taxation Code sections 17059.2, 18410.2, and 23689. Pursuant to those sections, GO-Biz is authorized to administer a tax credit against the "net tax" or the "tax," as defined in Revenue and Taxation Code section 17039 and section 23036, respectively, owed by a taxpayer. This is the California Competes Tax Credit (CCTC) program. The purpose of the CCTC legislation and the implementing regulations is to provide incentives for businesses to stay in California and to attract out-of-state businesses to move to California, for existing California businesses to expand, and to stimulate the growth of jobs.

 Patient Data Transmission Standards

The Office of Statewide Health Planning and Development (Office) is amending two sections in Title 22 of the California Code of Regulations. This amendment is to remove the requirement in regulation to use a data encryption system that has a security vulnerability. This change is necessary so medical records are not sent to the Office using an outdated data encryption system that contains a security vulnerability. This emergency is designed to prevent a serious security risk to medical privacy that could impact millions of Californians.
