The *California Regulatory Notice Register* is an official state publication of the Office of Administrative Law containing notices of proposed regulatory actions by state regulatory agencies to adopt, amend or repeal regulations contained in the California Code of Regulations. The effective period of a notice of proposed regulatory action by a state agency in the *California Regulatory Notice Register* shall not exceed one year [Government Code § 11346.4(b)]. It is suggested, therefore, that issues of the *California Regulatory Notice Register* be retained for a minimum of 18 months.

CALIFORNIA REGULATORY NOTICE REGISTER (USPS 002–931), (ISSN 1041-2654) is published weekly by the Office of Administrative Law, 300 Capitol Mall, Suite 1250, Sacramento, CA 95814-4339. The Register is printed by Barclays, a subsidiary of West, a Thomson Reuters Business, and is offered by subscription for \$205.00 (annual price). To order or make changes to current subscriptions, please call (800) 888-3600. “Periodicals Postage Paid in Saint Paul, MN.” **POSTMASTER:** Send address changes to the: CALIFORNIA REGULATORY NOTICE REGISTER, Barclays, a subsidiary of West, a Thomson Reuters Business, P.O. Box 2006, San Francisco, CA 94126. The Register can also be accessed at <http://www.oal.ca.gov>.

PROPOSED ACTION ON REGULATIONS

Information contained in this document is published as received from agencies and is not edited by Thomson Reuters.

TITLE 2. FAIR POLITICAL PRACTICES COMMISSION

NOTICE IS HEREBY GIVEN that the Fair Political Practices Commission (Commission), pursuant to the authority vested in it by Sections 82011, 87303, and 87304 of the Government Code to review proposed conflict-of-interest codes, will review the proposed/amended conflict-of-interest codes of the following:

CONFLICT-OF-INTEREST CODES

AMENDMENT

STATE AGENCY: California Department of Forestry and Fire Protection

MULTI-COUNTY: Twin Rivers Unified School District
South Coast Air Quality Management District

A written comment period has been established commencing on August 21, 2015, and closing on October 5, 2015. Written comments should be directed to the Fair Political Practices Commission, Attention Ivy Branaman, 428 J Street, Suite 620, Sacramento, California 95814.

At the end of the 45-day comment period, the proposed conflict-of-interest code(s) will be submitted to the Commission's Executive Director for her review, unless any interested person or his/her duly authorized representative requests, no later than 15 days prior to the close of the written comment period, a public hearing before the full Commission. If a public hearing is requested, the proposed code(s) will be submitted to the Commission for review.

The Executive Director of the Commission will review the above-referenced conflict-of-interest code(s), proposed pursuant to Government Code Section 87300, which designate, pursuant to Government Code Section 87302, employees who must disclose certain investments, interests in real property and income.

Any interested person may present statements, arguments or comments, in writing to the Executive Director of the Commission, relative to review of the pro-

posed conflict-of-interest code(s). Any written comments must be received no later than October 5, 2015. If a public hearing is to be held, oral comments may be presented to the Commission at the hearing.

COST TO LOCAL AGENCIES

There shall be no reimbursement for any new or increased costs to local government which may result from compliance with these codes because these are not new programs mandated on local agencies by the codes since the requirements described herein were mandated by the Political Reform Act of 1974. Therefore, they are not "costs mandated by the state" as defined in Government Code Section 17514.

EFFECT ON HOUSING COSTS AND BUSINESSES

Compliance with the codes has no potential effect on housing costs or on private persons, businesses or small businesses.

AUTHORITY

Government Code Sections 82011, 87303 and 87304 provide that the Fair Political Practices Commission as the code-reviewing body for the above conflict-of-interest codes shall approve codes as submitted, revise the proposed code and approve it as revised, or return the proposed code for revision and re-submission.

REFERENCE

Government Code Sections 87300 and 87306 provide that agencies shall adopt and promulgate conflict-of-interest codes pursuant to the Political Reform Act and amend their codes when change is necessitated by changed circumstances.

CONTACT

Any inquiries concerning the proposed conflict-of-interest code(s) should be made to Ivy Branaman, Fair Political Practices Commission, 428 J Street, Suite 620, Sacramento, California 95814, telephone (916) 322-5660.

AVAILABILITY OF PROPOSED CONFLICT-OF-INTEREST CODES

Copies of the proposed conflict-of-interest codes may be obtained from the Commission offices or the respective agency. Requests for copies from the Commis-

sion should be made to Ivy Branaman, Fair Political Practices Commission, 428 J Street, Suite 620, Sacramento, California 95814, telephone (916) 322-5660.

TITLE 3. DEPARTMENT OF FOOD AND AGRICULTURE

The Department of Food and Agriculture (Department) amended subsection 3435(b) of the regulations in Title 3 of the California Code of Regulations pertaining to Asian Citrus Psyllid (ACP) Interior Quarantine as an emergency action which was effective on June 24, 2015. The Department proposes to continue the regulation as amended and to complete the amendment process by submission of a Certificate of Compliance no later than December 21, 2015.

This notice is being provided to be in compliance with Government Code Section 11346.4.

PUBLIC HEARING

A public hearing is not scheduled. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period.

WRITTEN COMMENT PERIOD

Any interested person or his or her authorized representative may submit written comments relevant to the proposed amendment to the Department. Comments may be submitted by mail, facsimile (FAX) at 916.654.1018 or by email to Sara.Khalid@cdfa.ca.gov. The written comment period closes at 5:00 p.m. on October 5, 2015. The Department will consider only comments received at the Department offices by that time. Submit comments to:

Sara Khalid
Department of Food and Agriculture
Plant Health and Pest Prevention Services
1220 N Street
Sacramento, CA 95814
Sara.Khalid@cdfa.ca.gov
916.654.1017
916.654.1018 (FAX)

Following the public hearing if one is requested, or following the written comment period if no public hearing is requested, the Department, at its own motion, or at the instance of any interested person, may adopt the proposal substantially as set forth without further notice.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this state and determine the probability of its spread and the feasibility of its control or eradication (FAC 5321).

Existing law also provides that the Secretary may establish, maintain and enforce quarantine, eradication and other such regulations as she deems necessary to protect the agricultural industry from the introduction and spread of pests (FAC Sections 401, 403, 407 and 5322).

Anticipated Benefits from This Regulatory Action

Existing law, FAC Section 403, provides that the department shall prevent the introduction and spread of injurious insect or animal pests, plant diseases, and noxious weeds.

Existing law, FAC Section 407, provides that the Secretary may adopt such regulations as are reasonably necessary to carry out the provisions of this code which she is directed or authorized to administer or enforce.

Existing law, FAC Section 5321, provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this State and determine the probability of its spread, and the feasibility of its control or eradication.

Existing law, FAC Section 5322, provides that the Secretary may establish, maintain, and enforce quarantine, eradication, and such other regulations as are in her opinion necessary to circumscribe and exterminate or prevent the spread of any pest which is described in FAC Section 5321.

The existing law obligates the Secretary to investigate and determine the feasibility of controlling or eradicating pests of limited distribution but establishes discretion with regard to the establishment and maintenance of regulations to achieve this goal. This amendment provides the necessary regulatory authority to prevent the artificial spread of a serious insect pest which is a mandated statutory goal.

The amendment of this regulation benefits the citrus industries (nurseries, fruit growers, wholesalers, retailers, exporters) and the environment by having a quarantine program to prevent the artificial spread of ACP over long distances. Most all of the commercial citrus fruit and nursery stock production is located outside this proposed quarantine boundary area.

The national and international consumers of California citrus benefit by having high-quality fruit available at lower cost. It is assumed that any increases in production costs will ultimately be passed on to the consumer.

The amendment of this regulation benefits homeowners who grow citrus for consumption and host ma-

terial which is planted as ornamentals in various rural and urban landscapes.

FAC Section 401.5 states, “the department shall seek to protect the general welfare and economy of the state and seek to maintain the economic well-being of agriculturally dependent rural communities in this state.” The amendment of this regulation is preventing the artificial spread of ACP to uninfested areas of the State.

Huanglongbing (HLB) is generally distributed in Florida due to ACP being generally distributed there. The University of Florida Institute of Food and Agricultural Sciences Extension calculated and compared the impact of having and not having HLB present in Florida and concluded HLB had a total impact of \$3.64 billion and eliminated seven percent of the total Florida workforce. The overall California economy benefits by the amendment of this regulation which is intended to prevent ACP from becoming generally distributed in California and resulting in a similar effect on our economy as to what happened in Florida. This is now critical as HLB has been introduced into California.

There is no existing, comparable federal regulation or statute regulating the intrastate movement.

The Department considered any other possible related regulations in this area, and we find that these are the only regulations dealing in this subject area, and the only State agency which can implement plant quarantines. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of this regulation and has determined that it is not inconsistent or incompatible with existing state regulations.

AMENDED TEXT

This regular rulemaking action expanded the quarantine area for ACP in the San Jose area of Santa Clara County and into Alameda County by approximately 13 square miles. The effect of the amendment of this regulation is to provide authority for the State to perform quarantine activities against ACP within this additional area. The total area which would be under regulation is now approximately 51,690 square miles.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Mandate on local agencies and school districts: None.
Cost or savings to any state agency: None.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code Sections 17500 through 17630: None and no nondiscre-

tionary costs or savings to local agencies or school districts.

Cost or savings in federal funding to the state: None.

The Department has made an initial determination that there will be no significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

Cost impacts on a representative private person or business: Most businesses will not be affected. There are no citrus production nurseries in the affected area that will be impacted. There are six retail nurseries in the affected area. There is one citrus grower in the proposed area. There is no additional cost to growers who take their fruit to a packinghouse inside the current quarantine area. Growers choosing a packinghouse outside the quarantine area have three options: 1. Conduct pre-harvest treatments with an approved pesticide while fruit is still on the trees; 2. Field-clean the fruit to remove leaves and stems during harvest; 3. Send the fruit to a packinghouse within the quarantine area to be cleaned. Pre-harvest treatments cost growers approximately \$60 per acre and the fruit is required to be covered with a tarp while in transit. Tarps range in price from \$2,500–\$3,000 apiece. Field-cleaning the fruit will cost the grower approximately \$150–\$320 per acre depending on the citrus variety. Field-cleaned fruit does not require a tarp for transport and can be moved within or from the quarantined area. Cleaning at a packinghouse within the quarantine area will cost the grower approximately \$300–\$400 per acre and the fruit must remain within the quarantine area, although the loads do not need to be covered with a tarp. There are no citrus packing houses located within this quarantine area.

Based on the preceding above information, it was determined that due to the amendment of Section 3435(b), the agency is not aware of any cost impact on a representative business or private person. For the vast majority of businesses within the regulated area, no additional costs will be incurred.

Small Business Determination

The Department has determined that the proposed regulations may affect small business.

Significant effect on housing costs: None.

Results of the Economic Impact Analysis

Amendment of these regulations will not:

- (1) Create or eliminate jobs within California;
- (2) Create new businesses or eliminate existing businesses within California; or
- (3) Affect the expansion of businesses currently doing business within California.

The Department is not aware of any specific benefits the amendment of this regulation will have on worker safety or the health of California residents. The Depart-

ment believes the amendment of this regulation benefits the welfare of California residents by protecting the economic health of the entire citrus industry. In 2010 the estimated value was \$2.1 billion for citrus fruit and \$28.5 million for citrus nursery stock without all the upstream buyers and downstream retailers included (*Reference: John Gilstrap of California Citrus Nursery Board for citrus nursery stock value and USDA–National Agricultural Statistics Service 2010 data for citrus fruit*). This is a needed source of revenue for the State’s economic health and this amendment will help protect this source of revenue.

ALTERNATIVES CONSIDERED

The Department must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law than the proposal described in this Notice.

AUTHORITY

The Department proposes to amend Section 3435(b) pursuant to the authority vested by Sections 407, 5301, 5302 and 5322 of the FAC.

REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 5301, 5302 and 5322 of the FAC.

CONTACT

The agency officer to whom written comments and inquiries about the initial statement of reasons, proposed actions, location of the rulemaking files, and request for a public hearing may be directed is: Sara Khalid, Department of Food and Agriculture, Plant Health and Pest Prevention Services, 1220 N Street, Room 210, Sacramento, California 95814, (916) 654–1017, FAX (916) 654–1018, E-mail: Sara.Khalid@cdfa.ca.gov. In her absence, you may contact Stephen Brown at (916) 654–1017. Questions regarding the substance of the proposed regulation should be directed to Sara Khalid.

INTERNET ACCESS

The Department has posted the information regarding this proposed regulatory action on its Internet website (www.cdfa.ca.gov/plant/Regulations.html).

AVAILABILITY OF STATEMENT OF REASONS AND TEXT OF PROPOSED REGULATIONS

The Department has prepared an initial statement of reasons for the proposed actions, has available all the information upon which its proposal is based, and has available the express terms of the proposed action. A copy of the initial statement of reasons and the proposed regulations in underline and strikeout form may be obtained upon request. The location of the information on which the proposal is based may also be obtained upon request. In addition, when completed, the final statement of reasons will be available upon request. Requests should be directed to the contact named herein.

If the regulations adopted by the Department differ from, but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency officer (contact) named herein.

TITLE 5. COMMISSION ON TEACHER CREDENTIALING

Division VIII of Title 5 of the California Code of Regulations Proposed Amendments to Title 5 of the California Code of Regulations Pertaining to the Supplementary Authorization in Computer Science

The Commission on Teacher Credentialing (Commission) proposes to take the regulatory action described below after considering all comments, objections, and recommendations regarding the proposed action. A copy of the proposed regulations is attached with the added text underlined and the deleted text lined out.

A public hearing on the proposed actions will be held:

October 9, 2015

8:30 a.m.

**Commission on Teacher Credentialing
1900 Capitol Avenue
Sacramento, California 95811**

WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written comments by fax,

through the mail, or by email relevant to the proposed action. The written comment period closes at 5:00 p.m. October 5, 2015. Comments must be received by that time or may be submitted at the public hearing. You may fax your response to (916) 322-0048; write to the Commission on Teacher Credentialing, attn. David Crable, 1900 Capitol Avenue, Sacramento, California 95811; or submit an email to dcrable@ctc.ca.gov.

Any written comments received 15 days prior to the public hearing will be reproduced by the Commission's staff for each member of the Commission as a courtesy to the person submitting the comments and will be included in the written agenda prepared for and presented to the full Commission at the hearing.

AUTHORITY AND REFERENCE

Education Code section 44225 authorizes the Commission to adopt the proposed regulations. The proposed regulations implement, interpret, and make specific Education Code section 44256 pertaining to requirements for supplementary authorizations. The proposed regulations also include amendments to the forms required during the application process.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Summary of Existing Laws and Regulations

This rulemaking action proposes amendments to sections 80057 and 80089 of Title 5 of the California Code of Regulations (CCR) related to supplementary authorizations as approved by the Commission at the June 2015 meeting.

GENERAL PROVISIONS

Supplementary Authorizations are limited subject area authorizations for departmentalized instruction that may be added to a general education teaching credential (i.e., Multiple Subject, Single Subject, or older equivalent). Supplementary Authorizations are based on the completion of coursework (20 lower division or 10 upper division/graduate semester units) in the subject area from a regionally accredited college or university. These authorizations and the units required are specified in statute. The Commission establishes the specific content areas of study for the coursework that must be completed within regulations.

The proposed amendments to regulations reflect a change in focus for the Supplementary Authorization in Computer Concepts and Applications (CCA) from content preparation for teaching basic computer use, key-

boarding, and software applications to more relevant 21st century content inclusive of the range of Computer Science courses taught in California public schools. The proposed amendments include revised Content Areas of Study for the Supplementary Authorization to serve as a basis for increasing the capacity of teachers prepared to provide instruction in the range of K-12 Computer Science courses in California public schools. The proposed regulations also include changing the name of the Supplementary Authorization in CCA to Computer Science as well as general clean-up of outdated language within the same sections of these regulations.

PROPOSAL FOR A SUPPLEMENTARY AUTHORIZATION IN COMPUTER SCIENCE

Over the past year, Commission staff has engaged in a series of conversations with representatives from the Alliance for California Computing Education for Students and Schools (ACCESS) and the Computer Science Teachers Association (CSTA) about the current preparation and authorizations for teaching the range of K-12 Computer Science classes in California schools. It is important to note that what is encompassed by the discipline of Computer Science for K-12 students has changed. The broad scope of Computer Science today is reflected in the following definition:

*Computer Science is the study of computers and algorithmic processes, including their principles, their hardware and software designs, their applications, and their impact on society.*¹

At the February 2015 Commission meeting (<http://www.ctc.ca.gov/commission/agendas/2015-02/2015-02-6B.pdf>), it was discussed how coursework offered in Computer Science in California public schools has evolved rapidly in recent years while the required Content Areas of Study for the Supplementary Authorization in CCA have remained the same since first developed in 1987.

To address concerns that educators receive the appropriate preparation to teach a range of relevant computer science courses to California students beyond basic computer functions and applications, Commissioners provided staff direction to bring forward proposed amendments to Title 5 regulations pertaining to the Supplementary Authorization in CCA.

At the June 2015 meeting (<http://www.ctc.ca.gov/commission/agendas/2015-06/2015-06-7B.pdf>), the Commission took action to approve proposed amendments to Title 5 regulations pertaining to the Supplementary Authorization in CCA to strengthen the required Content Areas of Study for the Supplementary

¹ CSTA K-12 Computer Science Standards, 2011, <http://www.csta.acm.org/Curriculum/sub/K12Standards.html>.

Authorization and to change the name of the Supplementary Authorization to Computer Science.

The proposed regulations strengthen the required Content Areas of Study for the Supplementary Authorization to ensure holders have the requisite content knowledge to teach the scope of Computer Science classes now offered in California public schools. To reflect the broader approach to this content area, the proposed regulations include changing the name of this Supplementary Authorization to Computer Science.

California Education Code section 44256 specifies the types of supplementary authorizations that may be added to elementary and secondary teaching creden-

tials, grade level limitations, and the units required so those specific elements remain the same as the current requirements. However, this section of statute also provides that the Commission, by regulation, may require evidence of additional competence as a condition for instruction in particular subjects.

The chart below provides the scope of the current Supplementary Authorizations in CCA and Content Areas of Study now required and the proposed modifications for the new Supplementary Authorizations in Computer Science, in the far right-hand column indicated by underlined text.

Authorization	Unit Requirements	Content Areas of Study- Computer Concepts and Applications	
		Current	Proposed
<p><i>Introductory Supplementary Authorization</i></p> <ul style="list-style-type: none"> Listed on Multiple Subject/Elementary Credentials for teaching grades 9 and below Listed on Single Subject/Secondary Credentials for teaching curriculum level grade 9 and below; students may be in grades K-12 	20 Semester Units ¹ or 10 Semester Units of Upper Division or Graduate Level Coursework	<p>Requires coursework covering each content area:³</p> <ul style="list-style-type: none"> software evaluation and selection hardware operation and functions² classroom uses of computers 	<p>Requires coursework covering each content area:³</p> <ul style="list-style-type: none"> <u>computational thinking</u> <u>computing practice and programming</u> <u>computers and communication devices</u> <u>impacts of computing⁴ (e.g., social, ethical, legal)</u>
<p><i>Specific Subject Supplementary Authorization</i></p> <ul style="list-style-type: none"> Listed only on Single Subject/Secondary Credentials for teaching content in grades K-12 	20 Semester Units ¹ or 10 Semester Units of Upper Division or Graduate Level Coursework	<ul style="list-style-type: none"> Specific Subject Supplementary Authorizations have no required content areas. All coursework must fall within the academic department for the subject category. 	<p>Requires coursework covering each content area:³</p> <ul style="list-style-type: none"> <u>computer programming</u> <u>data structures and algorithms</u> <u>digital devices, systems and networks</u> <u>software design</u> <u>impacts of computing⁴ (e.g., social, ethical, legal)</u>

¹ All lower division units or a combination of upper and lower division units.

² An Introduction to Data Processing may be used for hardware operations and functions. Java, Cobol, Basic, and Pascal are examples of computer languages and do not apply to hardware but are acceptable as electives toward the overall unit requirement.

³ The balance of the units may be in any course that falls within the academic department for that subject category. Computer classes in the Education Department may be used **including a pedagogy course in computer science from either department.**

⁴ These topics may be included within courses covering the other content areas.

For the Introductory Supplementary Authorization in Computer Science, coursework completed must cover the following content areas:

- Computational thinking:** involves solving problems and designing systems, using fundamental computing concepts such as decomposition, data representation, generalization/abstraction, and algorithms.

- **Computing practice and programming:** includes expertise in at least one block-based, visual (drag-and-drop) programming language (e.g., Alice, Blockly, Kodu, Logo, Scratch, Snap!) or a modern, high-level programming language.
- **Computer and communications devices:** covers the major components and functions of digital devices and the computing systems they compose.
- **Impacts of computing:** includes the social, ethical, and legal issues and impacts of computing, as well as the contributions of computer science to current and future innovations in the arts, business, humanities, medicine, and science. These topics may be included within courses covering the other content areas.

For the Specific Supplementary Authorization in Computer Science, coursework completed must cover the following content areas:

- **Computer Programming:** includes expertise in at least one modern, high-level programming language (e.g., Python, Java, C/C++/C#).
- **Data structures and algorithms:** covers data representation, abstraction, searching and sorting in the context of solving problems using programming and computational tools.
- **Digital devices, systems and networks:** covers computer and communication devices and the systems they compose, including the concepts and abstractions that enable stand-alone, networked, and mobile digital devices to operate and communicate.
- **Software design:** covers the process of planning, engineering and implementing a software system to solve a problem, typically using both a design and a programming methodology, such as object-oriented and functional approaches.
- **Impacts of computing:** includes the social, ethical, and legal issues and impacts of computing, as well as the contributions of computer science to current and future innovations in the arts, business, humanities, medicine, and science. These topics may be included within courses covering the other content areas.

The Content Areas of Study coursework requirements for the Supplementary Authorization in CCA currently in regulations specifies coursework in content that has now become primarily addressed within the preliminary preparation program standards for all general and special education teaching credentials (i.e., software evaluation and selection, hardware operation and functions, and classroom uses of computers) in Program Standard 11: Using Technology in the Classroom

(Appendix A in June 2015 agenda item 7B). The proposed modifications shown to the Content Areas of Study for the Supplementary Authorization in Computer Science reflect a more comprehensive preparation with direct relevance to the range of K–12 Computer Science courses offered in California public schools today.

The chart also includes as approved at the June 2015 meeting bifurcation of the required Content Areas of Study for both Introductory and Specific Subject Supplementary Authorizations in Computer Science. Presently, the holder of a Single Subject Teaching Credential may only obtain the Specific Subject Supplementary Authorization in CCA, which authorizes departmentalized teaching in the subject area in grades K–12 but does not require any specific Content Areas of Study within the semester units completed. As some Single Subject Credential holders with the Supplementary Authorization are teaching at the elementary and middle school level, the addition of an Introductory Supplementary Authorization in this content area for these teachers provides more flexibility to choose the level of Supplementary Authorization (Introductory or Specific) that is most appropriate and clarifies the coursework appropriate to each level. This additional option provides for a thorough but introductory level of content for teaching computer science intended for students through grade 9 and also aligns with the Content Areas of Study coursework requirements for holders of a Multiple Subject Credential teaching computer science to students in the same grade levels.

As specified in statute, all teachers who are currently authorized to teach the range of courses in Computer Science will remain authorized (e.g., holders of a Supplementary Authorization in CCA or a Single Subject teaching credential in Mathematics, Business, or Industrial Technology Education) even if the proposed amendments are adopted within regulations.

Only teachers initially earning one of these supplementary authorizations in the future would be required to satisfy the revised Content Areas of Study and be issued the Supplementary Authorization in Computer Science. The proposed regulations include an effective date of April 1, 2016 in order to provide transition time for teachers currently pursuing a Supplementary Authorization in CCA.

Objectives and Anticipated Benefits of the Proposed Regulations

The objectives of the proposed regulation amendments are to:

- change the name of the Supplementary Authorization in Computer Concepts and Applications to Computer Science

- specify the required content areas of study educators must complete to obtain the Supplementary Authorization in Computer Science
- general cleanup of sections that refer to options to obtain supplementary authorizations that are no longer available.

The Commission anticipates that the proposed amendments will benefit the welfare of students attending public schools in the State of California by assuring teachers seeking to teach Computer Science courses will have completed the comprehensive preparation required to provide meaningful instruction in the range of K–12 Computer Science courses available in California public schools. The proposed regulations will promote fairness and prevent discrimination by ensuring uniformity in the requirements individuals are held to when providing instruction to students in the content area of Computer Science. The Commission does not anticipate that the proposed regulations will result in the protection of public health and safety, worker safety, or the environment, the prevention of social inequity or an increase in openness and transparency in business and government.

Determination of Inconsistency/Incompatibility with Existing State Regulations

The Commission has determined that the proposed regulation amendments are not inconsistent or incompatible with existing regulations. After conducting a review for any regulations that would relate to or affect this area, the Commission has concluded that these are the only regulations that concern the supplementary authorization in Computer Science in California.

DOCUMENTS INCORPORATED BY REFERENCE

None.

DOCUMENTS RELIED UPON IN PREPARING REGULATIONS

February 2015 Commission agenda item 6B: <http://www.ctc.ca.gov/commission/agendas/2015-02/2015-02-6B.pdf>.

June 2015 Commission agenda item 7B: <http://www.ctc.ca.gov/commission/agendas/2015-06/2015-06-7B.pdf>.

DISCLOSURES REGARDING THE PROPOSED ACTIONS

The Commission has made the following initial determinations:

Mandate to local agencies or school districts: None.

Other non-discretionary costs or savings imposed upon local agencies: None.

Cost or savings to any state agency: None.

Cost or savings in federal funding to the state: None.

Significant effect on housing costs: None.

Significant statewide adverse economic impact directly affecting businesses including the ability of California businesses to compete with businesses in other states: None.

These proposed regulations will not impose a cost on local agencies or school districts that must be reimbursed in accordance with Part 7 (commencing with section 17500) of the Government Code.

Cost impacts on a representative private person or business: The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Statement of the Results of the Economic Impact Assessment [Govt. Code § 11346.5(a)(10)]: The Commission concludes that it is (1) unlikely that the proposal will create any jobs within the State of California; 2) unlikely that the proposal will eliminate any jobs within the State of California; 3) unlikely that the proposal will create any new businesses with the State of California; 4) unlikely that the proposal will eliminate any existing businesses within the State of California; and 5) unlikely the proposal would cause the expansion of businesses currently doing business within the State of California.

The Commission anticipates that the proposed amendments will benefit the welfare of students attending public schools in the State of California by assuring individuals seeking to teach Computer Science have completed the comprehensive preparation required to provide meaningful instruction in the range of K–12 Computer Science courses available in California public schools. The proposed regulations will promote fairness and prevent discrimination by ensuring uniformity in the requirements individuals must meet to obtain the Supplementary Authorization in Computer Science. The Commission does not anticipate that the proposed regulations will result in the protection of public health and safety, worker safety, or the environment, the prevention of social inequity or an increase in openness and transparency in business and government.

Effect on small businesses: The proposed regulations will not have a significant adverse economic impact upon business. The proposed regulations apply only to

individuals applying for credentials that authorize service in California's public schools.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Commission must determine that no reasonable alternative considered by the agency or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed, would be as effective as and less burdensome to affected private persons than the proposed actions, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law. The Commission invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period or at the public hearing.

CONTACT PERSON/FURTHER INFORMATION

General or substantive inquiries concerning the proposed action may be directed to David Crable by telephone at (916) 323-5119 or write to David Crable, Commission on Teacher Credentialing, 1900 Capitol Avenue, Sacramento, CA 95811. General question inquiries may also be directed to Janet Bankovich (back-up contact) at (916) 323-7140 or at the address mentioned in the previous sentence. Upon request, a copy of the express terms of the proposed action and a copy of the initial statement of reasons will be made available. This information is also available on the Commission's website at www.ctc.ca.gov. In addition, all the information on which this proposal is based is available for inspection and copying.

AVAILABILITY OF STATEMENT OF REASONS AND TEXT OF PROPOSED REGULATIONS

The entire rulemaking file is available for inspection and copying throughout the rulemaking process at the Commission office at the above address. As of the date this notice is published in the Notice Register, the rulemaking file consists of the Notice of Proposed Rulemaking, the proposed text of regulations, the Initial Statement of Reasons, and an economic impact assessment/analysis contained in the Initial Statement of Reasons, and the documents incorporated by reference. Copies may be obtained by contacting David Crable at the address or telephone number provided above.

MODIFICATION OF PROPOSED ACTION

If the Commission proposes to modify the actions hereby proposed, the modifications (other than nonsubstantial or solely grammatical modifications) will be made available for public comment for at least 15 days before they are adopted.

AVAILABILITY OF FINAL STATEMENT OF REASONS

The Final Statement of Reasons is submitted to the Office of Administrative Law as part of the final rulemaking package, after the public hearing. Upon its completion, copies of the Final Statement of Reasons may be obtained by contacting David Crable at (916) 323-5119.

AVAILABILITY OF DOCUMENTS ON THE INTERNET

Copies of the Notice of Proposed Rulemaking, the Initial Statement of Reasons, and the text of the regulations and the forms incorporated by reference in underline and strikethrough can be accessed through the Commission's website at www.ctc.ca.gov.

TITLE 8. DEPARTMENT OF INDUSTRIAL RELATIONS

AMENDMENTS TO CALIFORNIA CODE OF REGULATIONS, Title 8, Division 1, Chapter 3.2, Subchapter 1, Article 4, Sections 333 and 336.

Subject Matter of Proposed Rulemaking: Abatement Credit for Cal/OSHA Citations.

PUBLIC HEARING

Notice is hereby given that the California Department of Industrial Relations ("the Department") proposes to adopt the amendments to Title 8, Section 333 and 336, of the California Code of Regulations ("Title 8" or "8 CCR") described below ("the Proposed Regulations") after considering all comments, objections or recommendations regarding the proposed action.

A public hearing has been scheduled to permit all interested persons the opportunity to present statements or arguments, orally or in writing, with respect to the Proposed Regulations, as follows:

Date: October 9, 2015
 Time: 10:00 a.m. to 5:00 p.m.,
 or the conclusion of business, if
 before 5:00 p.m.
 Place: Elihu M. Harris State Building
 1515 Clay Street, Room 1304
 Oakland, CA 94612.

WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written comments relevant to the Proposed Regulations. Written comments, regardless of the method of transmittal, must be received by the Division representatives named below by 5:00 p.m. on October 9, 2015, which is hereby designated as the close of the written comment period. Comments received after this date will not be considered timely. Persons wishing to use the California Relay Service may do so at no cost by dialing 711.

Please Be Advised: All visitors to this building are required to go through a security screening which includes passing through metal detectors, and the x-ray-ing and inspection of all personal belongings.

The building is accessible to persons with mobility impairments. Other disability accommodations are available upon request.

Any person with a disability requiring an accommodation, auxiliary aid or service, or a modification of policies or procedures to ensure effective communication and access to the programs of the Director should contact the Statewide Disability Accommodation Coordinator at 1-866-326-1616 (toll free), or through the California Relay Service by dialing 711 or 1-800-735-2929 (TTY/English) or 1-800-855-3000 (TTY/Spanish) as soon as possible to request assistance. Accommodation requests should be made as soon as possible. Requests for an assistive-listening system or communication access real-time translation should be made no later than five (5) days before the hearing.

In order to ensure unimpeded access for disabled individuals wishing to present comments and facilitate the accurate transcription of public comments, camera usage will be allowed in only one area of the hearing room. To provide everyone a chance to speak, public testimony may be limited to 10 minutes per speaker and should be specific to the proposed regulations. Testimony which would exceed 10 minutes may be submitted in writing.

Please note that public comment will begin promptly at 10:00 a.m. and will conclude when the last speaker has finished his or her presentation. If public comment concludes before the noon recess, no afternoon session will be held.

The Director of the Department of Industrial Relations (“the Director”) requests, but does not require, that all persons who make oral comments at the hearing also provide a written copy of their comments. Equal weight will be accorded to oral comments and written comments. The Director also requests that comments be submitted directly to the Division of Occupational Safety and Health (“the Division”). Division staff will be conducting the hearing on behalf of the Director.

Written comments may be submitted to the Division by any of the following means:

1. By mail or hand delivery to Chris Grossgart, IRC IV, DOSH Legal Unit, 1515 Clay Street, Suite 1901, Oakland, CA 94612;
2. By fax transmission addressed to Chris Grossgart at (510) 286-7039; or
3. By email to: cgrossgart@dir.ca.gov. It is strongly urged that email transmission of comments, particularly those with attachments, contain the regulation identifier “Abatement Credit Comment” in the “subject” line to facilitate timely identification and review of the comment.

All comments, including email or fax transmissions, should include the commenter’s name and U.S. Postal Service mailing address in order for the Division to provide the commenter with notice of any proposed changes to the regulation text on which additional comments may be solicited.

AUTHORITY AND REFERENCE

Section 333:

Labor Code sections 54, 55 and 6319 authorize the Director to adopt the Proposed Regulations. The Proposed Regulations implement, interpret, and make specific Sections 6319, 6320, and 6625 of the Labor Code.

Section 336:

Labor Code Sections 54, 55, 6319, 6319.3, 6401.7 and 9060 authorizes the Director to adopt the Proposed Regulations. The Proposed Regulations implement, interpret, and make specific Sections 6314.5, 6318, 6319, 6320, 6401.7, 6409.1, 6427-6432, 6434, 6625, 7320, 7321, 7321.5, 7381 and 9060 of the Labor Code.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The Department is the state agency responsible for administering California’s state plan for occupational

safety and health. The Department is under the control of the Director, who performs all duties and exercises all powers and jurisdiction vested by law in the Department, including the promulgation of regulations necessary to carry out the provisions of the Labor Code.

The Division of Occupational Safety and Health (“the Division”) within the Department is charged with the administration and enforcement of the provisions of the California Occupational Safety and Health Act, commencing with Labor Code section 6300, as well as other provisions of law impacting upon the health and safety of employees in the State of California. The Division has jurisdiction over every employment and place of employment in California to enforce all laws or special orders requiring such employment and place of employment to be safe.

After inspecting an employer’s work place, the Division is authorized to issue citations to that employer for violations of Title 8 discovered during the inspection. The Division also has authority to impose civil penalties with the citations it issues. The Division calculates the amount of the civil penalties according to Title 8 regulations promulgated by the Director.

One factor in calculating a civil penalty is abatement; employers who abate cited violations may be eligible for a 50% penalty reduction as an “abatement credit.”

Prior to February 2015, the Division granted the 50% abatement credit to employers at the time of issuance, on the presumption that the employers would abate violations by the date the Division fixed for abatement on the face of the citations. In other words, the Division granted the abatement credit *prospectively*, before the employers were even required to abate the cited conditions.

Effective January 1, 2015, the Legislature amended Labor Code sections 6319 and 6320 to prohibit the Division from granting an abatement credit unless the employer has either abated the violation while the Division’s inspection is ongoing, or submitted evidence of abatement within 10 working days after the end of the period the Division fixes for abatement in a citation. (Stats 2014 Ch. 497 § 1 (AB 1634).)

The Director promulgated emergency regulations, effective February 12, 2015, to implement the requirements of AB 1634 (“the Emergency Regulations”). The Emergency Regulations made the following changes to Sections 333 and 336 of Title 8:

1. Under Section 333, if an employer fails to notify the Appeals Board in writing of its intention to contest a citation within 15 working days from the date it receives a citation and civil penalty, then the citation and civil penalty are deemed a final order of the Appeals Board, not subject to review by any court agency. The Emergency Regulations added the words “Final Order” to the title of Section 333.

In addition, the Emergency Regulations created an exception in the “final order rule” of Section 333 to allow the Division to modify the civil penalty of a citation pursuant to Section 336(e)(2) even if the citation has become a final order by operation of law, and further specified that any such modification to the civil penalty would not be appealable to the Appeals Board.

2. The Emergency Regulations divided Section 336(e) into subsections (e)(1), relating to abatement credits for General violations and subsection (e)(2), relating to abatement credits for Serious violations. The Emergency Regulations deleted provisions relating to the abatement of Serious violations from Subsection (e)(1).
3. The Emergency Regulations added Subsection (e)(2) to govern abatement credit for Serious citations. It provides that, for Serious violations not listed in Subsection (e)(3), the Division will not grant an abatement credit unless the employer has either: (a) abated the violation during the course of the Division’s inspection and before the issuance of a citation; or (b) submitted to the Division a signed statement with supporting evidence showing abatement of the Serious violation within 10 working days after the end of the period the Division fixed for abatement in the citation.
4. Subsection (e)(3) of the Emergency Regulations listed the types of Serious violations that would not be subject to an abatement credit, including: (a) Serious citations with high Extent and Likelihood modifiers; (b) citations classified as “Repeat Serious” and “willful Serious;” (c) Serious violations respecting the use of a carcinogen; and (d) Serious violations causing death or serious injury, illness, or exposure as defined in Labor Code section 6302.

The Emergency Regulations will be in effect until August, 2015. Before that time, the Director proposes to promulgate the Proposed Regulations, which are substantially similar to the Emergency Regulations, through the regular rulemaking process so that they will continue in effect after August. However, as set forth below, the Director proposes to make some changes to the language of the Emergency Regulations, as follows:

The Proposed Regulations would add the words “Final Order” to the title of Section 333 to alert the regulated public as to the subject matter of that section. Second, the Proposed Regulations would divide Section 333 into Subsection 333(a) and Subsection 333(b). Subsection 333(a) would enunciate the existing general rule that, if an employer fails to notify the Appeals Board in writing of its intention to contest a citation

within 15 working days from the date it received a citation and civil penalty, then the citation and civil penalty are deemed a final order of the Appeals Board, not subject to review by any court or agency.

In addition, under new Subsection 333(b), the Proposed Regulations would create an exception in the “final order rule” of Subsection 333(a) to require the Division to modify the civil penalty of a citation pursuant to Section 336(e)(2) if an employer timely submits satisfactory proof of abatement, even if the citation has become a final order by operation of law. Subsection (b) also allows employers to appeal the Division’s denial of abatement credit if there is a dispute about the sufficiency of timely submitted abatement measures or if there is a dispute about the correct calculation of the 50% abatement credit.

The Proposed Regulations would amend Section 336 as follows:

1. Existing section 336(e) governs abatement credit for General and Serious violations. The Proposed Regulations would divide Subsection (e) into subsections (e)(1) and (e)(2). Subsection (e)(1) would govern abatement credits for General violations, while Subsection (e)(2) would govern abatement credits for Serious violations. The Proposed Rulemaking would delete provisions relating to the abatement of Serious violations from subsection (e)(1). It would also specify that “Repeat General” and “Willful General” citations would not be eligible for an abatement credit.
2. The Proposed Regulations would add subsection (e)(2) to Section 336 to govern abatement credit for Serious citations. It would provide that, for Serious violations not listed in subsection (e)(3), the Division will only grant an abatement credit if the employer has either: (a) abated the violation during the course of the Division’s inspection and before the issuance of a citation; or (b) submitted to the Division a signed statement with supporting evidence showing abatement of the Serious violation within 10 working days after the end of the period the Division fixed for abatement in the citation.
3. Subsection (e)(3) of the Proposed Regulations would list the types of Serious violations that would not be subject to an abatement credit, including: (a) Serious citations with high Extent and Likelihood modifiers; (b) citations classified as “Repeat Serious” and “Willful Serious”; (c) Serious violations respecting the use of a carcinogen; and (d) Serious violations causing death or serious injury, illness, or exposure as defined in Labor Code section 6302.

4. The Proposed Regulations would amend Subsection (f) to specify that the required statement of abatement must be signed.

Anticipated Benefits of the Proposed Regulations:

The Proposed Regulations will immediately further the goal of A.B. 1634 to promote safe and healthful workplaces by encouraging employers to correct serious unsafe and unhealthy working conditions — i.e., those conditions which have a reasonable possibility of causing serious injury or death — within days after receipt of a citation in order to receive the 50% civil penalty reduction, rather than potentially waiting up to several years to abate once all appeals of a citation have been exhausted.

Determination of Inconsistency/Incompatibility with Existing State Regulations:

The Director has determined that the Proposed Regulations are not inconsistent or incompatible with existing regulations. After conducting a review for any regulations that would relate to or affect this area, the Director has concluded that these are the only regulations that concern the calculation of abatement credit for the Division’s citations and civil penalties.

DISCLOSURES REGARDING THE PROPOSED REGULATIONS

The Director has made the following initial determinations:

Mandate on local agencies and school districts: None.

Costs or savings to any State agency: The Director is not aware of any costs or savings that a State agency will incur in reasonable compliance with the Proposed Regulations.

However, as set forth in greater detail in the discussion of Cost Impacts on Representative Private Persons or Businesses, below, State Agencies that fail to timely abate cited Serious workplace hazards may forfeit the 50% abatement credit.

Costs to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None.

Other nondiscretionary costs or savings imposed on local agencies: None.

Costs or savings in federal funding to the state: None.

Cost Impacts on Representative Private Persons or Businesses: The Director is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the Proposed Regulations.

Under existing regulations, the Division prospectively grants a 50% abatement credit to the proposed civil penalty for eligible citations at the time of issuance, on the presumption that the cited employer will timely

abate the cited condition. If an employer fails to timely abate a given citation, the Division is authorized to rescind the 50% abatement credit, re-inspect the work place, and/or issue a failure-to-abate citation with enhanced civil penalties. Thus, an employer ultimately does not retain the 50% abatement credit unless it corrects a cited hazard.

The Proposed Regulations have a similar effect, with less administrative work for the Division. The Division will not grant the 50% abatement credit for Serious citations unless and until the employer has abated the cited serious hazard. Thus, employers who comply with the abatement requirements will receive abatement credit for timely-submitted proof of abatement. Only those employers who fail to timely submit proof of abatement will forfeit the 50% abatement credit, even if they later submit satisfactory evidence of abatement.

Statistics from the Integrated Management Information System (“IMIS”) show that approximately 40% of Serious citations are not abated at the time of issuance. However, it is not possible to extract from IMIS the number of Serious citations out of that 40% for which the Division does not receive timely proof of abatement. Therefore, the Director cannot estimate what the aggregate cost impact will be to employers who choose not to timely abate Serious citations.

Statewide adverse economic impact directly affecting businesses and individuals: Although the Proposed Regulations will directly affect businesses (that have employees) statewide, the Director anticipates that the adverse economic impact, including the ability of California businesses to compete with business in other states, will not be significant.

Significant effect on housing costs: The Proposed Regulations will not significantly affect housing costs.

Results of the Economic Impact Analysis/Assessment:

The Director concludes that it is (1) unlikely that the Proposed Regulations will eliminate any jobs for employers, (2) unlikely that the Proposed Regulations will create a significant number of jobs for employers, (3) unlikely that the Proposed Regulations will create a significant number of new businesses employing workers, (4) unlikely that the Proposed Regulations will eliminate any existing businesses, and (5) unlikely that the Proposed Regulations will result in the expansion of businesses currently doing business within the state.

Benefits of the Proposed Action: The Proposed Regulations will benefit California workers because it will induce employers to abate occupational safety and health violations within days of the issuance of citations in order to receive an abatement credit. The faster employers abate unsafe conditions, the less time their employees are exposed and at risk of injury or illness on the job. The anticipated decrease in injuries will have atten-

dant economic benefits, including fewer work days lost to occupational injuries and illnesses and fewer workers’ compensation claims.

Small Business Determination: The Director has determined that the Proposed Regulations affect small business.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Director must determine that no reasonable alternative it considered or that has otherwise been identified and brought to her attention would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the Proposed Regulations or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Director invites interested persons to present statements or arguments with respect to alternatives to the Proposed Regulations at the scheduled hearing or during the written comment period.

CONTACT PERSONS

Inquiries concerning the Proposed Regulations may be directed to:

Christopher Grossgart, IRC IV
 Division of Occupational Safety and Health,
 Legal Unit
 1515 Clay Street, Suite 1901
 Oakland, CA 94612
 Telephone: (510) 286-7348
 Facsimile: (510) 286-7039
cgrossgart@dir.ca.gov

The backup contact person for these inquiries is:

Mary Ann David, Legal Support Supervisor
 Division of Occupational Safety and Health,
 Legal Unit
 1515 Clay Street, Suite 1901
 Oakland, CA 94612
 Telephone: (510) 286-7348
 Facsimile: (510) 286-7039
mdavid@dir.ca.gov

Please direct requests for copies of the proposed text (the “Actual Text”) of the Proposed Regulations, the Initial Statement of Reasons, the modified text of the Proposed Regulations, if any, or other information upon which the rulemaking is based to Ms. David at the above address.

**AVAILABILITY OF STATEMENT OF REASONS,
ACTUAL TEXT OF PROPOSED REGULATIONS,
AND RULEMAKING FILE**

The Director will have the entire rulemaking file available for inspection and copying throughout the rulemaking process at the Headquarters of the Division of Occupational Safety and Health at the above address. As of the date this notice is published in the Notice Register, the rulemaking file consists of this Notice, the Actual Text of the Proposed Regulations, the Initial Statement of Reasons, the Economic Impact Statement and the emergency rulemaking file. The rulemaking file also includes the Emergency Regulation package submitted to the Office of Administrative Law on February 2, 2015 and the Re-Adoption of Emergency Regulations package, submitted to the Office of Administrative Law on July 30, 2015, both of which are incorporated herein by this reference. Copies of any or all of these documents may be obtained by contacting Ms. David at the address or phone number listed above.

**AVAILABILITY OF CHANGED OR
MODIFIED TEXT**

After holding the hearing and considering all timely and relevant comments received, the Director may adopt the Proposed Regulations substantially as described in this notice. If the Director makes modifications which are sufficiently related to the originally proposed text, she will make the modified text (with the changes clearly indicated) available to the public for at least 15 days before adopting the Proposed Regulations as revised. Please send requests for copies of any modified regulations to the attention of Ms. David at the address indicated above. The Director will accept written comments on the modified regulation for 15 days after the date on which they are made available.

**AVAILABILITY OF THE FINAL STATEMENT
OF REASONS**

Upon its completion, copies of the Final Statement of Reasons may be obtained by contacting Ms. David at the above address.

**AVAILABILITY OF DOCUMENTS ON
THE INTERNET**

Copies of the Notice of the Proposed Action, the Initial Statement of Reasons, and the text of the Proposed Regulations in underline and strikeout can be accessed through our website at www.dir.ca.gov/dosh.

**TITLE 12. DEPARTMENT OF
VETERANS AFFAIRS**

**DIVISION 2. VETERANS BUILDINGS,
MEMORIALS, AND CEMETERIES
CHAPTER 3. SUBCHAPTER 5.
STATE VETERANS CEMETERY
SECTIONS 461, 463, and 464**

NATURE OF PROCEEDING

NOTICE IS HEREBY GIVEN that the California Department of Veterans Affairs (CalVet) proposes to adopt regulations described below after considering all comments, objections, and recommendations regarding the proposal.

PUBLIC HEARING

No public hearing is scheduled for this rule making. However, any interested person, or his or her duly authorized representative, may request a public hearing no later than 15 days prior to the close of the written comment period.

WRITTEN COMMENT PERIOD

NOTICE IS ALSO GIVEN that any interested person, or his or her duly authorized representative, may submit written comments relevant to the proposed regulatory action to:

California Department of Veterans Affairs
Northern California Veterans Cemetery
Attention: Mark George
11800 Gas Point Road
Igo, CA 96047
Telephone: (530) 396-2429
Fax: (530) 396-2523

Comments may also be submitted by e-mail to mark.george@calvet.ca.gov.

Comments must be received by 5:00 p.m. on October 5, 2015. CalVet will only consider comments received at CalVet offices by that time.

AUTHORITY AND REFERENCE

The authority of this regulation is found in Military and Veterans Code (M&VC) 1455(a) and 1455(d) and the reference is Military and Veterans Code Sections 1400, 1410, and 1455. The proposed adoption removes unnecessary language, implements a standardized interment fee for veterans' spouses and eligible dependents at current and future State Veterans Cemeteries,

provides for the perpetual maintenance of these grave-sites by increasing the fee established for their interment, and implements a policy and fee required for disinterment of a decedent from a State Veterans Cemetery.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

The specific objective of this regulation is to remove language that is unnecessary and add required documentation for eligibility. This regulation will create a common spouse and dependent burial fee for all current and future State Veterans Cemeteries which will provide for the ongoing perpetual maintenance of the cemeteries until such time as the cemeteries are deemed “closed.” This regulation will also create a fee for the work required for the disinterment of a decedent from a State Veterans Cemetery.

Current California Military and Veterans Code Section 1455(a) states that the California Department of Veterans Affairs shall adopt regulations to specify the appropriate fees to be charged for interment or burial of spouses and dependent children of honorably discharged veterans, and appropriate fees for the disinterment of remains. At this time the burial fee is not concurrent with the federal reimbursement rate for veterans’ burials, and there is not an established fee for the California Central Coast Cemetery (opening July 2016). There are no fees currently for disinterment.

This regulation will allow CalVet to standardize the spouse and dependent burial fee for all State Veterans Cemeteries. The proposed regulation will establish the guidelines for the burial fees to be concurrent with the U.S. Department of Veterans Affairs veteran reimbursement rate including a cost of living adjustment (COLA) which is established at the beginning of each federal fiscal year. This regulation will establish the fee for disinterment of a casketed burial, an in-ground cremation burial, and burial in the columbaria.

Anticipated Benefits of the Proposed Regulations

By providing the State Veterans Cemeteries a standard interment fee based on the federal reimbursement rate CalVet will be able to more effectively provide for the perpetual maintenance of the State Veterans Cemeteries into the future until such time as the cemeteries are “closed.” The State Veterans Cemeteries will not have to rely as heavily on State General Funds for operation. As the cost of living allowance rises the burial fee will rise with the standard of the federal reimbursement rate. The burial fees will continue to be deposited into the appropriate State Veterans Cemeteries Endowment Fund or Perpetual Maintenance Fund. These Endowment Funds will continue to grow with interest over

time and allow for the cemeteries to become self-sustainable once they are closed for burials.

Determination of Inconsistency/Incompatibility with Existing State Regulations

CalVet has determined that this proposed regulation is not inconsistent or incompatible with existing regulations. After conducting a review for any regulations that would relate to or affect this area, CalVet has concluded that the only legal reference that concerns a fee for spouses and eligible dependent burials was established in M&VC Section 1400(b)(1) for the Northern California Veterans Cemetery in 1999. M&VC Section 1455 was adopted in 2010, so supersedes Section 1400(b)(1).

DISCLOSURES REGARDING THE
PROPOSED ACTION

Mandate on local agencies and school districts: None.

Cost or Savings to any state agency: Savings to the State in reducing the likeliness of a request for General Fund to operate the cemeteries in the future.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code Sections 17500 through 17630: None.

Other nondiscretionary cost or savings imposed on local agencies: None.

Cost or savings in federal funding to the state: None.

Cost impacts on a representative private person or business: The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Effects on Housing Costs: None.

Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None.

Results of the Economic Impact Analysis/Assessment

CalVet concluded that it is (1) unlikely that the proposal will eliminate jobs, (2) unlikely that the proposal will create new jobs as the current workload for CalVet staff is absorbed with existing resources, (3) unlikely that the proposal will create new businesses, and (4) unlikely that the proposal will eliminate existing businesses, and (5) unlikely that the proposal will affect the expansion of businesses currently doing business.

Benefits of the Proposed Action: The proposed regulation will ensure the State Veterans Cemeteries will not have to rely on State General Fund for all the operational costs and will be funded for perpetual maintenance once the cemeteries are closed for burials.

Small Business Determination: The proposed regulation will not affect small business because these structures are funded by private donors.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code Section 11346.5, subdivision (a)(13), CalVet must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

CalVet invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the written comment period.

CONTACT PERSONS

Inquiries concerning the proposed administrative action and written comments may be directed to:

Mark George
California Department of Veterans Affairs
Northern California Veterans Cemetery
11800 Gas Point Road
Igo, CA 96047
Telephone: (530) 396-2429
E-mail: mark.george@calvet.ca.gov
Fax: (530) 396-2523

The backup contact is Angela Yamamoto, 1227 O Street, Room 105, Sacramento, CA 95814. Telephone (916) 651-3068. Inquiries may also be submitted by e-mail to angela.yamamoto@calvet.ca.gov.

**AVAILABILITY OF STATEMENT OF REASONS,
TEXT OF PROPOSED REGULATIONS, AND
RULEMAKING FILE**

CalVet will have the entire rulemaking file available for inspection and copying throughout the rulemaking process at its office at the above address. As of the date this notice is published in the Notice Register, the rulemaking file consists of this notice, the proposed text of the regulations, and the initial statement of reasons. Copies of the exact language (express terms) of the proposed regulations and of the initial statement of reasons, and all the information upon which the proposal is based, may be obtained upon request from the contact persons named above. These documents may also be viewed and downloaded from the CalVet website at www.calvet.ca.gov.

**AVAILABILITY OF CHANGED OR
MODIFIED TEXT**

After considering all timely and relevant comments received, CalVet may adopt the proposed regulations substantially as described in this notice. If CalVet makes modifications which are sufficiently related to the originally proposed text, it will make the modified text (with the changes clearly indicated) available to the public for at least 15 days before CalVet adopts the regulations as revised. Notice and copies of the modified changes will be sent to anyone who submitted comments or who specifically requested to be notified of such changes. Please send requests for copies of any modified regulations to the attention of Angela Yamamoto at the address indicated above. CalVet will accept written comments on the modified regulations for 15 days after the date on which they are made available.

**AVAILABILITY AND LOCATION OF THE FINAL
STATEMENT OF REASONS**

Upon its completion, copies of the Final Statement of Reasons may be obtained by contacting Mark George at the above address.

**AVAILABILITY OF DOCUMENTS
ON THE INTERNET**

Copies of the Notice of Proposed Action, the Initial Statement of Reasons, and the text of the regulations can be accessed through the CalVet website at: www.calvet.ca.gov.

**TITLE 14. FISH AND GAME
COMMISSION**

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 8403 and 9022 of the Fish and Game Code and to implement, interpret or make specific Sections 8403, 9001.6, 9001.7 and 9022 of said Code, proposes to amend Section 180.6, Title 14, California Code of Regulations (CCR), relating to commercial hagfish traps.

**INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW**

Current statutes provide that Pacific hagfish, *Eptatretus stoutii*, (hagfish) may be taken by Korean style traps or 5-gallon bucket traps; specify the maximum number of traps allowed by trap type; require a general trap permit; prohibit possession of other species or gear while targeting or having in possession hagfish, and prohibit

the use of popups on buoy lines for bucket and Korean traps (Sections 9000.5, 9001, and 9001.6, Fish and Game Code). Fish and Game Code subsection 9001.6(a) is only a limitation on the use of Korean and bucket traps, not a limitation on the type of gear that may be used to take hagfish. Current regulation provides that all escapement holes, except for the entrance funnel, must have a minimum diameter of 9/16 inch (Section 180.6, Title 14, CCR) to minimize take of immature hagfish.

PROPOSED REGULATION

The proposed changes to Section 180.6, Title 14, CCR, will allow hagfish to be taken in 40-gallon barrel traps and will allow the use of up to two ground lines and up to 25 barrel traps per vessel. The proposed regulation specifies that if using barrel traps, no other trap type may be used or possessed aboard the vessel, and popups are not authorized for use with buoy lines attached to barrel traps.

BENEFITS OF THE PROPOSED REGULATIONS

The proposed regulations could reduce or eliminate negative interactions with cetaceans and other fishing gear, and lost fishing gear, particularly in areas utilized by multiple fisheries. The larger capacity of this trap type could reduce stress or mortality of captured hagfish due to crowding.

Adoption of sustainable fishing regulations including gear type provides for the maintenance of sufficient fish populations and ensures their continued existence.

EVALUATION OF INCOMPATIBILITY WITH EXISTING REGULATIONS

Section 20, Article IV, of the State Constitution specifies that the Legislature may delegate to the Fish and Game Commission such powers relating to the protection and propagation of fish and game as the Legislature sees fit. The Legislature has delegated to the Commission the power to regulate the commercial take of finfish using traps (Sections 8403 and 9022, Fish and Game Code). No other State agency has the authority to promulgate commercial fishing regulations. The proposed regulations are compatible with Sections 180, 180.2, 180.4 and 180.5, Title 14, CCR, which address other aspects of commercial take of finfish using traps. The Commission has searched the CCR for any regulations regarding the use of traps for the commercial take of hagfish and has found no such regulation; therefore

the Commission has concluded that the proposed regulations are neither inconsistent nor incompatible with existing State regulations.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the Embassy Suites — LAX North, 9801 Airport Boulevard, Los Angeles, California, on Wednesday, October 7, 2015, at 8:30 a.m., or as soon thereafter as the matter may be heard. Written comments may be submitted at the address given below, or by email to FGC@fgc.ca.gov. Written comments mailed or emailed to the Commission office, must be received before 5:00 p.m. on October 5, 2015. **All comments must be received no later than October 7, 2015 at the hearing in Los Angeles, California.** If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in strikeout-underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above-mentioned documents and inquiries concerning the regulatory process to Sonke Mastrup or Sherrie Fonbuena at the preceding address or phone number. **Travis Tanaka, Environmental Scientist, Department of Fish and Wildlife, (831) 649-2881 or Travis.Tanaka@wildlife.ca.gov, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

AVAILABILITY OF MODIFIED TEXT

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

**IMPACT OF REGULATORY ACTION/RESULTS
OF THE ECONOMIC IMPACT ANALYSIS**

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The proposed regulation will offer commercial hagfish fishermen an option to use fishing gear that could reduce financial loss related to lost fishing gear.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new business, the elimination of existing businesses or the expansion of businesses in California or any benefits to the health and welfare of California residents or worker safety.

The Commission does anticipate possible benefits to the State's environment due to the anticipated reduction in lost fishing gear.

- (c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

The use of the proposed trap is voluntary. However, should a fisherman choose to change gear types, the approximate cost of one barrel trap is \$60, ground line (including buoy and two weights) cost could range from \$75 to \$150. Based on the current minimum wage, the cost for labor to construct new traps is estimated to be \$27.00 per trap.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.
- (e) Nondiscretionary Costs/Savings to Local Agencies: None.
- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.
- (h) Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code Sections 11342.580 and 11346.2(a)(1).

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

**TITLE 14. FISH AND GAME
COMMISSION**

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 1050, 5510, 8389, 8550, 8552.1, 8553 and 8555, of the Fish and Game Code and to implement, interpret or make specific sections 713, 1050, 7850, 7850.5, 7852.2, 7881, 8043, 8053, 8389, 8550, 8550.5, 8552, 8552.1, 8552.2, 8552.3, 8552.4, 8552.5, 8552.6, 8552.7, 8552.8, 8553, 8554, 8555, 8556, 8557, and 8559 of said Code, proposes to amend sections 163 and 164, Title 14, California Code of Regulations, relating to the commercial herring fishery.

**INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW**

Sections 163 and 164, Title 14, California Code of Regulations, specify that herring may be taken for com-

mercial purposes only under a revocable permit, subject to such regulations as the Fish and Game Commission shall prescribe. Current regulations specify: permittee qualifications, permit application procedures and requirements, permit limitations, permit areas, vessel identification requirements, fishing quotas, seasons, gear restrictions, and landing and monitoring requirements.

Annual fishing quotas are necessary to provide for a sustainable fishery. The proposed regulatory changes in Section 163 will establish the fishing quota for the 2015–16 season in San Francisco Bay:

- Set the San Francisco Bay quota for the 2015–16 season from zero (0) to five percent of the 2014–15 San Francisco Bay spawning biomass estimate for Pacific herring as provided in the 2015 Draft Supplemental Environmental Document. The Department is recommending a quota of five percent or 834 tons.

The proposed regulatory changes in Section 164 will establish the herring eggs on kelp (HEOK) fishing quota and amend the permit renewal date and form for the San Francisco Bay fishery:

- A minor editorial change will be made to Section 164 indicating a change in the revision date (Rev. 2/14) to (Rev. 06/04/15) on the HEOK Royalty Report Form.
- A minor change will be made to Section 164 indicating that renewal of all HEOK permits are to be received by the Department, or if mailed, postmarked, on or before the first Friday of October each year. The revision is necessary to update the “permit application date” and align with the renewals dates for all other herring permits.
- Increase the San Francisco Bay HEOK quota allocation for individual HEOK permits from 0.79 to 1.0 percent of the overall quota as specified in Section 163 for harvest of herring.

BENEFITS OF THE REGULATION

The Commission anticipates benefits to the State’s environment and the health and welfare of California residents. The proposed regulation changes are intended to set annual harvest quotas within a range that will maintain sustainable herring populations for their ecological values and commercial use. Maintaining a sustainable herring fishery also encourages consumption of local seafood.

The Commission does not anticipate any non–monetary benefits to worker safety as a result of the proposed regulation.

CONSISTENCY WITH STATE OR FEDERAL REGULATIONS

The proposed regulations are neither inconsistent nor incompatible with existing state regulations. Section 20, Article IV, of the State Constitution specifies that the Legislature may delegate to the Fish and Game Commission such powers relating to the protection and propagation of fish and game as the Legislature sees fit. The Legislature has delegated to the Commission the power to regulate the commercial take of herring (sections 8550 and 8553, Fish and Game Code). The Commission has reviewed its own regulations and finds that the proposed regulations are neither inconsistent nor incompatible with existing state regulations. The Commission has searched the California Code of Regulations and finds no other state agency regulations pertaining to the commercial take of herring. There are no comparable federal regulations for the commercial harvest of herring.

NOTICE IS GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held at the Embassy Suites — LAX North, 9801 Airport Boulevard, Los Angeles, California, on October 7, 2015, at 8:00 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or before September 24, 2015, at the address given below, or by e–mail to FGC@fgc.ca.gov. Written comments mailed or e–mailed to the Commission office, must be received before 5:00 p.m. on October 5, 2015. All comments must be received no later than October 7, 2015, at the hearing in Los Angeles, California. If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in strikeout–underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244–2090, phone (916) 653–4899. Please direct requests for the above–mentioned documents and inquiries concerning the regulatory process to Sonke Mastrup or Sheri Tiemann (back–up contact) at the preceding address or phone number. **Ryan Bartling, Marine Region, Department of Fish and Wildlife, phone (707) 576–2877, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

AVAILABILITY OF MODIFIED TEXT

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

IMPACT OF REGULATORY ACTION/RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

Herring roe prices are set on the international market and not directly impacted by California regulations and quotas. Recently, herring roe has declined in value due to a market oversupply and a decline in overall demand. As a result, no adverse incremental economic impact to businesses, including the ability of California businesses to compete with businesses in other states, is anticipated to occur with a quota allocation of 50 tons or more. However, a zero ton quota would eliminate any revenues from the California herring fishery. This impact could be mitigated to the extent that fishermen can pursue other species; the total economic impact should not be significant.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California.

Due to poor market conditions and low participation by the herring fleet during the 2014–15 season, any quota option over 50 tons will likely result in positive incremental contributions to employment for the State: for example, an increase of about 71 jobs for a quota of 834 tons (see section VII of the Initial Statement of Reasons). Conversely, a zero (0) ton quota could adversely impact about four jobs in the fishing

industry and related industries. This is based on an employment multiplier of 27 jobs per each million dollar change in direct output from commercial herring fishing activities.

Most commercial herring industry participants are small businesses (as defined under California Government Code Section 11342.610), which may incur a detriment under a quota option less than 50 tons for San Francisco Bay. The total harvest of Pacific herring landed during the 2014–2015 season was 46 tons, though the allowable quota was 2,500 tons. This low exploitation rate and participation level by the herring fleet was driven by poor international market conditions. Due to the small scale and seasonality of the California herring fishery it is unlikely that any of the proposed quota options alone would cause the elimination/expansion of existing businesses in the State.

Benefits of the Proposed Regulatory Action:

The Commission anticipates benefits to the State’s environment and the health and welfare of California residents. The proposed regulation changes are intended to set annual harvest quotas within a range that will maintain sustainable herring populations for their ecological values and commercial use. Maintaining a sustainable herring fishery also encourages consumption of local seafood.

The Commission does not anticipate any non–monetary benefits to worker safety as a result of the proposed regulation.

- (c) Cost Impacts on a Representative Private Person or Business:

The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. There are no new fees or reporting requirements stipulated under the proposed regulations.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.
- (e) Nondiscretionary Costs/Savings to Local Agencies: None.
- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4: None.
- (h) Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code sections 11342.580 and 11346.2(a)(1).

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

**TITLE 14. FISH AND GAME
COMMISSION**

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 200, 202, 205, 215, and 220, of the Fish and Game Code, and to implement, interpret or make specific sections 200, 202, 205, 206, 215, and 220, of said Code, proposes to amend subsections (c) and (e) of Section 29.80, and subsections (a)(3) and (a)(7) of Section 29.85, Title 14, California Code of Regulations, relating to recreational Dungeness crab and crab trap regulations.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

Under existing law, Dungeness crab may be taken for recreational purposes with a sport fishing license subject to regulations prescribed by the Fish and Game Commission (Commission). Current regulations specify seasons, size limits, bag and possession limits, closed fishing areas, and gear restrictions.

Recreational fishing groups and constituents, including the Coastside Fishing Club, the Golden Gate Fishermen’s Association, and one Commercial Passenger Fishing Vessel (CPFV) Captain, sent letters to the Department of Fish and Wildlife (Department) and the Commission requesting several changes to Dungeness crab recreational fishery regulations. They proposed making the current Dungeness crab daily bag limits and size limits uniform statewide at ten crab that are a minimum of 5.75 inches carapace width, in order to elimi-

nate the unfairness to fishers aboard CPFVs in Sonoma, Marin, San Francisco, San Mateo, Santa Cruz, and Monterey counties, who are only allowed to take six crab that are 6 inches or greater under current regulations. The Department has reviewed landings data for the commercial fleet in this region for the past ten seasons and recent recreational catch estimates. While there is no resource allocation between sectors, the data suggest that the increase in CPFV bag limit and decrease in minimum size limit would not significantly alter use patterns between sectors, and that maintaining different bag and size limit for CPFVs in these counties is not warranted. Therefore the Department is proposing that the separate CPFV regulatory language be removed.

The Coastside Fishing Club also requested that recreational crab traps be required to contain a destruct device to prevent ‘ghost fishing’ by lost traps, and that the trap buoys must contain the contact information of the crab trap operator to deter theft of crabs from traps. The Department is proposing that each crab trap possess a destruct device similar to commercial crab traps, and that each crab trap buoy must display the trap owner’s GO ID number located on his/her sport fishing license.

Lastly, the Department proposes a seven-day waiting period prior to the start of the Dungeness crab recreational season for deploying crab traps. This would prohibit the covert targeting of Dungeness crab under the guise of rock crab fishing before the start of the season.

In addition to these changes, the Department is proposing to add clarifying language to subsection (e) of Section 29.80, Title 14, CCR, specifying that Point Arguello is located in Santa Barbara County.

The following Title 14, CCR, regulation changes are proposed to become effective prior to the start of the 2015–16 Dungeness crab season (i.e., November 7, 2015, the first Saturday in November):

1. Remove the bag and minimum size exception language in subsections (a)(3) and (a)(7) of Section 29.85 that limits CPFVs in Sonoma, Marin, San Francisco, San Mateo, Santa Cruz, and Monterey counties to the take of six Dungeness crab that are 6 inches in carapace width or greater.
2. Add Santa Barbara County as the location of Point Arguello under subsection (e) of Section 29.80.

The following Title 14, CCR, regulation changes would specify an effective date of August 1, 2016, which immediately follows the close of the 2015–16 Dungeness crab season:

3. Add language to subsection (c) of Section 29.80 that requires, as of August 1, 2016, crab traps to have one destruct device of a single strand of untreated cotton twine size No. 120 or less that creates an unobstructed escape opening in the top

or upper half of the trap of at least five inches in diameter when the destruct attachment material corrodes or fails.

4. Add language to subsection (c) of Section 29.80 that requires, as of August 1, 2016, every crab trap to be marked with a buoy and that each buoy shall be legibly marked to identify the operator's GO ID number as found on his/her sport fishing license.
5. Add language to subsection (c) of Section 29.80 that prohibits, as of August 1, 2016, crab traps from being deployed in ocean waters seven days prior to the opening of the Dungeness crab season.

BENEFITS OF THE REGULATION

The Commission anticipates benefits to the State's environment and the health and welfare of California residents. The proposed regulation changes are intended to provide increased fishing opportunity, reduce incidences of derelict trap gear continuing to fish, deter crab theft and promote a more orderly fishery at the start of the Dungeness crab season, and eliminate unfairness and unnecessary complexity in the bag and size limit regulations. The Commission anticipates benefits to the environment by the sustainable management of California's Dungeness crab resources.

CONSISTENCY WITH STATE OR FEDERAL REGULATIONS

The proposed regulations are neither inconsistent nor incompatible with existing state regulations. Section 20, Article IV, of the State Constitution specifies that the Legislature may delegate to the Commission such powers relating to the protection and propagation of fish and game as the Legislature sees fit. The Legislature has delegated to the Commission the power to regulate the recreational take of Dungeness crab, specifically the size and bag limits and means of taking (FGC sections 200 and 205). The Commission has reviewed its own regulations and finds that the proposed regulations are neither inconsistent nor incompatible with existing state regulations. The Commission has searched the CCR and finds no other state agency regulations pertaining to the recreational take of Dungeness crab and the use of crab traps while recreational fishing.

NOTICE IS GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held at the Embassy Suites — LAX North, 9801 Airport Boulevard, Los Angeles, California, on October 7, 2015, at 8 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or

before September 24, 2015, at the address given below, or by e-mail to FGC@fgc.ca.gov.

Written comments mailed or e-mailed to the Commission office, must be received before 5:00 p.m. on October 5, 2015. All comments must be received no later than October 7, 2015, at the hearing in Los Angeles, California. If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in ~~strikeout~~ underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above-mentioned documents and inquiries concerning the regulatory process to Sonke Mastrup or Sheri Tiemann at the preceding address or phone number. **Dr. Craig Shuman, Regional Manager of the Marine Region, Department of Fish and Wildlife, phone (805) 568-1246, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

AVAILABILITY OF MODIFIED TEXT

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Circumstances beyond the control of the Commission (e. g., timing of Federal regulation adoption, timing of resource data collection, timelines do not allow, etc.) or changes made to be responsive to public recommendation and comments during the regulatory process may preclude full compliance with the 15-day comment period, and the Commission will exercise its powers under Section 202 of the Fish and Game Code. Regulations adopted pursuant to this section are not subject to the time periods for adoption, amendment or repeal of regulations prescribed in Sections 11343.4, 11346.4 and 11346.8 of the Government Code. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

IMPACT OF REGULATORY ACTION/RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed changes are necessary for the continued preservation of the resource and therefore the prevention of adverse economic impacts.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new business, the elimination of existing businesses or the expansion of businesses in California. The proposed regulation changes are intended to provide increased fishing opportunity, reduce incidences of derelict trap gear continuing to fish, deter crab theft and promote a more orderly fishery at the start of the Dungeness crab season.

The Commission anticipates benefits to the health and welfare of California residents. Providing opportunities for a Dungeness crab recreational fishery encourages consumption of a nutritious food.

The Commission anticipates benefits to the environment by the sustainable management of California's Dungeness crab resources.

The Commission does not anticipate any non-monetary benefits to worker safety.

- (c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.
- (e) Nondiscretionary Costs/Savings to Local Agencies: None.
- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.
- (h) Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code sections 11342.580 and 11346.2(a)(1).

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

TITLE 14. FISH AND GAME COMMISSION

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 200, 202, 205, 215, 220, 240, 315, 316.5, and 2003, Fish and Game Code and to implement, interpret or make specific Sections 200, 205, 206, 215, 220 and 316.5 of said Code, proposes to amend Sections/subsections 1.05, 1.53, 1.86, 2.00, 5.60, 5.80, 5.81, 7.00, 7.50(b)(156.5) and (b)(180.6), 27.00, and 230; and add Sections 1.57 and 5.41, Title 14, California Code of Regulations, relating to Freshwater Sport Fishing Regulations.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

This Department proposal combines Department and public requests for changes to Title 14, California Code

of Regulations (CCR), for the 2015 Freshwater Sport Fishing Regulations Review Cycle. This proposal will clarify regulations for snagging, landlocked salmon, San Francisco and San Pablo Bays, Solano Lake, and reptiles, to reduce public confusion and improve regulatory enforcement. Additionally, this proposal will add a new fishing restriction to protect sturgeon, and increase fishing opportunities on the Sacramento River.

The Department is proposing the following changes to current regulations:

Snagging Definition

Subsection 2.00(b) would be amended to further define snagging. Currently, the snagging definition states that it is illegal to impale a fish in any part of its body **other than the mouth**. This makes it legal for anyone to keep a fish that has been hooked on the outside of the mouth, such as a hook that enters from the lower jaw into the mouth or nose into the mouth. The proposal is to reword the definition to say **other than inside the mouth**. Subsections 2.00(b) and (c), and Section 1.05 will need to be amended for consistency.

Proposal: Amend Section 1.05, Angling, and subsections (b) and (c) of Section 2.00, Fishing Methods—General

Amend the regulations to clarify that it is illegal to take a fish not hooked on the inside of the mouth.

Landlocked Salmon Definition

Current regulations incorporate kokanee (*Oncorhynchus nerka*) into the definition of “Trout,” and stocked, landlocked Chinook salmon into the definition of “Salmon,” which includes anadromous forms of salmon. Scientific evidence, including life history variation and behavioral differences, suggests the need for differing management strategies for these species. They should be separately defined and addressed in the freshwater sport fishing regulations. In addition, these new species definitions need to have associated bag and possession limits.

Proposal: Amend Section 1.86, Trout; Section 7.00, District General Regulations; add, sections 1.57 and 5.41, Landlocked Salmon

Create a new definition for landlocked salmon which will include kokanee and landlocked Chinook salmon. New daily bag and possession limits for landlocked salmon are proposed in a new Section 5.41. The new bag limit will be 5 fish and the possession limit will be 10 fish. Amend the District General Regulations in Section 7.00 to revise the references to trout and salmon to just trout except for daily bag and possession limits which means the total number of trout or landlocked salmon in combination. This change is proposed to reduce public confusion with landlocked salmon versus anadromous salmon that are allowed only in the Section

7.50 Special Regulations since the General District Regulations has the take of anadromous salmon closed statewide.

Reptile Regulation Correction

A numbering error has been identified in Section 5.60, specifically subsections (b)(10) through (b)(14). The regulation incorrectly reads, “Species No. 9–13 have a limit of twenty–five (25) in the aggregate.” It should read, “Species No. 10–14 have a limit of twenty–five (25) in the aggregate.” Correcting the numbering mistake will alleviate confusion amongst sport fisherman and wildlife officers.

Proposal: Amend subsection (b) of Section 5.60, Reptiles

Correct the numbering errors in this section to reduce public confusion and enforcement issues.

Sturgeon Fishing Closure

Green sturgeon and white sturgeon (subadults and adults) are often stranded for long periods in the Yolo Bypass as well as the Toe Drain and Tule Canal upstream of Lisbon Weir. Some of those fish escape when environmental conditions change but others are rescued or succumb. Through catch–and–release, legal harvest, and poaching, anglers could take both species when stranded. The legal fishery on stranded fish is not sporting, reduces the benefit of rescue efforts, and reduces population spawning potential. Because green sturgeon is a threatened species and white sturgeon is a substantial management concern, addressing this issue is relatively urgent. Therefore, the Department is proposing to prohibit the take and possession of sturgeon in the Yolo Bypass as well as the Toe Drain and Tule Canal upstream of Lisbon Weir at any time.

Current regulations in subsection (d) of Section 5.80 state that a sturgeon must voluntarily take the bait or lure *in* its mouth. This language is proposed to be revised to read *inside* its mouth, to be consistent with proposed revisions to the snagging definition in Section 2.00.

Proposal: Add subsection (j) to Section 5.80 and amend subsection (d), White Sturgeon, Methods of take.

Prohibit fishing for sturgeon in the Yolo Bypass Flood Control System to protect green and white sturgeon.

Amend the regulations to clarify that it is illegal to take a fish not hooked on the inside of the mouth for alignment with the proposed snagging definition changes to Section 2.00.

Green Sturgeon Revision for Brevity

Take and possession of green sturgeon is prohibited by law. Section 5.81, Green Sturgeon, subsection (d) designates a special fishing closure for sturgeon in the Sierra and Valley District. This special fishing closure is also provided under Section 5.80, White Sturgeon. Be-

cause fishing for green sturgeon is prohibited, this regulation is not needed in the regulations for Green Sturgeon.

Proposal: Remove subsection (d) from Section 5.81, Green Sturgeon.

Fishing for green sturgeon is prohibited. Therefore, the special fishing closure regulation for sturgeon is not needed in Section 5.81.

Red Bluff Diversion Dam

Current regulations restrict fishing from 500 feet upstream to 150 feet below Red Bluff Diversion Dam (RBDD). RBDD is no longer operated as an irrigation diversion so the current restrictions about fishing near a dam are no longer needed. Boaters, and recreationists, and fish are free to pass up and downstream of the area at will. The angling public is very interested in angling in the immediate vicinity of the RBDD now that it is no longer in operation and the Sacramento River is not impounded by its gates. The proposal is to allow shore and boat angling above and below RBDD on the Sacramento River.

Proposal: Amend Special Fishing Regulations subsection (b)(156.5), Sacramento River

Remove the current fishing restriction above and below RBDD on the Sacramento River to increase angling opportunities in Tehama County.

Solano Lake

The proposal is to add Solano Lake to Section 7.50, *Alphabetical List of Waters with Special Fishing Regulations*. The original intent was for Solano Lake to be included in the Putah Creek special fishing regulations. That regulation applies to the stream reach from Solano Lake to Monticello Dam and does not include Solano Lake. Therefore, a new subsection needs to be added to Section 7.50.

Proposal: Add subsection (b)(180.6), Solano Lake, to the Special Fishing Regulations

Add a new regulation for Solano Lake to the Special Fishing Regulations. The daily bag and possession limit will be 0 (zero).

San Francisco and San Pablo Bays Clarification

Currently there are three sections dealing with the Ocean and San Francisco Bay District which describe regulations in different manners causing confusion for anglers and making enforcement of the regulations more difficult:

- Section 27.00 defines the Ocean and San Francisco Bay District as waters of the open coast and includes San Francisco and San Pablo Bays “plus all their tidal bays, tidal portions of their rivers and streams, sloughs and estuaries” between the Golden Gate Bridge and the Carquinez Bridge.

- Section 1.53 defines inland waters as all fresh, brackish and inland saline waters of the state, including lagoons and tidewaters upstream from the mouths of coastal rivers and streams. Inland waters exclude the waters of San Francisco and San Pablo Bays downstream from the Carquinez Bridge, the tidal portions of rivers and streams flowing into San Francisco and San Pablo Bays, and the waters of Elkhorn Slough, west of Elkhorn Road between Castroville and Watsonville.
- Section 28.65(a) (which describes gear restrictions for fin fish). Defines the area as San Francisco and San Pablo Bays between the Golden Gate Bridge and the west Carquinez Bridge, where only one line with not more than three hooks may be used.

The different definitions of the same geographic area cause confusion as to applicable method of take as well as which set of regulations apply to the waters being fished.

An angler is allowed to use any number of hooks and lines in the ocean waters (Section 28.65). In inland waters only one closely attended line with no more than three hooks may be used (Section 2.00). Under current regulations, a person could argue that tidal portions of the Napa River were not Inland Waters since Section 28.65(a) did not include the tidal portions of river flowing into San Francisco and San Pablo Bays. Under this interpretation, they could use any number of lines and hooks to fish in the Napa River. This would restrict waters of San Francisco and San Pablo Bay to one line, then allow unlimited lines in the Napa River waters which were tidally influenced even though all inland waters are restricted to one line.

In addition, fishing regulations for Ocean Waters defined in Section 27.00 are different from Inland Waters as defined in Section 1.53. Since tidal influence cannot easily be determined, it is almost impossible to know which set of regulations apply in the tidally influenced waters. For instance is an undersized sturgeon caught in the Napa River a violation of section 5.80 or Section 27.90?

To simplify the regulations and make all of the regulations consistent, all three sections must use the same reference.

The proposal is to amend sections 27.00 and 1.53 to align with Section 28.65(a) and remove the reference to tidal bays and tidal portions of rivers and streams from these two sections. As a result, inland waters will now include the tidal portions of rivers and streams flowing into San Francisco and San Pablo Bays which will be subject to the gear restrictions for inland waters where only one closely attended rod and line with no more than three hooks may be used.

Proposal: Amend Section 1.53, Inland Waters, and Section 27.00, Ocean and San Francisco Bay Definition

Amend the two regulations that define the San Francisco and San Pablo Bays to be consistent, reducing public confusion and enforcement issues. Remove capitalized text before the note which is a printing error.

Fishing Contest Draw Dates

The current wording of subsection 230(b)(1)(A) designates specific dates for a drawing that is conducted annually by Department personnel to allocate Type A fishing contest permits in a fair manner. Dates are the second Friday of July for bodies of water north of the Tehachapi Mountains and the third Friday of July for waters south of the Tehachapi Mountains.

Specific designation of these dates can conflict with major fishing-related events that contest sponsors often need to attend (e.g., International Convention of Allied Sport fishing Trade — ICAST). Sponsors who must attend the ICAST show — an international conference of fishing gear manufacturers, media, and many others — cannot simultaneously attend the contest drawing, hindering the conflict resolution process for which the drawing is held.

The Department is proposing to amend the regulations to state that the contest drawings will be conducted in July and the dates will be determined by Department staff.

Proposal: Amend subsection (b)(1)(A) of Section 230, Issuance of Permits for Contests Offering Prizes for the Taking of Game Fish

Amend the regulations to change the current contest drawing dates to unspecified dates in July which will be determined by Department staff.

Minor Editorial Corrections for Clarity

Additional editorial corrections are proposed to correct typographical errors and to improve regulation clarity.

Benefits of the Proposed Regulations

It is the policy of this state to encourage the conservation, maintenance, and utilization of the living resources of the ocean and inland waters under the jurisdiction and influence of the state for the benefit of all the citizens of the State. In addition, it is the policy of this state to promote the development of local California fisheries in harmony with federal law respecting fishing and the conservation of the living resources of the ocean and inland waters under the jurisdiction and influence of the State. The objectives of this policy include, but are not limited to, the maintenance of sufficient populations of all species of aquatic organisms to ensure their continued existence and the maintenance of a sufficient resource to support a reasonable sport use. Adoption of

scientifically-based trout and salmon seasons, size limits, and bag and possession limits provides for the maintenance of sufficient populations of trout and salmon to ensure their continued existence.

The benefits of the proposed regulations are concurrence with Federal law, sustainable management of California's trout and salmon resources, and promotion of businesses that rely on recreational sport fishing in California.

Evaluation of Inconsistency/Incompatibility with Existing State Regulations

The Commission has evaluated the proposed regulation and has determined that these are the only regulations dealing with inland sport fishing. Therefore, the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

NOTICE IS GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held at Embassy Suites — LAX North, 9801 Airport Boulevard, Los Angeles, California, on Thursday, October 8, 2015, at 8:00 a.m., or as soon thereafter as the matter may be heard.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the Town and Country Resort and Convention Center, 500 Hotel Circle North, San Diego, California, on Thursday, December 10, 2015, at 8:00 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or before November 24, 2015, at the address given below, or by e-mail to FGC@fgc.ca.gov. Written comments mailed or e-mailed to the Commission office, must be received before 12:00 noon on December 4, 2015. All comments must be received no later than December 10, 2015, at the hearing in San Diego, California. If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in strikeout-underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above mentioned documents and inquiries concerning the regulatory process to Sonke Mastrup or Jon Snellstrom at the preceding address or phone number. **Karen Mitchell, Department of Fish and Wildlife, phone 916-445-0826, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, in-

cluding the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

AVAILABILITY OF MODIFIED TEXT

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Circumstances beyond the control of the Commission (e.g., timing of Federal regulation adoption, timing of resource data collection, timelines do not allow, etc.) or changes made to be responsive to public recommendation and comments during the regulatory process may preclude full compliance with the 15-day comment period and the Commission will exercise its powers under Section 202 of the Fish and Game Code. Regulations adopted pursuant to this section are not subject to the time periods for adoption, amendment or repeal of regulations prescribed in Sections 11343.4, 11346.4 and 11346.8 of the Government Code. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

IMPACT OF REGULATORY ACTION/RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The proposed regulations will revise and update inland sport fishing regulations starting in 2016. Currently, the seasons, size limits, and bag and possession limits for sport fishing are periodically reviewed by the Department of Fish and Wildlife and the Commission. This set of amendments will clarify regulations for snagging, landlocked salmon, San Francisco and San Pablo Bay, Solano Lake, and reptiles, to reduce public confusion and improve regulatory enforcement. Additionally, this proposal will add a new fishing restriction to protect sturgeon, and increase fishing opportunities on the Sacramento River.

Inland sport fishing regulation's affected parties include recreational anglers, commercial passenger fishing vessels and a variety of businesses that support anglers. The economic impact of regulatory changes for sport fisheries are estimated by tracking resulting changes in fishing effort, angler trips and length of stay in the fishery areas. Distance traveled affects gas and other travel expenditures. Day trips and overnight trips involve different levels of spending for gas, food and

accommodations at area businesses as well as different levels of sales tax impacts. Direct expenditures ripple through the economy, as receiving businesses buy intermediate goods from suppliers that then spend that revenue again. Business spending on wages is received by workers who then spend that income, some of which goes to local businesses. Recreational fisheries spending, thus multiplies throughout the economy with the indirect and induced effects of the initial direct expenditure.

The adoption of scientifically-based regulations provides for the maintenance of sufficient populations of inland sport fish to ensure their continued existence and future sport fishing opportunities that in turn support businesses related to the fishery economy.

The most recent 2011 U.S. Fish and Wildlife national survey of fishing, hunting, and wildlife associated recreation for California reports about 1.35 million resident and nonresident inland sport fish anglers contributed about \$1.2 billion in trip and equipment expenditures to the State's economy. Adding the indirect and induced effects of this \$1.2 billion direct revenue contribution the total economic benefit to California's economy is estimated to be about \$2.03 billion. This corresponds with about \$960 million in total wages to Californians and about 16,000 jobs in the State annually.

This regulatory action may impact businesses that provide services to sport fishermen but these effects are anticipated to range from none to small positive impacts, depending on the regulations ultimately adopted by the Commission. Sport fishing business owners, boat owners, tackle store owners, boat manufacturers, vendors of food, bait, fuel and lodging, and others that provide goods or services to those that sport fish in California may be positively affected to some degree from increases to business that may result under the range of proposed regulations. These anticipated impacts may vary by geographic location. Additionally, economic impacts to these same businesses may result from a number of factors unrelated to the proposed changes to inland sport fishing regulations, including weather, fuel prices, and success rates in other recreational fisheries that compete for angler trips.

(a) Effects of the Regulation on the Creation or Elimination of Jobs Within the State:

The cumulative effects of the changes statewide are estimated to be neutral to job elimination and potentially positive to job creation in California. No significant changes in fishing effort and sport fishing expenditures to businesses are expected as a direct result of the proposed regulation changes.

- (b) Effects of the Regulation on the Expansion of Businesses Currently Doing Business Within the State:

The cumulative effects of the changes statewide are expected to be neutral to positive to the expansion of businesses currently doing business in California. No significant changes in fishing effort and inland sport fishing expenditures to businesses are expected as a direct result of the proposed regulation changes.

- (c) Benefits of the Regulation to the Health and Welfare of California Residents:

The Commission anticipates benefits to the health and welfare of California residents. Trout and salmon are a nutritious food source and increasing inland sport fishery opportunities encourages consumption of this nutritious food. Sport fishing also contributes to increased mental health of its practitioners as fishing is a hobby and form of relaxation for many. Sport fishing also provides opportunities for multi-generational family activities and promotes respect for California's environment by younger generations, the future stewards of California's natural resources.

- (d) Benefits of the Regulation to Worker Safety:

The proposed regulations are not anticipated to impact worker safety conditions.

- (e) Benefits of the Regulation to the State's Environment:

It is the policy of the state to encourage the conservation, maintenance, and utilization of the living resources of the inland waters under the jurisdiction and influence of the state for the benefit of all its citizens and to promote the development of local California fisheries. The objectives of this policy include, but are not limited to, the maintenance of sufficient populations of all species of aquatic organisms to ensure their continued existence and the maintenance of a sufficient resource to support a reasonable sport use, taking into consideration the necessity of regulating individual sport fishery bag limits in the quantity that is sufficient to provide a satisfying sport. Adoption of scientifically-based inland trout and salmon seasons, size limits, and bag and possession limits provides for the maintenance of sufficient populations of trout and salmon to ensure their continued existence.

IMPACT OF REGULATORY ACTION

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action is not anticipated to have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states because the expected impact of the proposed regulations on the amount of fishing activity is anticipated to be minimal relative to recreational angling effort statewide.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The expected impact of the proposed regulations on the amount of fishing activity is anticipated to be minimal relative to recreational angling effort statewide. Therefore the Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new business, the elimination of existing business or the expansion of businesses in California.

The Commission anticipates benefits to the health and welfare of California residents. Providing opportunities for a salmon and trout sport fishery encourages consumption of a nutritious food.

The Commission does not anticipate any non-monetary benefits to worker safety.

The Commission anticipates benefits to the environment by the sustainable management of California's sport fishing resources.

- (c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.
- (e) Nondiscretionary Costs/Savings to Local Agencies: None.
- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.
- (h) Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code Sections 11342.580 and 11346.2(a)(1).

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

TITLE 14. FISH AND GAME COMMISSION

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 200, 202, 205, 210, 220, 395, 396, 398, 713, 1002, 1050, 1053, 1745, 2116, 2116.5, 2117, 2118, 2120, 2122, 2125, 2150, 2150.2, 2150.4, 2151, 2157, 2190, 2193, 2271, 3005.5, 3007, 3503, 3503.5, 3511, 3513, 3950, 10500, 12000 and 12002, Fish and Game Code and to implement, interpret or make specific Sections 1050 and 2271 of said Code; and Title 50, Code of Federal Regulations, Parts 21.29 and 21.30, proposes to amend Sections 1.92 and 703, Title 14, California Code of Regulations, relating to Transgenic Definition; Application and Fee Regulations.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Current law provides for a definition of “transgenic” as:

“Genetically altered by introducing DNA (1) from another species or (2) through engineered endogenous constructs by means such as but not limited to recombinant DNA and RNA techniques to produce, gene addition, deletion, and doubling, or changing the position of the gene. This definition excludes DNA vaccines, individuals produced by the techniques of whole genome ploidy manipulation, and hybridization between closely related species, as in traditional hybridization.” — Section 1.92, Title 14, CCR

The Department’s review of the current definition of transgenic in Section 1.92 has revealed several vulnerabilities that could prevent the Commission and the Department from adequately protecting native fish, wildlife, and plants from the threat of predation by, competition with, or hybridization with potentially threatening transgenic animals. First, the definition is structured around a finite list of prohibited methods of genetic manipulation coupled with a finite list of exceptions to that prohibition.

A producer of transgenic animals could evade the protections set forth in Title 14, sections 671 and 671.1 (relating to restricted species permits), which incorporate the transgenic definition in Section 1.92, by withholding the first generation of animals subject to direct genetic manipulation and by importing, distributing, and selling only the progeny of that first generation.

Also, as currently written, the definition excludes “hybridization between closely related species” but does not expressly indicate that to qualify for the exemption such hybridization cannot involve transgenic animals. If this interpretation were to prevail it would undermine the entire regulatory program by allowing any producer of transgenic animals to evade regulatory protections merely by importing, distributing, and selling only those transgenic animals that had been hybridized with other lines of transgenic animals.

Current law also provides for regulatory protections of the state from detrimental animals as set forth in Title 14, Section 671:

671(a): “It shall be unlawful to import, transport, or possess live animals restricted in subsection (c) below except under permit issued by the department.”

671(b): “. . . Those species listed because they pose a threat to native wildlife, the agriculture interests of the state or to public health or safety are termed “detrimental animals” and are designated by the letter “D . . .”

671(c)(11): “Transgenic Aquatic Animals.

Includes freshwater and marine fishes, invertebrates, amphibians, and reptiles (D).

Note: Unpermitted transgenic aquatic animals are determined to be detrimental to native wildlife, therefore the exemption provided for in Fish and Game Code Section 2150(e) is not applicable.”

Fish and Game Code, §2150(e) “Any university, college, governmental research agency, or other bona fide scientific institution, as defined in regulations adopted by the commission, engaging in scientific or public health research is exempt from any permit requirement pursuant to this chapter except for animals whose importation, transportation, or possession is determined by the department, in cooperation with the Department of Food and Agriculture, to be detrimental or cause damage to agriculture, native wildlife, or the public health or safety.”

The Department’s proposed revision to the definition of transgenic addresses each of these vulnerabilities and, in doing so, seeks to enhance the ability of the Commission and the Department to protect native fish, wildlife, and plants.

It also includes an exemption process for a determination to be made by the Department to render a decision to label a particular transgenic aquatic animal (aquarium fish) as “not detrimental” and therefore not subject to Section 671 and subsection 671.1(a)(8), Title 14, CCR.

The Department is proposing the following regulatory changes:

- Delete the present definition of transgenic in Section 1.92.
- Add a new subsection (a) to Section 1.92 defining transgenic to include all animals “whose genome has been deliberately altered, modified, or engineered through means not possible under natural conditions, by insertion of a foreign gene or genes using genetic engineering methods.” This definition is supplemented by four subsections further defining the scope of the definition, which include the following:
 - Subsection (a)(1) clarifies that an animal is transgenic if it contains any artificially transferred genetic material, even if that material is not directly “from another species.”

- Subsection (a)(2) includes a non-exclusive list of examples designed to address some of the most common methods for genetic manipulation.
- Subsection (a)(3) includes an explicit statement that the “progeny of a transgenic animal or any animal that is the result of breeding involving transgenic animals is transgenic within the meaning of this section.”
- Subsection (a)(4) reiterates and refines provisions in the existing definition that indicate that animals subject to standard breeding and hybridization practices commonly used by fish hatcheries (when no transgenic animals are involved), whole genome ploidy manipulation, and therapeutic treatment with DNA vaccine are not transgenic.
- Add a new subsection (b) to Section 1.92 which includes a narrowly circumscribed exemption to cover certain transgenic aquarium animals subject to the following restrictions:
 - The transgenic animals will be maintained in closed systems and not placed in the waters of the state; and
 - the Department has determined the transgenic animals are “not detrimental” and pose no risk to native fish, wildlife, or plants; and
 - to qualify for this exemption, the person or entity seeking to import, possess, distribute and sell transgenic aquatic animals within California must submit a letter of application, based on credible science; and
 - to qualify for this exemption, the person or entity seeking to import, possess, distribute, and sell individual transgenic aquatic animals within California must pay a nonrefundable application fee.
- Amend Section 703 by adding a new subsection 703(a)(3) which describes the application process, requirements, and nonrefundable fee of \$4,790 to cover the Department’s costs incurred in processing the application, and the Department’s findings.

BENEFITS OF THE PROPOSED REGULATIONS

The proposed revisions to the definition of transgenic will improve the protection of the environment and the state’s fish, wildlife, and plant resources by providing a modern definition that accounts for future changes in

genetic methods and eliminates potential loop holes associated with the progeny of transgenic animals or animals resulting from hybridization with transgenic animals. The new application and approval process for certain transgenic aquatic animals will allow the Department to thoroughly review relevant scientific data to determine there is no reasonably foreseeable risk to native fish, wildlife, or plants. If supported by credible scientific evidence, the Department may make a determination that the animal is not detrimental and therefore not subject to Section 671 and subsection 671.1(a)(8).

EVALUATION OF INCOMPATIBILITY WITH EXISTING REGULATIONS

The proposed regulations are neither inconsistent nor incompatible with existing State regulations. The Legislature has delegated authority to the Commission to adopt regulations for ornamental marine or freshwater plants and animals that are not utilized for human consumption or bait purposes and are maintained in closed systems for personal, pet industry, or hobby purposes (Fish and Game Code, Section 2271). The proposed regulations are consistent with current restricted species regulations in Section 671, Title 14, CCR. Commission staff has searched the California Code of Regulations and has found no other State regulations related to the use of transgenic species.

NOTICE IS GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held at Embassy Suites — LAX North, 9801 Airport Boulevard, Los Angeles, California, on Thursday, October 8, 2015, at 8:00 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or before October 6, 2015, at the address given below, or by e-mail to FGC@fgc.ca.gov. Written comments mailed or e-mailed to the Commission office, must be received before 5 p.m. on October 5, 2015. All comments must be received no later than October 8, 2015, at the hearing in Los Angeles, California. If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in **strikeout-underline** format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above-mentioned documents and inquiries concerning the reg-

ulatory process to Sonke Mastrup or Jon Snellstrom at the preceding address or phone number. **Roger Bloom, Department of Fish and Wildlife, phone 916-445-3777, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

AVAILABILITY OF MODIFIED TEXT

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Circumstances beyond the control of the Commission (e.g., timing of Federal regulation adoption, timing of resource data collection, timelines do not allow, etc.) or changes made to be responsive to public recommendation and comments during the regulatory process may preclude full compliance with the 15-day comment period and the Commission will exercise its powers under Section 202 of the Fish and Game Code. Regulations adopted pursuant to this section are not subject to the time periods for adoption, amendment or repeal of regulations prescribed in Sections 11343.4, 11346.4 and 11346.8 of the Government Code. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

IMPACT OF REGULATORY ACTION/RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed regulation is likely to have a positive effect on hobby and pet aquarium businesses within the State.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California: The regulation is unlikely to affect jobs or businesses. Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety: The amendment is unlikely to affect resident's health and welfare or worker safety. Benefits of the Regulation to the State's Environment: The proposed amendment allows for a scientific determination to be made by the Department that qualifying transgenic aquatic animals pose no reasonably foreseeable risk to native fish, wildlife, or plants.
- (c) Cost Impacts on a Representative Private Person or Business: The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.
- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.
- (e) Nondiscretionary Costs/Savings to Local Agencies: None.
- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.
- (h) Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code Sections 11342.580 and 11346.2(a)(1).

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally

effective in implementing the statutory policy or other provision of law.

GENERAL PUBLIC INTEREST

DEPARTMENT OF FISH AND WILDLIFE

PROPOSED RESEARCH ON A FULLY PROTECTED SPECIES

Research on the Salt-Marsh Harvest Mouse

The Department of Fish and Wildlife (Department) received a proposal on August 7, 2015 from Anastasia G. Ennis, on behalf of Olofson Environmental Inc., Oakland, California, requesting authorization to take the salt-marsh harvest mouse (*Reithrodontomys raviventris*) (mouse), a Fully Protected mammal, for scientific research purposes consistent with the protection and recovery of the species. The mouse is listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act.

Ms. Ennis is planning to continue her previously approved research throughout the range of the mouse in California, in accordance with methods approved by the Department and the U.S. Fish and Wildlife Service (Service, under a current Recovery Permit). The proposed research activities include capture using baited cage traps, handling, measuring and weighing, collection of follicular tissue samples from plucked hair, collection of fecal samples, marking with non-toxic black ink or dye on the ventral surface or by hair clipping, marking by ear tagging, release at the site of capture, and other methods approved by the Department and the Service. These activities are performed during live-trapping sessions, including during trapping sessions by other permitted mouse researchers. If any mice are found dead, they will be salvaged (including any parts thereof) and donated to a scientific institution open to the public, as designated by the Department and the Service. Tissue samples may also be taken from salvaged mouse carcasses when available, and from museum specimens. No adverse effects on individual mice or mouse populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Ms. Ennis as the Principal Investigator, to carry out the proposed activities under any necessary affiliation, or independently. The applicant is also required to have a valid federal Recovery Permit for the

mouse, and a Scientific Collecting Permit (SCP) to take other terrestrial mammal species in California.

Pursuant to California Fish and Game Code (FGC) Section 4700(a)(1), the Department may authorize take of Fully Protected mammal species after a 30-day notice has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 4700 for take of Fully Protected mammals, it would issue the authorization on or after September 21, 2015, for an initial and renewable term of up-to, but not to exceed four years. Contact: Scott Osborn, Scott.Osborn@wildlife.ca.gov, (916) 324-3564.

PROPOSITION 65

**OFFICE OF ENVIRONMENTAL
HEALTH HAZARD ASSESSMENT**

**SAFE DRINKING WATER AND TOXIC
ENFORCEMENT ACT OF 1986
(Proposition 65)**

NOTICE TO INTERESTED PARTIES

**CHEMICAL LISTED EFFECTIVE AUGUST 25,
2015**

**AS KNOWN TO THE STATE OF CALIFORNIA
TO CAUSE CANCER:
CMNP (PYRAZACHLOR)**

Effective **August 25, 2015**, the Office of Environmental Health Hazard Assessment (OEHHA) is adding *CMNP (pyrazachlor)* (CAS No. 6814-58-0) to the list of chemicals known to the state to cause cancer for purposes of Proposition 65¹.

The listing of *CMNP (pyrazachlor)* is based on formal identification by the US Environmental Protection Agency (US EPA), an authoritative body², that the chemical causes cancer. The criteria used by OEHHA for the listing of chemicals under the “authoritative bodies” mechanism can be found in Title 27, Cal. Code of Regs., section 25306.

¹ The Safe Drinking Water and Toxic Enforcement Act of 1986, Health and Safety Code section 25249.5 et seq.

² See Health and Safety Code section 25249.8(b) and Title 27, Cal. Code of Regs., section 25306.

The documentation supporting OEHHA’s determination that the criteria for administrative listing have been satisfied for CMNP (pyrazachlor) is included in the “Notice of Intent to List CMNP (Pyrazachlor) and Sedaxane” posted on OEHHA’s website and published in the June 26, 2015 issue of the California Regulatory Notice Register (Register 2015, No. 26-Z). The publication of the notice initiated a public comment period that closed on July 27, 2015. OEHHA received no public comments on CMNP.

A complete, updated chemical list is published in this issue of the *California Regulatory Notice Register* and is available on the OEHHA website at http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

In summary, CMNP (pyrazachlor) is listed under Proposition 65 as known to the state to cause cancer, as follows:

Chemical	CAS No.	Toxicological Endpoints	Listing Mechanism*
CMNP (<i>pyra- zachlor</i>)	6814-58-0	Cancer	AB (US EPA)

* Listing mechanism: AB — “authoritative bodies” mechanism (Title 27 Cal. Code of Regs., section 25306).

**OFFICE OF ENVIRONMENTAL
HEALTH HAZARD ASSESSMENT**

**SAFE DRINKING WATER AND TOXIC
ENFORCEMENT ACT OF 1986**

**CHEMICALS KNOWN TO THE STATE
TO CAUSE CANCER OR
REPRODUCTIVE TOXICITY
August 21, 2015**

The Safe Drinking Water and Toxic Enforcement Act of 1986 requires that the Governor revise and republish at least once per year the list of chemicals known to the State to cause cancer or reproductive toxicity. The identification number indicated in the following list is the Chemical Abstracts Service (CAS) Registry Number. No CAS number is given when several substances are presented as a single listing. The date refers to the initial appearance of the chemical on the list. For easy reference, chemicals which are shown underlined are newly added. Chemicals which are shown with a strikethrough were placed on the list with the date noted, and have subsequently been removed.

CHEMICALS KNOWN TO THE STATE TO CAUSE CANCER

Propylene glycol mono- <i>t</i> -butyl ether	57018-52-7	June 11, 2004
Propylene oxide	75-56-9	October 1, 1988
Propylthiouracil	51-52-5	January 1, 1988
Pulegone	89-82-7	April 18, 2014
Pymetrozine	123312-89-0	March 22, 2011
Pyridine	110-86-1	May 17, 2002
Quinoline and its strong acid salts	—	October 24, 1997
Radionuclides	—	July 1, 1989
Reserpine	50-55-5	October 1, 1989
Residual (heavy) fuel oils	—	October 1, 1990

CALIFORNIA REGULATORY NOTICE REGISTER 2015, VOLUME NO. 34-Z

<u>Chemical</u>	<u>CAS Number</u>	<u>Date</u>
Resmethrin	10453-86-8	July 1, 2008
Riddelliine	23246-96-0	December 3, 2004
Saccharin <u>Delisted April 6, 2001</u>	81-07-2	October 1, 1989
Saccharin, sodium <u>Delisted January 17, 2003</u>	128-44-9	January 1, 1988
Safrole	94-59-7	January 1, 1988
Salted fish, Chinese-style	—	April 29, 2011
Selenium sulfide	7446-34-6	October 1, 1989
Shale-oils	68308-34-9	April 1, 1990
Silica, crystalline (airborne particles of respirable size)	—	October 1, 1988
Soots, tars, and mineral oils (untreated and mildly treated oils and used engine oils)	—	February 27, 1987
Spirodiclofen	148477-71-8	October 8, 2010
Spironolactone	52-01-7	May 1, 1997
Stanozolol	10418-03-8	May 1, 1997
Sterigmatocystin	10048-13-2	April 1, 1988
Streptozotocin (streptozocin)	18883-66-4	January 1, 1988
Strong inorganic acid mists containing sulfuric acid	—	March 14, 2003
Styrene oxide	96-09-3	October 1, 1988
Sulfallate	95-06-7	January 1, 1988
Sulfasalazine (Salicylazosulfapyridine)	599-79-1	May 15, 1998
Talc containing asbestiform fibers	—	April 1, 1990
Tamoxifen and its salts	10540-29-1	September 1, 1996
Teriparatide	52232-67-4	August 14, 2015
Terrazole	2593-15-9	October 1, 1994
Testosterone and its esters	58-22-0	April 1, 1988
3,3',4,4'-Tetrachloroazobenzene	14047-09-7	July 24, 2012
2,3,7,8-Tetrachlorodibenzo-para-dioxin (TCDD)	1746-01-6	January 1, 1988
1,1,1,2-Tetrachloroethane	630-20-6	September 13, 2013
1,1,2,2-Tetrachloroethane	79-34-5	July 1, 1990
Tetrachloroethylene (Perchloroethylene)	127-18-4	April 1, 1988
p-a,a,a-Tetrachlorotoluene	5216-25-1	January 1, 1990
Tetrafluoroethylene	116-14-3	May 1, 1997
Tetranitromethane	509-14-8	July 1, 1990
Thioacetamide	62-55-5	January 1, 1988
4,4'-Thiodianiline	139-65-1	April 1, 1988
Thiodicarb	59669-26-0	August 20, 1999
Thiouracil	141-90-2	June 11, 2004
Thiourea	62-56-6	January 1, 1988
Thorium dioxide	1314-20-1	February 27, 1987
Titanium dioxide (airborne, unbound particles of respirable size)	—	September 2, 2011
Tobacco, oral use of smokeless products	—	April 1, 1988
Tobacco smoke	—	April 1, 1988
Toluene diisocyanate	26471-62-5	October 1, 1989
ortho-Toluidine	95-53-4	January 1, 1988
ortho-Toluidine hydrochloride	636-21-5	January 1, 1988
para-Toluidine <u>Delisted October 29, 1999</u>	106-49-0	January 1, 1990
Toxaphene (Polychlorinated camphenes)	8001-35-2	January 1, 1988
Toxins derived from <i>Fusarium moniliforme</i> (<i>Fusarium verticillioides</i>)	—	August 7, 2009
Treosulfan	299-75-2	February 27, 1987
Triamterene	396-01-0	April 18, 2014
S,S,S-Tributyl phosphorotrithioate (Tribufos, DEF)	78-48-8	February 25, 2011
Trichlormethine (Trimustine hydrochloride)	817-09-4	January 1, 1992

<u>Chemical</u>	<u>CAS Number</u>	<u>Date</u>
Trichloroacetic acid	76-03-9	September 13, 2013
Trichloroethylene	79-01-6	April 1, 1988
2,4,6-Trichlorophenol	88-06-2	January 1, 1988
1,2,3-Trichloropropane	96-18-4	October 1, 1992
Trimethyl phosphate	512-56-1	May 1, 1996
2,4,5-Trimethylaniline and its strong acid salts	—	October 24, 1997
2,4,6-Trinitrotoluene (TNT)	118-96-7	December 19, 2008
Triphenyltin hydroxide	76-87-9	July 1, 1992
Tris(aziridiny)l-para-benzoquinone (Triaziquone)	68-76-8	October 1, 1989
<u>Delisted December 8, 2006</u>		
Tris(1-aziridiny)lphosphine sulfide (Thiotepa)	52-24-4	January 1, 1988
Tris(2-chloroethyl) phosphate	115-96-8	April 1, 1992
Tris(2,3-dibromopropyl)phosphate	126-72-7	January 1, 1988
Tris(1,3-dichloro-2-propyl) phosphate (TDCPP)	13674-87-8	October 28, 2011
Trp-P-1 (Tryptophan-P-1)	62450-06-0	April 1, 1988
Trp-P-2 (Tryptophan-P-2)	62450-07-1	April 1, 1988
Trypan blue (commercial grade)	72-57-1	October 1, 1989
Unleaded gasoline (wholly vaporized)	—	April 1, 1988
Uracil mustard	66-75-1	April 1, 1988
Urethane (Ethyl carbamate)	51-79-6	January 1, 1988
Vanadium pentoxide (orthorhombic crystalline form)	1314-62-1	February 11, 2005
Vinclozolin	50471-44-8	August 20, 1999
Vinyl bromide	593-60-2	October 1, 1988
Vinyl chloride	75-01-4	February 27, 1987
4-Vinylcyclohexene	100-40-3	May 1, 1996
4-Vinyl-1-cyclohexene diepoxide (Vinyl cyclohexene dioxide)	106-87-6	July 1, 1990
Vinyl fluoride	75-02-5	May 1, 1997
Vinyl trichloride (1,1,2-Trichloroethane)	79-00-5	October 1, 1990
Wood dust	—	December 18, 2009
2,6-Xylidine (2,6-Dimethylaniline)	87-62-7	January 1, 1991
Zalcitabine	7481-89-2	August 7, 2009
Zidovudine (AZT)	30516-87-1	December 18, 2009
Zileuton	111406-87-2	December 22, 2000
Zineb <u>Delisted October 29, 1999</u>	12122-67-7	January 1, 1990

CHEMICALS KNOWN TO THE STATE TO CAUSE REPRODUCTIVE TOXICITY

<u>Chemical</u>	<u>Type of Reproductive Toxicity</u>	<u>CAS No.</u>	<u>Date Listed</u>
Acetazolamide	developmental	59-66-5	August 20, 1999
Acetohydroxamic acid	developmental	546-88-3	April 1, 1990
Acrylamide	developmental, male	79-06-1	February 25, 2011
Actinomycin D	developmental	50-76-0	October 1, 1992
All-trans retinoic acid	developmental	302-79-4	January 1, 1989
Alprazolam	developmental	28981-97-7	July 1, 1990
Altretamine	developmental, male	645-05-6	August 20, 1999
Amantadine hydrochloride	developmental	665-66-7	February 27, 2001
Amikacin sulfate	developmental	39831-55-5	July 1, 1990
Aminoglutethimide	developmental	125-84-8	July 1, 1990
tert-Amyl methyl ether	developmental	994-05-8	December 18, 2009
<u>Delisted December 13, 2013</u>			
Aminoglycosides	developmental	—	October 1, 1992

<u>Chemical</u>	<u>Type of Reproductive Toxicity</u>	<u>CAS No.</u>	<u>Date Listed</u>
terin	developmental, female	54-62-6	July 1, 1987
Amiodarone hydrochloride	developmental, female, male	19774-82-4	August 26, 1997
Amitraz	developmental	33089-61-1	March 30, 1999
Amoxapine	developmental	14028-44-5	May 15, 1998
Anabolic steroids	female, male	—	April 1, 1990
Angiotensin converting enzyme (ACE) inhibitors	developmental	—	October 1, 1992
Anisindione	developmental	117-37-3	October 1, 1992
Arsenic (inorganic oxides)	developmental	—	May 1, 1997
Aspirin (NOTE: It is especially important not to use aspirin during the last three months of pregnancy, unless specifically directed to do so by a physician because it may cause problems in the unborn child or complications during delivery.)	developmental, female	50-78-2	July 1, 1990
Atenolol	developmental	29122-68-7	August 26, 1997
Auranofin	developmental	34031-32-8	January 29, 1999
Avermectin B1 (Abamectin)	developmental	71751-41-2	December 3, 2010
Azathioprine	developmental	446-86-6	September 1, 1996
Barbiturates	developmental	—	October 1, 1992
Beclomethasone dipropionate	developmental	5534-09-8	May 15, 1998
Benomyl	developmental, male	17804-35-2	July 1, 1991
Benzene	developmental, male	71-43-2	December 26, 1997
Benzodiazepines	developmental	—	October 1, 1992
Benzphetamine hydrochloride	developmental	5411-22-3	April 1, 1990
Bischloroethyl nitrosourea (BCNU) (Carmustine)	developmental	154-93-8	July 1, 1990
Bisphenol A (BPA)	female	80-05-7	May 11, 2015
Bisphenol A (BPA)	developmental	80-05-7	April 11, 2013
<u>Delisted April 19, 2013</u>			
Bromacil lithium salt	developmental	53404-19-6	May 18, 1999
	male		January 17, 2003
1-Bromopropane	developmental, female, male	106-94-5	December 7, 2004
2-Bromopropane	female, male	75-26-3	May 31, 2005
Bromoxynil	developmental	1689-84-5	October 1, 1990
Bromoxynil octanoate	developmental	1689-99-2	May 18, 1999
Butabarbital sodium	developmental	143-81-7	October 1, 1992
1,3-Butadiene	developmental, female, male	106-99-0	April 16, 2004
1,4-Butanediol dimethane-sulfonate (Busulfan)	developmental	55-98-1	January 1, 1989
Butyl benzyl phthalate (BBP)	developmental	85-68-7	December 2, 2005
n-Butylglycidyl ether	male	2426-08-6	August 7, 2009
<u>Delisted April 4, 2014</u>			
Cadmium	developmental, male	—	May 1, 1997
Carbamazepine	developmental	298-46-4	January 29, 1999
Carbaryl	developmental, female, male	63-25-2	August 7, 2009
Carbon disulfide	developmental, female, male	75-15-0	July 1, 1989
Carbon monoxide	developmental	630-08-0	July 1, 1989
Carboplatin	developmental	41575-94-4	July 1, 1990
Chenodiol	developmental	474-25-9	April 1, 1990

<u>Chemical</u>	<u>Type of Reproductive Toxicity</u>	<u>CAS No.</u>	<u>Date Listed</u>
Chlorambucil	developmental	305-03-3	January 1, 1989
Chlorcyclizine hydrochloride	developmental	1620-21-9	July 1, 1987
Chlordecone (Kepone)	developmental	143-50-0	January 1, 1989
Chlordiazepoxide	developmental	58-25-3	January 1, 1992
Chlordiazepoxide hydrochloride	developmental	438-41-5	January 1, 1992
1-(2-Chloroethyl)-3-cyclohexyl-1-nitrosourea (CCNU) (Lomustine)	developmental	13010-47-4	July 1, 1990
Chloroform	developmental	67-66-3	August 7, 2009
2-Chloropropionic acid	male	598-78-7	August 7, 2009
Chlorsulfuron	developmental, female, male	64902-72-3	May 14, 1999
<u>Delisted June 6, 2014</u>			
Chromium (hexavalent compounds)	developmental, female, male	—	December 19, 2008
Cidofovir	developmental, female, male	113852-37-2	January 29, 1999
Cladribine	developmental	4291-63-8	September 1, 1996
Clarithromycin	developmental	81103-11-9	May 1, 1997
Clobetasol propionate	developmental, female	25122-46-7	May 15, 1998
Clomiphene citrate	developmental	50-41-9	April 1, 1990
Clorazepate dipotassium	developmental	57109-90-7	October 1, 1992
Cocaine	developmental, female	50-36-2	July 1, 1989
Codeine phosphate	developmental	52-28-8	May 15, 1998
Colchicine	developmental, male	64-86-8	October 1, 1992
Conjugated estrogens	developmental	—	April 1, 1990
Cyanazine	developmental	21725-46-2	April 1, 1990
Cycloate	developmental	1134-23-2	March 19, 1999
Cyclohexanol	male	108-93-0	November 6, 1998
<u>Delisted January 25, 2002</u>			
Cycloheximide	developmental	66-81-9	January 1, 1989
Cyclophosphamide (anhydrous)	developmental, female, male	50-18-0	January 1, 1989
Cyclophosphamide (hydrated)	developmental, female, male	6055-19-2	January 1, 1989
Cyhexatin	developmental	13121-70-5	January 1, 1989
Cytarabine	developmental	147-94-4	January 1, 1989
Dacarbazine	developmental	4342-03-4	January 29, 1989
Danazol	developmental	17230-88-5	April 1, 1990
Daunorubicin hydrochloride	developmental	23541-50-6	July 1, 1990
2,4-D butyric acid	developmental, male	94-82-6	June 18, 1999
o,p' -DDT	developmental, female, male	789-02-6	May 15, 1998
p,p' -DDT	developmental, female, male	50-29-3	May 15, 1998
2,4-DP (dichloroprop)	developmental	120-36-5	April 27, 1999
<u>Delisted January 25, 2002</u>			
Demeclocycline hydrochloride (internal use)	developmental	64-73-3	January 1, 1992
Diazepam	developmental	439-14-5	January 1, 1992
Diazoxide	developmental	364-98-7	February 27, 2001
1,2-Dibromo-3-chloropropane (DBCP)	male	96-12-8	February 27, 1987
Di-n-butyl phthalate (DBP)	developmental, female, male	84-74-2	December 2, 2005
Dichloroacetic acid	developmental, male	79-43-6	August 7, 2009
1,1-Dichloro-2,2-bis(p-chlorophenyl) ethylene (DDE)	developmental, male	72-55-9	March 30, 2010
Dichlorophene	developmental	97-23-4	April 27, 1999
Dichlorphenamide	developmental	120-97-8	February 27, 2001
Diclofop methyl	developmental	51338-27-3	March 5, 1999

<u>Chemical</u>	<u>Type of Reproductive Toxicity</u>	<u>CAS No.</u>	<u>Date Listed</u>
Dicumarol	developmental	66-76-2	October 1, 1992
Di(2-ethylhexyl)phthalate (DEHP)	developmental, male	117-81-7	October 24, 2003
Diethylstilbestrol (DES)	developmental	56-53-1	July 1, 1987
Diflunisal	developmental, female	22494-42-4	January 29, 1999
Diglycidylether	male	2238-07-5	August 7, 2009
<u>Delisted April 4, 2014</u>			
Di-n-hexyl phthalate (DnHP)	female, male	84-75-3	December 2, 2005
Dihydroergotamine mesylate	developmental	6190-39-2	May 1, 1997
Di-isodecyl phthalate (DIDP)	developmental	68515-49-1/ 26761-40-0	April 20, 2007
Diltiazem hydrochloride	developmental	33286-22-5	February 27, 2001
N,N-Dimethylacetamide	developmental, male	127-19-5	May 21, 2010
m-Dinitrobenzene	male	99-65-0	July 1, 1990
o-Dinitrobenzene	male	528-29-0	July 1, 1990
p-Dinitrobenzene	male	100-25-4	July 1, 1990
2,4-Dinitrotoluene	male	121-14-2	August 20, 1999
2,6-Dinitrotoluene	male	606-20-2	August 20, 1999
Dinitrotoluene (technical grade)	female, male	—	August 20, 1999
Dinocap	developmental	39300-45-3	April 1, 1990
Dinoseb	developmental, male	88-85-7	January 1, 1989
Diphenylhydantoin (Phenytoin)	developmental	57-41-0	July 1, 1987
Disodium cyanodithioimidocarbonate	developmental	138-93-2	March 30, 1999
Doxorubicin hydrochloride (Adriamycin)	developmental, male	25316-40-9	January 29, 1999
Doxycycline (internal use)	developmental	564-25-0	July 1, 1990
Doxycycline calcium (internal use)	developmental	94088-85-4	January 1, 1992
Doxycycline hyclate (internal use)	developmental	24390-14-5	October 1, 1991
Doxycycline monohydrate (internal use)	developmental	17086-28-1	October 1, 1991
Endrin	developmental	72-20-8	May 15, 1998
Environmental tobacco smoke (ETS)	developmental	—	June 9, 2006
Epichlorohydrin	male	106-89-8	September 1, 1996
Ergotamine tartrate	developmental	379-79-3	April 1, 1990
Estropipate	developmental	7280-37-7	August 26, 1997
Ethionamide	developmental	536-33-4	August 26, 1997
Ethyl alcohol in alcoholic beverages	developmental	—	October 1, 1987
Ethyl-tert-butylether	male	637-92-3	December 18, 2009
<u>Delisted December 13, 2013</u>			
Ethyl dipropylthiocarbamate	developmental	759-94-4	April 27, 1999
Ethylene dibromide	developmental, male	106-93-4	May 15, 1998
Ethylene glycol (ingested)	developmental	107-21-1	June 19, 2015
Ethylene glycol monoethyl ether	developmental, male	110-80-5	January 1, 1989
Ethylene glycol monomethyl ether	developmental, male	109-86-4	January 1, 1989
Ethylene glycol monoethyl ether acetate	developmental, male	111-15-9	January 1, 1993
Ethylene glycol monomethyl ether acetate	developmental, male	110-49-6	January 1, 1993
Ethylene oxide	female	75-21-8	February 27, 1987
	developmental, male		August 7, 2009
Ethylene thiourea	developmental	96-45-7	January 1, 1993
2-Ethylhexanoic acid	developmental	149-57-5	August 7, 2009
<u>Delisted December 13, 2013</u>			
Etodolac	developmental, female	41340-25-4	August 20, 1999

<u>Chemical</u>	<u>Type of Reproductive Toxicity</u>	<u>CAS No.</u>	<u>Date Listed</u>
Etoposide	developmental	33419-42-0	July 1, 1990
Etretinate	developmental	54350-48-0	July 1, 1987
Fenoxaprop ethyl	developmental	66441-23-4	March 26, 1999
Filgrastim	developmental	121181-53-1	February 27, 2001
Fluazifop butyl	developmental	69806-50-4	November 6, 1998
Flunisolide	developmental, female	3385-03-3	May 15, 1998
Fluorouracil	developmental	51-21-8	January 1, 1989
Fluoxymesterone	developmental	76-43-7	April 1, 1998
Flurazepam hydrochloride	developmental	1172-18-5	October 1, 1992
Flurbiprofen	developmental, female	5104-49-4	August 20, 1999
Flutamide	developmental	13311-84-7	July 1, 1990
Fluticasone propionate	developmental	80474-14-2	May 15, 1998
Fluvalinate	developmental	69409-94-5	November 6, 1998
Ganciclovir	developmental, male	82410-32-0	August 26, 1997
Ganciclovir sodium	developmental, male	107910-75-8	August 26, 1997
Gemfibrozil	female, male	25812-30-0	August 20, 1999
Goserelin acetate	developmental, female, male	65807-02-5	August 26, 1997
Halazepam	developmental	23092-17-3	July 1, 1990
Halobetasol propionate	developmental	66852-54-8	August 20, 1999
Haloperidol	developmental, female	52-86-8	January 29, 1999
Halothane	developmental	151-67-7	September 1, 1996
Heptachlor	developmental	76-44-8	August 20, 1999
Hexachlorobenzene	developmental	118-74-1	January 1, 1989
Hexafluoroacetone	<u>developmental</u> , male	684-16-2	August 1, 2008
Hexamethylphosphoramide	male	680-31-9	October 1, 1994
Histrelin acetate	developmental	—	May 15, 1998
Hydramethylnon	developmental, male	67485-29-4	March 5, 1999
Hydrogen cyanide (HCN) and cyanide salts (CN salts)	male		July 5, 2013
Hydroxyurea	developmental	127-07-1	May 1, 1997
Idarubicin hydrochloride	developmental, male	57852-57-0	August 20, 1999

**RULEMAKING PETITION
DECISION**

DEPARTMENT OF PUBLIC HEALTH

August 11, 2015

Ben Avey
Associate Director of Policy and Communication
California Primary Care Association
1231 I Street, Suite 400
Sacramento, CA 95822

Re: Annual Health Examination Requirement for
Persons Working in a Primary Care Clinic

Dear Mr. Avey,

The California Department of Public Health (CDPH), Office of Regulations, has received your concerns regarding an inconsistency you identified between California Code of Regulations, Title 22 (22 CCR), section (§) 75051(a) and Health and Safety Code (HSC), §1226.1. It pertains to a regulatory requirement for an annual health examination for all persons working in a primary care clinic that is more stringent than statute.

Pursuant to Government Code (GC) §11340.6, CDPH is treating your request as a petition. You are requesting CDPH to “justify the existing regulation’s rulemaking authority, and the rationale for being “more stringent” than described in statute, or take steps to remove the regulation from the Code of Regulations.”

CDPH’s Center for Health Care Quality has given consideration to your request. We agree the requirements in 22 CCR, §75051 are more stringent than in HSC §1226.1. We therefore grant your petition in part. While it is not appropriate to repeal the regulation, we will amend §75051 to be consistent with the requirements specified in HSC §1226.1.

Please note, pursuant to GC §1340.7, you or any other interested person may request reconsideration of any part or all of the CDPH decision regarding this petition no later than 60 days after the date of this letter.

A copy of this letter will be sent to the Office of Administrative Law for publication in the California Regulatory Notice Register as required per GC §11340.7(d).

To obtain a copy of this petition or to discuss this matter further, please contact Cheryl Gordon, Chief, Policy and Enforcement Branch at Cheryl.Gordon@CDPH.ca.gov or (916) 552-8734.

CALIFORNIA PRISON INDUSTRY AUTHORITY
CALPIA Inmate Recruitment and Hiring Processes

This rulemaking by the California Prison Industry Authority (CALPIA) amends three sections and adopts one new section in Title 15 of the California Code of Regulations. The amendments are designed to make clear that inmates found in violation of substance abuse regulations will not be allowed to hold jobs with CALPIA unless they satisfy requirements including a rehabilitation program. This rulemaking also clarifies the type of computer crimes that will eliminate an inmate from work that has access to computers. Finally, CALPIA is adopting a new section to allow for part time work to inmates in a rehabilitation program.

DEPARTMENT OF BUSINESS OVERSIGHT
Omnibus Money Transmission Act Regulations

The Department of Business Oversight made comprehensive amendments to title 10 regulations that implemented the former Payment Instruments Law. The Payment Instruments Law was repealed and re-enacted as the current Money Transmission Act (Act) in the Financial Code (commencing with section 2000). The action amends the regulations implementing the Payment Instruments Law and updates them to implement the Act. The action affects definitions, exemptions from the Act, application requirements for a license, administrative standards and procedures relating to an application for a license, consumer disclosures, determination of required tangible shareholders' equity, and eligible securities.

 DEPARTMENT OF FOOD AND AGRICULTURE
 Asian Citrus Psyllid Interior Quarantine

This emergency rulemaking action by the Department of Food and Agriculture (the "Department") expands the quarantine area for the Asian Citrus Psyllid ("ACP") *Diaphorina citri* in the Bakersfield area of Kern County. This quarantine area is being expanded by approximately four (4) square miles in response to the identification of one adult ACP in the Bakersfield area on July 15, 2015. This emergency action provides authority for the State to perform quarantine activities against ACP within this additional area.

Title 3
 AMEND: 3435(b)
 Filed 08/10/2015
 Effective 08/10/2015
 Agency Contact: Sara Khalid (916) 403-6625

File# 2015-0807-02
 DEPARTMENT OF FOOD AND AGRICULTURE
 Asian Citrus Psyllid Interior Quarantine

This emergency rulemaking by the Department of Food and Agriculture (DFA) amends title 3, California Code of Regulations, section 3435(b) to establish a new quarantine area for Asian citrus psyllid (ACP) in Kern County of approximately 149 square miles. The quarantine is in response to the finding of one adult ACP on July 17, 2015 in the Buttonwillow area of Kern County. This action will amend title 3, California Code of Regulations, section 3435(b).

Title 3

File# 2015-0731-01
 DEPARTMENT OF INDUSTRIAL RELATIONS
 Abatement Credit for Div. of Occupational Safety and Health Citation

This action re-adopts emergency regulations adopted in emergency action 2015-0203-01 to implement statutory changes which took effect January 1,

2015. Existing statutes allow the Department of Industrial Relations (DIR), within certain statutory parameters, to issue citations, impose civil penalties, and require abatement for violations of occupational health standards. DIR adopted regulations to implement the statutes and clarify the parameters. The legislature made recent statutory changes to the parameters, causing inconsistencies with portions of the existing regulations. The regulatory changes bring the DIR regulations back into conformity with the amended statutes. To conform to statute, DIR amends the regulations to (1) condition abatement credits upon an employer showing proof of abatement for serious violations; and (2) allow DIR flexibility to adjust earned abatement credits after a citation becomes a final order by operation of regulatory law when an employer provides sufficient proof of timely abatement.

Title 8
 AMEND: 333, 336

 DEPARTMENT OF PESTICIDE REGULATION
 Registration Fees

This emergency rulemaking by the Department of Pesticide Regulation (the "Department") amends sections 6148, 6148.5, 6170, and 6216 in Title 3 of the California Code of Regulations. The Department is amending these sections to increase application fees for registration and renewal of each pesticide product from \$750 to \$1,150, and to change the application fee for label amendments from \$100 for amendments that require the support of data to \$25 for any amendment to a registered pesticide product. The increased application fees will ensure that the total collected revenue for the

next three upcoming fiscal years is sufficient to support projected expenditure levels for the Department’s pesticide registration program. Through this emergency rulemaking, the Department is also making non-substantive changes to the Application for Pesticide Registration.

 DIVISION OF WORKERS’ COMPENSATION
 Workers’ Compensation — QME Regulations

This rulemaking action amends sections in Title 8 of the California Code of Regulations concerning the process and forms for obtaining a panel of Qualified Medical Evaluators (QMEs) to resolve medical disputes in workers’ compensation cases. More specifically, the action: establishes an online QME panel request process for represented parties, amends forms used by unrepresented parties to request a QME panel, deletes three QME specialty codes from QME panel application, reappointment, and/or request forms, and adds one new general–category QME specialty code.

Title 8
 AMEND: 30, 30.5, 31.1, 100, 104, 105, 106, 109
 Filed 08/12/2015
 Effective 09/01/2015
