*Information contained in this document is published as received from agencies and is not edited by the Office of State Publishing.*

**TITLE 2. FAIR POLITICAL PRACTICES COMMISSION**

NOTICE IS HEREBY GIVEN that the Fair Political Practices Commission, pursuant to the authority vested in it by sections 82011, 87303, and 87304 of the Government Code to review proposed conflict of interest codes, will review the amended conflict of interest codes of the following agencies:

**CONFLICT OF INTEREST CODE**

**AMENDMENTS**

**STATE AGENCIES:**

California State University and Department of the Youth Authority

A written comment period has been established commencing on **September 24, 2004**, and closing on **November 8, 2004**. Written comments should be directed to Adrienne Korchmaros, Fair Political Practices Commission, 428 J Street, Suite 620, Sacramento, California 95814.

At the end of the 45-day comment period, the proposed amendment to the conflict of interest code will be submitted to the Commission's Executive Director for review, unless any interested person, or his or her duly authorized representative, requests, no later than 15 days prior to the close of the written comment period, a public hearing before the full Commission. If a public hearing is requested, the proposed amendment will be submitted to the Commission for review.

The Executive Director of the Commission will review the above-referenced amendment to the conflict of interest code, proposed pursuant to Government Code section 87300, which designates, pursuant to Government Code section 87302, employees who must disclose certain investments, interests in real property, and income.

The Executive Director or the Commission, upon his or her own motion or at the interest of any interested person, will approve, or revise and approve, or return the amendment to the agency for revision and re-submission within 60 days without further notice.

Any interested person may present statements, arguments, or comments, in writing to the Executive

Director of the Commission, relative to review of the proposed amendment to the conflict of interest code. Any written comments must be received no later than November 8, 2004. If a public hearing is to be held, oral comments may be presented to the Commission at the hearing.

**COST TO LOCAL AGENCIES**

There shall be no reimbursement for any new or increased costs to local government which may result from compliance with these codes because these are not new programs mandated on local agencies by the codes since the requirements described herein were mandated by the Political Reform Act of 1974. Therefore, they are not "costs mandated by the state" as defined in Government Code section 17514.

**EFFECT ON HOUSING COSTS AND BUSINESSES**

Compliance with the codes has no potential effect on housing costs or on private persons, businesses, or small businesses.

**AUTHORITY**

Government Code sections 82011, 87303, and 87304 provide that the Fair Political Practices Commission as the code reviewing body for the above conflict of interest code shall approve codes as submitted, revise the proposed code, and approve it as revised, or return the proposed code for revision and re-submission.

**REFERENCE**

Government Code sections 87300 and 87306 provide that agencies shall adopt and promulgate conflict of interest codes pursuant to the Political Reform Act and amend their codes when change is necessitated by changed circumstances.

**CONTACT**

Any inquiries concerning the proposed conflict of interest code(s) should be made to Adrienne Korchmaros, Fair Political Practices Commission, 428 J Street, Suite 620, Sacramento, California 95814, telephone (916) 322-5660.

AUTHORITY AND REFERENCE

Authority: Sections 12001 and 33031, Education Code.

Reference: 20 USC Section 6316(e)

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

This subchapter shall apply to these services as defined in Section 1116(e) of the *No Child Left Behind Act of 2001* (NCLB) (20 United States Code Section 6316(e)). The proposed regulations describe the implementation of NCLB provisions for supplemental educational services.

The proposed regulations will replace regulations that were approved by the State Board in May 2003. The proposed regulations expand the limited scope of the existing regulations that largely focus on a definition of "demonstrated record of effectiveness" for applicants to become supplemental educational services providers. Additionally, with the growth of

the program, applicants, approved providers, and local educational agencies (LEAs) have indicated a need for guidance for themselves and for parents.

The proposed regulations identify responsibilities of the LEAs, parents, prospective providers, approved providers, and the State Education Agency (SEA) in ensuring that eligible students receive appropriate supplemental educational services. The proposed regulations also define necessary terms, set forth eligibility criteria, clarify the application process, and specify the criteria for termination of approved providers.

DISCLOSURES REGARDING THE PROPOSED ACTION

Mandate on local agencies and school districts: None.

Cost or savings to any state agency: None.

Costs to any local agency or school district that must be reimbursed in accordance with Government Code Section 17561: None.

Other non-discretionary cost or savings imposed on local educational agencies: None.

Cost or savings in federal funding to the state: None.

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None.

Cost impacts on a representative private person or businesses: The State Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Adoption of these regulations will not:

- (1) create or eliminate jobs within California;
- (2) create new businesses or eliminate existing businesses within California; or
- (3) affect the expansion of businesses currently doing business within California.

Significant effect on housing costs: None.

Effect on small businesses: The proposed amendments to the regulations do not have an effect on small businesses because the regulations only relate to local school districts.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code Section 11346.5(a)(13), the State Board must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the State Board, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

The State Board invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the written comment period.

## TITLE 11. COMMISSION ON PEACE OFFICER STANDARDS AND TRAINING

### NOTICE OF PROPOSED REGULATORY ACTION

#### AMEND COMMISSION REGULATION 1053 TO ADD EXEMPTION TO EXPANDED COURSE OUTLINE REQUIREMENT

Notice is hereby given that the Commission on Peace Officer Standards and Training (POST) is proposing to adopt, amend or repeal regulations in Chapter 2 of Title 11 of the California Code of Regulations. This proposal is made pursuant to the authority vested by Penal Code sections 13503 (powers of the Commission on POST) and 13506 (authority for Commission on POST to adopt regulations). This proposal is intended to interpret, implement, and make specific Penal Code section 13503 (Commission on POST authority to develop and amend programs to increase the effectiveness of law enforcement).

#### INFORMATIVE DIGEST/POLICY OVERVIEW STATEMENT

At its August 2004 meeting, the Commission approved a proposal to seek public comment on proposed changed revisions to POST Regulation

1053—Course Certification Request and Review Process. Currently, Regulation 1053 requires course presenters to submit all proposed changes to a POST-certified course to POST for approval prior to presentation of the course. Subsection (4) of Section (a) references the submission of an “Expanded course outline which minimally includes subject topics to the third level of detail to sufficiently indicate the technical information in the subject areas.” This requirement applies to both the initial certification process and all subsequent curriculum updates.

Proposed changes to Regulation 1053 add an exemption to the expanded course outline requirement and make minor grammar and consistency cleanup changes. In lieu of the expanded course outline, the course presenter must sign and submit an Expanded Course Outline Exemption, POST 2-141.

The proposed exemption is intended to clarify and simplify current regulations for the submission of expanded course outlines by eliminating redundancy for courses with POST-prescribed curriculum and testing specifications. POST supplies the prescribed minimum curriculum that each presenter of these courses is required to follow, so an expanded course outline is unnecessary and redundant. This requirement will apply only to the minimum prescribed curriculum. An expanded course outline will still be required for any curriculum related to topics not prescribed by the *Training and Testing Specifications for Peace Officer Basic Courses*.

#### **PUBLIC COMMENT**

The Commission hereby requests written comments on the proposed actions. All written comments must be received at POST no later than 5:00 p.m. on November 8, 2004. Written comments should be directed to Kenneth J. O’Brien, Executive Director, Commission on Peace Officer Standards and Training, 1601 Alhambra Boulevard, Sacramento, CA 95816-7083, or by fax number (916) 227-2801.

A public hearing is not scheduled. Pursuant to Government Code Section 11346.8 any interested person, or his or her duly authorized representative, may request in writing, no later than 15 days prior to the close of the public comment period, that a public hearing be held.

#### **ADOPTION OF PROPOSED REGULATIONS**

Following the close of the public comment period, the Commission may adopt the proposal substantially as set forth without further notice, or the Commission may modify the proposal if such modifications remain sufficiently related to the text as described in the Informative Digest. If the Commission makes changes to the language before the date of adoption, the text of any modified language, clearly indicated, will be made available at least 15 days before adoption to all

persons whose comments were received by POST during the public comment period, and to all persons who request notification from POST of the availability of such changes. A request for the modified text should be addressed to the agency official designated in this notice. The Commission will accept written comments on the modified text for 15 days after the date the revised text is made available.

#### **TEXT OF PROPOSAL RULEMAKING FILE; INTERNET ACCESS**

The file will be maintained for inspection during the Commission’s normal business hours (Monday through Friday, 8 a.m. to 5 p.m.).

#### **ESTIMATE OF ECONOMIC IMPACT**

**Fiscal impact on Public Agencies including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:** None

**Non-discretionary Costs/Savings to Local Agencies:** None

**Local Mandate:** None

**Costs to a Local Agency or School District for which Government Code Section 17561 Requires Reimbursement:** None

**Significant Statewide Adverse Economic Impact Directly Affecting California Businesses, including Small Business:** The Commission on Peace Officer Standards and Training has made an initial determination that the proposed regulation will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability to compete with businesses in other states. The Commission on Peace Officer Standards and Training has

found that the proposed amendment will have no effect on California businesses, including small businesses, because the Commission sets selection and training standards for law enforcement and does not impact California businesses, including small businesses.

**Cost Impacts on Representative Private Persons or Businesses:** The Commission on Peace Officer Standards and Training is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with this proposed action.

**Effect on Housing Costs:** The Commission on Peace Officer Standards and Training has made an initial determination that the proposed regulation would have no effect on housing costs.

ASSESSMENT

The adoption of the proposed amendments to this regulation will neither create nor eliminate jobs in the state of California, nor result in the elimination of existing businesses or create or expand businesses in the state of California.

CONSIDERATION OF ALTERNATIVES

To take this action, the Commission must determine that no reasonable alternative considered by the Commission, or otherwise identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action.

Any person interested may present statements or arguments orally or in writing relevant to the action proposed at a hearing to be held at 2535 Capitol Oaks Drive, Sacramento, California 95833 at 10:00 am on November 12, 2004. #### **AUTHORITY AND REFERENCE**

Pursuant to the authority in Section 7887 of the Business and Professions Code, and to implement, interpret, and make specific Chapter 874, Statutes of 2003 (SB 363 Figueroa), the Board for Geologists and Geophysicists is considering changes to Division 29 of Title 16 of the California Code of Regulations as follows:

INFORMATIVE DIGEST/POLICY  
STATEMENT OVERVIEW

Current law, Section 7800 et seq. of the Business and Professions Code and California Code of Regulations, Title 16 Division 29, Sections 3000–3066 specify the types and amounts of fees that can be collected by the Board for Geologists and Geophysicists for applying for and renewing a license to practice geology and/or geophysics within California.

The Board proposes to amend section 3005 of Title 16, Division 29 of the California Code of Regulations to increase the licensing renewal fees for Registered Geologists, Registered Geophysicists, Certified Engineering Geologists and Certified Hydrogeologists.

The Board’s mandate is to protect the health, safety and welfare of California consumers. The Board’s highest priority is to protect consumers by employing its authority to investigate complaints and take disciplinary action against licensees and applicants for licensure who endanger the health and safety of the consumer.

Without the fee increase as now authorized by statute, the Board may enter into a deficit funding situation as soon as FY 2007–08, even with the staffing at current levels. The Board has already taken drastic measures to reduce its expenditures such as reducing its licensing examinations from twice a year to once, reducing the number of Board and Committee meetings, freezing travel and eliminating any purchasing except for the minimal amount of supplies necessary to run the office (paper, toner, etc.) and the rent and utilities required to have a presence for the public.

FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: There will be no impact on the costs to State Agencies or in Federal Funding to the State as a result of these proposed regulations, but it will result in improving the fund condition for the Board for Geologists and Geophysicists within the Department of Consumer Affairs.

Nondiscretionary Costs/Savings to Local Agencies: None.

Local Mandate: None.

Cost to Any Local Agency or School District for Which Government Code Section 17561 Requires Reimbursement: None.

Business Impact: The board has determined that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting California business enterprises and individuals, including the ability of California businesses to compete with businesses in other states.

The Board for Geologists and Geophysicists is not aware of any cost impacts that a representative private person would necessarily incur in reasonable compliance with the proposed action.

Impact on Jobs/New Businesses: The Board for Geologists and Geophysicists has determined that this regulatory proposal will not have any impact on the creation of jobs or businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

Cost Impact on Private Persons or Entities: None

Effect on Housing Costs: None

Plain English Requirement: The Board for Geologists and Geophysicists has determined that the proposed regulations would not affect small businesses.

The proposed regulations would not negatively affect the creation of jobs in the State of California.

CONSIDERATION OF ALTERNATIVES

The Board for Geologists and Geophysicists must determine that no reasonable alternative it considered or that has otherwise been identified or brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective as and less burdensome on affected private persons than the proposal described in this Notice.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above-mentioned hearing.

STATEMENT OF REASONS  
AND INFORMATION

The Board for Geologists and Geophysicists has prepared a statement of the reasons for the proposed action and has available all the information upon which the proposal is based.

TEXT OF PROPOSAL

Copies of the exact language of the proposed regulations and of the statement of reasons, and all of the information upon which the proposal is based, may be obtained at the hearing or prior to the hearing upon request from the Board for Geologists and Geophysicists at 2535 Capitol Oaks Drive, Suite 300A, Sacramento, California 95833-2926.

**TITLE 16. BOARD FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS**

NOTICE IS HEREBY GIVEN that the Board for Professional Engineers and Land Surveyors (herein-after referred to as “the Board”) is proposing to take the action described in the Informative Digest. Any person interested may present statements or arguments orally or in writing relevant to the action proposed at a hearing to be held **November 10, 2004, 1 p.m.**, at the Board Office, 2535 Capitol Oaks Drive, Suite 300, Sacramento, California, 95833. Written comments including those sent by mail, facsimile, or e-mail to the addresses listed under Contact Person in this Notice, must be received by the Board at its office not later than 5:00 p.m. on **November 10, 2004**, or must be received by the Board at the hearing. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

AUTHORITY AND REFERENCE

Pursuant to the authority vested by Sections 6716, 6799, 8710 and 8805 of the Business and Professions Code and to implement, interpret or make specific Sections 6799 and 8805 of said code, the Board is considering changes to Division 5 of Title 16 of the California Code of Regulations as follows:

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Amend Section 407, Title 16, California Code of Regulations.

The Board for Professional Engineers and Land Surveyors is authorized by Business and Professions Code Sections 6799 and 8805 to establish the renewal fee for licensure as a Professional Engineer and/or Professional Land Surveyor. Board Rule 407(c) requires the fee for a biennial renewal expiring on or after July 1, 2003 to be \$150 which will drop to a \$100 biennial renewal fee for licenses that expire on or after July 1, 2005. The Board has determined that the current biennial renewal fee must remain at \$150 to continue oversight of the engineer and land surveyor professions and administration of its exams.

This proposal will amend Section 407(c) of the California Code of Regulations to delete the language that reduces the biennial renewal fee from \$150 to \$100 for licenses expiring on or after July 1, 2005. The renewal fees were restructured from a quadrennial renewal of \$160 to a biennial renewal of \$150 effective for licensees expiring on or after July 1, 2003 pursuant to Senate Bill 136 (Stats. 2001, Chapter 495) that reduced the license renewal period from every four years to every two years as authorized by Business and Professions Code Sections 6795 and 8801. These changes became effective January 1, 2002. Prior to this fee increase, fee were last increased in 1991.

FISCAL IMPACT ESTIMATES

**Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Cost/Savings in Federal Funding to the State:** The Board’s yearly expenditures continue to exceed revenue received from applications and license renewals. Elimination of the renewal fee reduction effective July 1, 2005 will enable the Board to recover costs and maintain a reserve for future increases. The proposed regulatory action has no cost impact in terms of increased expenses and/or savings to state agencies and/or federal funding to the state.

**Nondiscretionary Costs/Savings to Local Agencies:** None

**Local Mandate:** None

**Cost to Any Local Agency or School District for Which Government code Section 17561 Requires Reimbursement:** None

**Business Impact:** The Board has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly effecting business, including the ability of California businesses to compete with businesses in other states.

The following studies/relevant data were relied upon in making the above determination:

- 1) Businesses are already paying the \$150 biennial fee and are aware that it is required, therefore, elimination of the language reducing the fee is not considered an increase from existing fees.
- 2) During the regulatory process for the recent increase in license renewal fees that became effective July 1, 2003, Richard Markuson, Deputy Executive Director of the Consulting Engineers and Land Surveyors of California (CELSOC) surveyed six of CELSOC's large engineering firm members. All the firms surveyed indicated that they pay the license renewal fees for engineers employed with their firm as part of their benefit package. In relation to the compensation provided employees and revenue generated by some of these firms for engineering projects, the renewal fee increase will create an insignificant impact to these firms.
- 3) All engineers/land surveyors employed by the State Government in California also receive reimbursement for their professional engineers and/or land surveying licenses.

**Impact on Jobs/New Businesses:** The Board has determined that this regulatory proposal will not have a significant impact on the creation of jobs or new businesses or the elimination of jobs or existing business or the expansion of businesses in the State of California.

**Cost Impact on Private Persons or Entities:** The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

**Housing Costs:** None.

#### EFFECT ON SMALL BUSINESS

The Board has determined that the proposed regulations would not affect small businesses. The proposed amendment does not place any new restrictions or requirements on individuals and/or small businesses. While the Board does not license businesses, but only individuals, some of its licensees do offer their professional services through business entities, some of which may be classified as small businesses. Because this proposed amendment will eliminate requirements that the renewal fees for Professional Engineers and Land Surveyors reduces effective July 1, 2005, small business entities who employ these individuals and/or use their services will not experience a cost decrease from the existing fee.

#### CONSIDERATION OF ALTERNATIVES

The Board must determine that no reasonable alternative it considered to the regulations or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposal described in this Notice.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above-mentioned hearing.

#### INITIAL STATEMENT OF REASONS AND INFORMATION

The Board has prepared an initial statement of reasons for the proposed action and has available all the information upon which the proposal is based.

**TITLE 18. FRANCHISE TAX BOARD**

As required by Section 11346.4 of the Government Code, this is notice of intention to adopt amendments to California Code of Regulations, title 18, sections 25130 and 25137, subsection (b)(1), pertaining to special rules for the property factor. There will not be a public hearing unless requested by an interested person at least 15 days before the close of the written comment period. Any request for a public hearing should be submitted to the agency officer named below.

This is an amendment to an existing regulation, California Code of Regulations, title 18, section 25137, subsection (b)(1), providing special rules for the property factor, with these amendments specifically addressing how rent shall be determined for interests in timber, oil, gas and hard minerals located on the property of someone other than the taxpayer. The amendments would codify current administrative practice, as set forth in Franchise Tax Board Legal Ruling 97-2, December 17, 1997, with certain modifications. The amendments also provide definitions of words and phrases used in the regulation.

Additionally, the amendments to California Code of Regulations, title 18, section 25130, are made because of and to coordinate with the amendments to California Code of Regulations, title 18, section 25137, subsection (b)(1).

Minor stylistic changes have been made to both sections and headings have been added to California Code of Regulations, title 18, section 25137, subsection (b)(1).

**WRITTEN COMMENT PERIOD**

Written comments will be accepted until 5:00 p.m., November 8, 2004. All relevant matters presented will be considered before the proposed regulatory action is taken. Comments should be submitted to the agency officer named below.

**AUTHORITY AND REFERENCE**

Revenue and Taxation Code section 19503 authorizes the Franchise Tax Board to prescribe regulations necessary for the enforcement of Part 10 (commencing with section 17001), Part 10.2 (commencing with section 18401), Part 10.7 (commencing with section 21001) and Part 11 (commencing with section 23001).

The proposed regulatory action interprets, implements, and makes specific sections 25130 and 25137 of the Revenue and Taxation Code.

**INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW**

The amendments provide for treating royalty and other payments made for timber, oil, gas and hard mineral interests located on the property of someone other than the taxpayer as rent for property factor purposes. The amendments reflect the Franchise Tax Board's current administrative practice, as set forth in Legal Ruling 97-2, that such payments constitute fair rental values and provide appropriate property factor representation for the assets at issue.

Significant effect on the expansion of businesses currently doing business within the state: none

**CONSIDERATION OF ALTERNATIVES**

**DEPARTMENT OF FISH AND GAME**

CESA CONSISTENCY DETERMINATION FOR  
Carlson Marsh Drainage Modification Project  
Orange County

The Department of Fish and Game ("Department") received notice on September 3, 2004 that the Irvine Ranch Water District ("IRWD") proposes to rely on consultations between federal agencies to carry out a project that may adversely affect species protected by the California Endangered Species Act ("CESA"). This project consists of constructing a system of weirs, culverts, and low flow channels for purposes of flood control, vector control, and maintenance of riparian vegetation. The project is located in the Carlson portion of the San Joaquin Marsh in the City of Irvine, Orange County.

The U.S. Fish and Wildlife Service ("USFWS"), on August 30, 2004, issued to the U.S. Army Corps of Engineers a no jeopardy federal biological opinion (FWS-OR-3712.3) which considers the Federally and State endangered least Bell's vireo (*Vireo bellii pusillus*) and authorizes incidental take.

Pursuant to California Fish and Game Code Section 2080.1, IRWD is requesting a determination on whether the federal biological opinion FWS-OR-3712.3 is consistent with CESA. If the Department determines that the federal biological opinion is consistent, IRWD will not be required to obtain an incidental take permit under CESA for the proposed project.

**AVAILABILITY OF PETITION**

The petition for amendment of the regulation is available upon request directed to the Department's contact person.

**SUMMARY OF PETITION**

Petitioner requests the Department of Corrections "amend" and "rewrite" regulations contained in the California Code of Regulations (CCR), Title 15, Division 3, Subchapter 2, Article 9, § 3175(e) which currently specifies that the standards of conduct and behavior for inmates and visitors will be limited to a brief embrace and/or kiss at the beginning and end of each visit. Petitioner requests amendment to this section to allow for more time to embrace and/or kiss family member.

**DEPARTMENT DECISION**

The Director of Corrections denies the petition to amend the existing regulation relating to family visits, Section 3175(e) of the December 31, 2003, California Code of Regulation.

The regulation in its current text is written to ensure the safety of staff, inmates, and visitors. Section 3175 clearly identifies the appropriate and acceptable physical contact allowed by visitor and inmate during a family visiting period. Any person who violates this regulation and any established institution operational procedures regarding visitor conduct and behavior will be subject to denial, suspension, restriction, termination, or revocation of family visitation privileges.

**STATE WATER RESOURCES CONTROL BOARD**  
 Revise Ammonia Objectives for Waters Not Characteristic of Fresh Water

This amendment to the Water Quality Control Plan for the Los Angeles Region updates the ammonia objectives for inland surface waters not characteristic of freshwater such that they are consistent with the U.S. Environmental Protection Agency "Ambient Water Quality Criteria for Ammonia (Saltwater)-1989." For inland surface waters not characteristic of freshwater, the proposed objectives are a 4-day average concentration of un-ionized ammonia of 0.035 milligrams per liter (mg/L) and a one-hour average concentration of un-ionized ammonia of 0.233 mg/L. The proposed objectives are fixed concentrations of un-ionized ammonia, independent of pH, temperature, or salinity. The proposed amendment includes an implementation procedure to convert un-ionized ammonia objectives to total ammonia effluent limits. The proposed amendment also simplifies the implementation procedures for translating ammonia objectives

into effluent limits in situations where a mixing zone has been authorized by the Regional Board. Finally, the proposed amendment revises the implementation procedure for determining saltwater, brackish or freshwater conditions, to be consistent with the proposed objectives. The proposed objectives will apply only to inland surface waters not characteristic of freshwater (including enclosed bays, estuaries and wetlands) and do not impact the Ammonia Water Quality Objectives for ocean waters contained in the California Ocean plan.
