If a public hearing is requested, the proposed code(s) will be submitted to the Commission for review.

The Executive Director of the Commission will review the above-referenced conflict-of-interest code(s), proposed pursuant to Government Code Section 87300, which designate, pursuant to Government Code Section 87302, employees who must disclose certain investments, interests in real property and income.

Subject Matter of Proposed Regulations: Outreach Program Plans

PROPOSED REGULATORY ACTION

The Secretary of State proposes the following regulatory action to Title 2, Division 7, Chapter 8 of the California Code of Regulations:

Amend sections 20000, 20001, 20003, 20004 and 20006; and

Repeal section 20002.

AUTHORITY AND REFERENCE

Authority cited: Sections 2105, 2130 and 2164, Elections Code; Section 12172, Government Code.

Reference: Sections 2105, 2130, 2153, 2157, 2158 and 2164 Elections Code.

INFORMATIVE DIGEST / POLICY STATEMENT
OVERVIEW

Chapter 704 of the Statutes of 1975 established voter registration by mail. Among other provisions, this legislation required the Secretary of State to adopt regulations requiring each county to design and implement programs to identify qualified electors who are not registered to vote, and to register them to vote (current Elections Code section 2105). The regulations adopted in 1976 (California Code of Regulations section 20000,

et seq.) require counties to submit voter outreach plans for review by the Secretary of State.

Following the adoption of the required regulations in 1976, 54 counties submitted outreach plans. Some counties continued to submit updated plans, periodically and inconsistently. It appears that at some point in the 1980's Chapter 704 of the Statutes of 1975 may have been interpreted to be a one-time reporting requirement.

Chapter 704 of the Statutes of 1975 also required that the Secretary of State reimburse counties for net costs associated with the implementation of the law. Specifically, the Secretary of State pays to print voter registration cards and pays for the return postage on the cards when the person wishing to register to vote mails the card to the state or their county elections official. (Elections Code sections 2157(a)(8), 2161, 2164(a)(2).)

The specific benefits anticipated by the proposed amendment of these regulations include assisting county election officials by clarifying what needs to be submitted and when. The existing regulations were first adopted in 1976 and have not been changed or modified since. Leaving the existing regulations intact would perpetuate confusion. The anticipated benefit is to election officials so they can more easily comply with the currently vague requirements for outreach plans.

The Secretary of State has considered any other related regulations and statutes on this matter and has determined that this proposed amendment is not inconsistent or incompatible with existing regulations and statutes. The Secretary of State is the only state office responsible for administering these regulations.

This proposed regulatory action does the following:

Section 20000 — Section 20000 is amended to specify that county elections officials rather than “counties” shall design and implement voter outreach programs.

Section 20001 — Section 20001(a) is being amended to modify the consultation component to make it clear that county elections officials are to include a description of how they consult on an ongoing basis with persons who have experience with and interest in increasing voter registrations.

Section 20001(b) is being amended to modify the publicity component to make it clear that county elections officials must describe in the plan how they are going to publicize the voter registration process and related deadlines to eligible residents.

Section 20001(c) is being amended to establish that the outreach program needs to prioritize certain efforts over others and to require the plan to describe why certain efforts are prioritized over others.

Section 20001(d) is being amended to reword the budget component to make it clear that county elections officials shall detail how money is being spent on per-

sonnel, equipment, and materials for each outreach effort.

Section 20001(e) amends the schedule component by removing the requirement that the schedule of critical dates and deadlines for outreach efforts proposed be supported by “contractual and voluntary commitments.” This requirement is being removed because this type of detail is not needed.

Section 20001(f) amends the solicitation of local assistance component to reword the last sentence regarding soliciting offices that “come into frequent contact with unregistered electors who would be least likely to register under county registration practices in effect prior to July 1, 1976.” The solicitation of such offices is outdated, as the voter registration practices have changed dramatically since 1976.

Current Section 20001(h) is being deleted and moved to section 20002. As it is currently written, subsection (h) relates to controls that must be established for bulk distribution of voter registration affidavits and is not part of the outreach plan.

A new Section 20001(g) is being added to require that each county elections official maintain a link to the Secretary of State’s online voter registration application on their county elections office webpage. The online voter registration application was launched in 2012 and has proven to be extremely effective in promoting voter registration.

Section 20002 — Current Section 20002 is being amended to delete the existing language because it is outdated and no longer applicable. 20001(g) is being inserted in its place. Minor non-substantive changes have been made to the language, including changing “card” to “affidavit” to be consistent with the Elections Code. The requirement that a copy of all statements of requests exceeding 2,000 affidavits be provided to the Secretary of State has been changed to 1,000.

Section 20003 – Section 20003 is being amended to clarify when the outreach plans are to be submitted — January 31 preceding a regularly scheduled statewide election. As currently written, there is ambiguity as to when or if a county needs to submit an outreach plan.

Section 20004 — Section 20004 is being deleted in its entirety. The Secretary of State will not be evaluating the outreach plans. Instead, the plans will be readily available as a public record.

Section 20005 — Section 20005 is being amended to remove the existing language, which is no longer the process for reimbursements under Elections Code sections 2130 and 2164.

Elections Code Section 2130 requires the Controller to reimburse counties for net costs incurred to implement voter registration activities, specifically the cost

of processing voter registration affidavits. Counties submit annually to the Controller information detailing how many voter registration affidavits were returned by mail and received over the counter.

The counties are reimbursed a specific amount per voter registration affidavit. The amount varies by county and is based on the 1992–93 per affidavit cost adjusted for annual changes in the California Consumer Price Index.

This reimbursement process is separate from the reimbursements processed pursuant to Elections Code section 2164(a) and is completed with limited interaction with Secretary of State staff.

For section 2164 reimbursement, currently, counties submit quarterly reimbursement claim forms (sample attached) detailing the number of voter registration affidavits mailed 1) per voter request, 2) per voter outreach activities pursuant to Elections Code section 2105, and 3) per incomplete voter registration affidavits. The county representative must sign the claim form certifying that the “record is accurate to the best of my knowledge and that additional documentation is on file in my office to substantiate these figures.” If a county indicates that they mailed voter registration affidavits pursuant to Section 2105, those reimbursements will be paid.

The updated reimbursement claim form will ask counties to provide information documenting where they sent outreach materials. Secretary of State staff follows up with any county that fails to include the required information with their claim form. However, there is not a review of whether those outreach activities directly link to a county outreach plan.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Secretary of State has made the following initial determinations:

1. **Mandate on local agencies and school districts:** None.

2. **Costs or savings to any state agency:** None beyond those budgeted or expected to be budgeted for the Secretary of State.

3. **Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630:** None.

The anticipated benefit is to election officials so they can more easily comply with the currently vague requirements for outreach plans.

8. **Adoption of these amendments will not:**

- (A) create or eliminate jobs within California;
- (B) create new businesses or eliminate existing businesses within California; or
- (C) affect the expansion of businesses currently doing business within California.

9. **Significant effect on housing costs:** None.

10. **Effect on small business:** None. The proposed amendments do not impose any mandatory fees on small businesses or require any forms or reports be prepared or filed by any business.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS/ASSESSMENT

The proposed changes are to update the regulations in order to clarify what is required to be submitted to the Secretary of State and when it is to be submitted. The existing regulations were first adopted in 1976 and have not been changed or modified since. The anticipated benefit is to election officials so they can more easily comply with the currently vague requirements for outreach plans. Accordingly, no jobs in California will be created or eliminated, no new businesses in California will be created or existing businesses eliminated, and no existing businesses in California will be expanded or eliminated.

AUTHORITY AND REFERENCE

Government Code Section 8670.10 grants the Administrator of OSPR the authority to adopt regulations and guidelines for oil spill contingency plans. The proposed regulations implement, interpret and make specific Government Code Sections 8670.28 through 8670.31.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act (Act), enacted in 1990 by Senate Bill 2040, created a comprehensive state oil spill program for marine waters. Among its many provisions, it required the adoption of regulations requiring oil spill contingency plans for tank vessels, nontank vessels, and marine facilities.

Following the enactment of the Act, and the establishment of the Office of Spill Prevention and Response (OSPR), regulations governing oil spill contingency plans were adopted. These regulations established clear

and consistent guidelines to those parties either affected by their adoption or charged with their enforcement. These regulations were necessary to implement, interpret and make specific Government Code Sections 8670.28 through 8670.31.

These proposed amendments to the regulations are needed to update the required Shoreline Protection Tables (SP Tables), which were adopted in 2006 as a new approach to determine required shoreline protection response resources and to level the playing field for the plan holders and the Oil Spill Response Organizations (OSROs) they contract with. These SP Tables show the sites to be protected, the hour by which they should be protected, and the response resources required to provide this protection. These tables provide a standard for the statutorily mandated Best Achievable Protection of coastal resources.

An update to the definition of “Shoreline Protection Tables” has also been included, to update the date of the most current tables.

POLICY STATEMENT OVERVIEW

The updates align the SP Tables with the 2011 versions of the Area Contingency Plans (ACP), which are developed by the U.S. Coast Guard with input from affected stakeholders, mandated by the Oil Pollution Act of 1990 [OPA-90, at 33 USC 1321(j)].

However, since the SP Tables have not been amended since they were adopted in 2006, some changes reflect the 2008 versions of the ACPs (as noted). Many, if not most, of the changes are clean-up, consolidations and corrections. The goal is to move forward in 2013 with amendments to the SP Tables to match the 2011 versions of the ACPs; another rulemaking would take place after the 2014 ACPs are approved in October 2014, to incorporate any needed updates to the tables.

It is not anticipated that the updates to the SP Tables will require any additional resources or costs to the regulated community. In addition to the consolidations and corrections, the substantive changes are refinements to strategies that should result in no extra costs to implement.

The proposed regulations will provide benefits to the health and welfare of California residents, worker safety, and the state’s environment, by ensuring that adequate shoreline protection response resources are available in the timeframes outlined in the SP Tables, which could potentially eliminate or mitigate the impacts of the spill on the shoreline environment.

After conducting a search of any other regulations in this area, we find that these are the only regulations dealing with requirements for shoreline protection, as outlined in the Shoreline Protection Tables. Therefore,

the Department finds that these proposed regulations are not inconsistent or incompatible with existing state regulations.

SMALL BUSINESS IMPACT STATEMENT

OSPR has determined that the proposed regulations may affect small businesses.

COMPLIANCE WITH GOVERNMENT CODE SECTIONS 8574.10, 8670.28, 8670.29 AND 8670.55

In accordance with Government Code Section 8670.55(a), these regulations have been developed in consultation with the Oil Spill Technical Advisory Committee.

DISCLOSURES REGARDING THE PROPOSED ACTION

Mandate on local agencies and school districts: NONE.

Costs or savings to any state agency: NONE.

Costs or savings to local agencies or school districts which must be reimbursed in accordance with Part 7 (commencing with Section 17500) of Division 4 of the Government Code: NONE.

Other non-discretionary costs or savings imposed upon local agencies: NONE.

Costs or savings in federal funding to the state: NONE.

Cost impacts on representative private persons or businesses: It is not anticipated that the updates to the SP Tables will require any additional resources or costs to the regulated community. In addition to the consolidations and corrections, the substantive changes are refinements to strategies that should result in no extra costs to implement.

Significant effect on housing costs: NONE.

BUSINESS IMPACTS

OSPR has made an initial determination that the proposed amendments will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The proposed regulations:

—Will not result in the creation or elimination of jobs within the State of California;

—Will not result in the creation of new businesses or the elimination of existing businesses within the State of California;

—Will not result in the expansion of businesses currently doing business within the State of California.

—Will provide benefits to the health and welfare of California residents, worker safety, and the state's environment, by ensuring that adequate shoreline protection response resources are available in the timeframes outlined in the SP Tables, which could potentially eliminate or mitigate the impacts of the spill on the shoreline environment.

CONSIDERATION OF ALTERNATIVES

OSPR must determine that no reasonable alternative considered by OSPR or that has otherwise been identified and brought to the attention of OSPR would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

AVAILABILITY OF DOCUMENTS AND OSPR CONTACT PERSON

OSPR has prepared an Initial Statement of Reasons for the proposed regulatory action and has available all the information upon which the proposal is based. The Department has determined that the proposed regulations may not affect small businesses. It is determined that this action has no significant adverse economic impact on small businesses because they are not affected by the internal management of state prisons.

CONSIDERATION OF ALTERNATIVES

The Department must determine that no reasonable alternative considered by the Department, or that has otherwise been identified and brought to the attention of the Department, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the proposed regulatory action. Interested persons are accordingly invited to present statements or arguments with respect to any alternatives to the changes proposed at the scheduled hearing or during the written comment period.

AVAILABILITY OF PROPOSED TEXT AND INITIAL STATEMENT OF REASONS

The Department has prepared, and will make available, the text and the Initial Statement of Reasons (ISOR) of the proposed regulations. The rulemaking file for this regulatory action, which contains those items and all information on which the proposal is based (i.e., rulemaking file) is available to the public upon request directed to the Department's contact person. The proposed text, ISOR, and Notice of Proposed Action will also be made available on the Department's website <http://www.cdcr.ca.gov>.

AVAILABILITY OF THE FINAL STATEMENT OF REASONS

Following its preparation, a copy of the Final Statement of Reasons may be obtained from the Department's contact person.

AVAILABILITY OF CHANGES TO PROPOSED TEXT

After considering all timely and relevant comments received, the Department may adopt the proposed regulations substantially as described in this Notice. If the

Department makes modifications which are sufficiently related to the originally proposed text, it will make the modified text (with the changes clearly indicated) available to the public for at least 15 days before the Department adopts the regulations as revised. Requests for copies of any modified regulation text should be directed to the contact person indicated in this Notice. The Department will accept written comments on the modified regulations for 15 days after the date on which they are made available.

AUTHORITY AND REFERENCE

PC Section 5000 provides that commencing July 1, 2005, any reference to the Department of Corrections in this or any code, refers to the CDCR, Division of Adult Operations.

PC Section 5050 provides that commencing July 1, 2005, any reference to the Director of Corrections, in this or any other code, refers to the Secretary of the CDCR. As of that date, the office of the Director of Corrections is abolished.

PC Section 5054 provides that commencing July 1, 2005, the supervision, management, and control of the state prisons, and the responsibility for the care, custody, treatment, training, discipline, and employment of persons confined therein are vested in the Secretary of the CDCR.

PC Section 5058 authorizes the Director to prescribe and amend regulations for the administration of prisons.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing regulations provide procedures for processing of inmates being received into the CDCR.

This action provides the following:

- Amends Section 3000 of the California Code of Regulations (CCR), Title 15, Division 3, Chapter 1 by providing the definition for Intake Control Unit.
- Amends Section 3075 of the CCR, Title 15, Division 3, Chapter 1 concerning Initial Intake and County Reimbursements. Proposed new language includes a revised title heading for this section, outlines and establishes the responsibilities and process for the CDCR and the counties in relation to coordination for transfer and delivery of new commitment inmates. In addition, the process is outlined for delivery of inmates by the counties to the CDCR in the event that CDCR is unable to accept delivery. New language also clarifies the requirements and the process for the Department's reimbursements to the counties.

The primary function of the Initial Intake and County Reimbursements regulations is to ensure that inmates are delivered as regulated by Penal Code Section 4016.5(a).

- Establishes process for notification to each county of its designated reception center for delivery of its new commitment inmate(s). Upon notification of the county's intention to deliver new commitment inmate(s) and CDCR's inability to accept delivery of inmate(s) at the designated CDCR reception center, the Intake Control Unit Analyst will:
 - A. Direct the county to deliver the inmate(s) to an alternate reception center.
 - B. Verify CDCR's inability to accept delivery of the inmate(s) due to lack of available beds.
 - C. Contact the county in relation to submission of required documents for reimbursement.
- Establishes new subsections 3075(a) through (d) under Chapter 1, Article 6, Section 3075, Initial Intake and County Reimbursements. The existing subsections 3075(a) through (d) are renumbered as 3075(e) through (h).

SPECIFIC BENEFITS ANTICIPATED BY THE PROPOSED REGULATIONS

The Department has determined that these proposed regulations will protect the health and safety of California residents, worker safety, the state's environment, prevent discrimination, promote fairness or social equity, and increase openness and transparency in business and government.

EVALUATION OF CONSISTENCY / COMPATIBILITY WITH EXISTING REGULATIONS

The Department has determined that these proposed regulations are consistent and compatible with existing state laws and regulations. The Department reached this conclusion because these proposed regulations supplement existing regulations in order to clarify the Department's processes for working with the counties for transfer and delivery of inmates.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Title XIX of the Social Security Act is a federal/state entitlement program that pays for medical assistance for certain individuals and families with low incomes and resources. This program, known as Medicaid, became law in 1965 as a cooperative venture jointly funded by the federal and state governments to assist states in furnishing medical assistance to eligible needy persons. California's Medicaid program is called the Medi-Cal program and is administered by the Department.

Welfare and Institutions (W&I) Code, sections 10725 and 14124.5 authorize the director of the Department to adopt, amend or repeal regulations as necessary and proper to carry out the purposes and intent of the statutes governing the Medi-Cal program. W&I Code section 14132 sets forth the Medi-Cal schedule of benefits, which includes certain dental services. The Department's Medi-Cal Dental Services Program (Program) is responsible for the delivery of dental services to eligible Medi-Cal beneficiaries. Delta Dental of California (Delta) serves as the fiscal intermediary for the Program, contracting directly with dental providers, authorizing treatments and processing claims.

California State Senate Bill 456 (Chapter 635, Statutes of 2001) added Division 110 (commencing with section 130300) to the Health and Safety (H&S) Code and is known as the Health Insurance Portability and Accountability Act (HIPAA) of 2001. H&S Code section 130301(f) provides that federal HIPAA rules directly apply to state and county departments that provide health coverage, health care, mental health services, and alcohol and drug treatment programs. Additionally, H&S Code section 130301(h) provides that the implementation of HIPAA shall be accomplished as required by federal law and regulations. H&S Code section 130301(c) further provides that "administrative

simplification is a key feature of HIPAA” requiring the development of uniform standards for the coding and transmission of claims. These provisions of the H&S Code subject the Department to federal HIPAA rules and regulations for the implementation of uniform standard code sets.

The federal Health Insurance Portability and Accountability Act of 1996, specifically 45 Code of Federal Regulations §162.1002 adopted as the standard medical data code set, the Code on Dental Procedures and Nomenclature, as maintained and distributed by the American Dental Association (ADA), for dental services. This provision required the Program to update the code set every two years to the national standard Current Dental Terminology procedure codes as compiled by the ADA. The current version of these codes is called CDT 13. These procedure codes are used by the Program, Delta, and dental providers for the identification and billing of dental services provided to Medi-Cal beneficiaries.

W&I Code, section 14133.9 requires the Department to publicize and continue to develop its list of objective medical criteria that guide the professional judgment of Department consultants in their decisions as to whether a service is medically necessary and should be authorized. The Manual of Criteria for Medi-Cal Authorization (MOC), last revised April 11, 2011, which is incorporated by reference in Title 22, CCR Section 51003, is the method by which the Department has met this requirement. Chapter 8.1 of the MOC, available at <http://www.denti-cal.ca.gov/WSI/Publications.jsp?fname=Publications>, is dedicated to the dental criteria.

This regulatory proposal supports the intent of the initiating legislation as specified under W&I Code section 14000, which states the purpose of Chapter 7, Basic Health Care is to afford qualifying individuals (such as the aged or disabled) employment of health care services in a manner equitable to the general public and without duplication of benefits available under other federal or state laws.

W&I Code, section 14124.5 further specifies that the Director may establish regulations as are necessary or proper to carry out the purpose and intent of this Chapter, which includes outlining the uniform schedule of health care benefits under the Medi-Cal program, as described under section 14131 (including benefits under Article 4 and section 14021 [Mental Health Services]).

Anticipated Benefits or Goals of the Regulations

The proposed revisions to Title 22, CCR section 51003 and to Chapter 8.1 of the MOC will address the matter of implementing updated national standard CDT 13 codes as mandated by HIPAA, while establishing the health care (dental) services that are available under the Medi-Cal program. These amendments will directly

benefit dental providers through the provision of dental criteria associated with the national standard CDT procedure codes, which in turn facilitates the delivery of these vital dental services to beneficiaries.

In addition to meeting the goals of the authorizing statutes as described above, these proposed regulation changes assure that the Program meets current standards of dental practice and ensures the proper and efficient administration of the Medi-Cal program in accordance with the federal and state laws that govern the Medi-Cal program’s rules of participation, funding and the authorized schedule of benefits.

Consistency and Compatibility with Existing State Regulations

The Department has conducted an evaluation of the related existing state regulations in CCR, Title 22, Division 3 and has determined that the regulations are consistent and compatible with those regulations.

Regulatory Sections

This regulatory action specifically accomplishes the following:

- Amends CCR section 51003(e) with a revision date for the MOC,
- Amends Chapter 8.1 of the MOC, which is incorporated by reference in CCR section 51003(e) and includes revised criteria for the twelve (12) major dental procedure categories.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Fiscal Impact Statement

- A. Fiscal Effect on Local Government: None.
- B. Fiscal Effect on State Government: None.
- C. Fiscal Effect on Federal Funding of State Programs: None.
- D. All cost impacts, known to the Department at the time the notice of proposed action was submitted to the Office of Administrative Law, that a representative private person or business would necessarily incur in reasonable compliance with the proposed action: The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.
- E. Other nondiscretionary costs or savings including revenue changes imposed on State or Local Government: None.

Mandates on Local Agencies or School Districts

The Department has determined that the proposed regulations would not impose a mandate on local agen-

cies or school districts, nor are there any costs for which reimbursement is required by Part 7 (commencing with Section 17500) of Division 4 of the Government Code.

Significant Statewide Adverse Economic Impact Affecting Businesses

The Department has made an initial determination that the regulations will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

Results of the Economic Impact Assessment

Impact on Jobs and Businesses

The Department has determined that the regulations will not significantly affect the following:

- (1) The creation or elimination of jobs within the State of California.
- (2) The creation of new businesses or the elimination of existing businesses within the State of California.
- (3) The expansion of businesses currently doing business within the State of California.

The Medi-Cal program is a voluntary program for both service providers and beneficiaries. These regulations will affect only those dental providers that choose to participate in the Medi-Cal program and the beneficiaries who are offered these dental services through the program.

Benefits of the Proposed Regulation

Additionally, the Department has determined that the regulations will not affect worker safety or the state's environment. However, the regulations will benefit the health and welfare of California residents by maintaining the continuity of the Medi-Cal Program through the provision of comprehensive health care services at low cost for low-income individuals including families with children, seniors, persons with disabilities, children in foster care and pregnant women, including the delivery of dental services.

This regulatory action will benefit Medi-Cal dental providers by updating the MOC with the most current CDT codes, which in turn helps facilitate the delivery of these vital services to beneficiaries.

Effect on Small Businesses

The Department has determined that the regulations may affect small businesses since many Medi-Cal dental providers meet the criteria for a small business. Medi-Cal is a voluntary program for both providers and beneficiaries. Therefore, only those businesses that choose to be Medi-Cal providers for dental services would be affected by these regulations.

Effect on Housing Costs

The Department has made the determination that the regulations will have no impact on housing costs.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code Section 11346.5(a)(13), the Department must determine that no reasonable alternative considered by the Department or that has otherwise been identified and brought to the attention of the Department would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

ASSISTIVE SERVICES

For individuals with disabilities, the Department can provide assistive services such as the conversion of written materials into Braille, large print, audiocassette and computer disk. For public hearings, assistive services can include sign-language interpretation, real-time captioning, note takers, reading or writing assistance. To request these assistive services, please write or call: Harry Cockcroft, Office of Regulations, MS 0015, P.O. Note: The range of assistive services available may be limited if requests are received less than ten business days prior to a public hearing.

The Department shall provide, upon request from a person with a visual disability or other disability for which effective communication is required under state or federal law, a narrative description of the additions to, and deletions from, the California Code of Regulations or other publication in a manner that allows for accurate translation by reading software used by the visually impaired. AUTHORITY AND REFERENCE

Authority: California Health and Safety Code, Sections 128755 and 128810.
Reference: California Health and Safety Code, Sections 128700, 128735, 128736 and 128737.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Hospitals and freestanding ambulatory surgery clinics are required by law to file certain patient-level information with OSHPD at specified intervals. Health and Safety Code Section 128735 requires that each California licensed hospital file a Hospital Discharge Abstract Data Record with OSHPD for each patient discharged from the hospital. These records are sometimes referred to as the inpatient data. In addition, hospitals must file an Emergency Care Data Record for each encounter in a hospital emergency department (Health and Safety Code §128736) and hospitals and licensed freestanding ambulatory surgery clinics must file an Ambulatory Surgery Data Record for each patient encounter during which at least one ambulatory surgery procedure is performed (Health and Safety Code §128737). These two types of records are sometimes referred to as outpatient data.

For hospital inpatient data the statute mandates the use of coding from the ICD for both diagnoses and procedures; the outpatient data programs do not include a specific coding system mandate. Current program regulations specify that ICD coding must be used for diagnoses for all three types, inpatient and outpatient data programs, as well as for procedures for inpatient data. Coding of procedures in outpatient data uses Current Procedural Terminology, 4th Edition, (CPT-4) as the standard code set. No CPT-4 changes are proposed in this rulemaking.

Use of ICD coding for diagnoses and inpatient procedures is consistent with the coding requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). All California-licensed hospitals and licensed ambulatory surgery centers are HIPAA-covered entities. Therefore, the facilities are using the same coding system to report diagnosis and inpatient procedure data to OSHPD as they use (pursuant to federal mandate) for business purposes.

The federal HIPAA regulations have been amended (45 CFR §162.1002) to require that covered entities switch, as of October 1, 2014, from using ICD-9-CM to using a newer version of the International Classification of Diseases. The newer code set is known as ICD-10, and has two parts, ICD-10-CM and ICD-10-PCS. ICD-10 is being adopted because it has a higher level of detail and specificity.

OBJECTIVE AND ANTICIPATED BENEFIT OF THE PROPOSED REGULATION

The objective of this rulemaking is for OSHPD to adopt regulations so that facilities will use the ICD-10 code sets when reporting data to OSHPD on and after October 1, 2014.

The anticipated benefits of the proposed replacement of the ICD-9 code set with the ICD-10 code sets for reporting diagnosis and procedure data to OSHPD are administrative and financial. Facilities will begin to code diagnosis and procedure information using the ICD-10 code sets on October 1, 2014 for billing purposes; adoption of regulations to require the use of the ICD-10 code sets by OSHPD will therefore simplify the process of reporting diagnosis and procedure data to OSHPD. It will also avoid the staffing and computing costs that would otherwise be associated with maintaining dual code set reporting.

An additional benefit is anticipated because ICD-10 code sets allow a higher level of coding specificity which is anticipated to be beneficial to policy-makers, researchers and all data users.

Failure by OSHPD to adopt ICD-10 coding on October 1, 2014 would be burdensome and costly for facilities. These regulations will save money. Facilities will be prevented from having to divert staff resources to re-code diagnosis and procedure codes back to ICD-9 for OSHPD reporting; OSHPD would receive data that was incompatible with data sets using ICD-10 diagnosis and procedure data. This would cause patient-level data from OSHPD to be less useful to researchers, policy-makers and other data users.

DETERMINATION OF INCONSISTENCY/INCOMPATIBILITY WITH EXISTING STATE REGULATIONS

As required by Government Code Section 11346.5(a)(3)(D), the Office has evaluated the language contained in the proposed Sections 97212, 97215, 97225, 97226, 97227, 97228, 97229, 97244, 97248, 97258, 97259, 97260 and 97261 of Title 22, Division 7, Chapter 10, Article 8 of the California Code of Regulations (CCR). These amendments do not create conflicting rights, responsibilities, or obligations with

other regulations. Thus, based on review and analysis of existing state regulations, OSHPD is unaware of any inconsistencies or conflicts with existing regulations created by these proposed changes.

DISCLOSURES REGARDING THE
PROPOSED ACTION

OSHPD has made the following initial determinations:

FISCAL IMPACT ESTIMATES

LOCAL MANDATE AND COST TO ANY LOCAL
AGENCY OR SCHOOL DISTRICT

There are no mandates imposed by this regulation. Subdivision (a) of Article XIII B of the California Constitution states that when a state agency mandates a new program or higher level of service on any local government the state must provide subvention of funds to reimburse the local government.

In this case OSHPD is not mandating a new program, and is instead modifying an existing program by requiring a different set of diagnosis and procedure codes to be submitted to OSHPD. In addition, this regulation is not requiring a higher level of service from any local government, because the submission of these new diagnosis and procedure codes will not require additional work from any local agencies.

Furthermore, there are no costs to any Local Agency or School District which must be Reimbursed Pursuant to Government Code Sections 17500–17630 by the State (Cal. Gov't Code Section 11346.5(a)(5)). Instead, Local Agencies will save money because they will not be required to maintain and submit data to government agencies both in ICD–9 code sets and ICD–10 code sets.

COST OR SAVINGS TO ANY STATE AGENCY

There are no costs or savings to any state agency.

NON–DISCRETIONARY COST OR SAVINGS
IMPOSED ON LOCAL AGENCIES

There are no non–discretionary costs to any Local Agency or School District which must be Reimbursed

Pursuant to Government Code Sections (Cal. Gov't Code Section 11346.5(a)(5)).

COST OR SAVINGS IN FEDERAL FUNDING TO
THE STATE

These proposed regulations do not affect federal funding to the state. (Cal. Gov't Code Section 11346.5(a)(5)).

IMPACT ON HOUSING COSTS

Housing costs will not be impacted. (Cal. Gov't Code Section (11346.5(a)(12)).

SIGNIFICANT STATEWIDE ADVERSE
ECONOMIC IMPACT DIRECTLY AFFECTING
BUSINESS, INCLUDING ABILITY TO COMPETE

(Cal. Gov't Code Sections 11346.3a; 11346.5(a)(7); 11346.5(a)(8)): OSHPD has initially determined that the regulations would not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

COST IMPACT ON REPRESENTATIVE PRIVATE
PERSON OR BUSINESS

(Cal. Gov't Code Section 11346.5(a)(9)): OSHPD is not aware of any cost impacts, “that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.”

BUSINESS REPORT

(11346.5 (a)(11); 1134.3(d)): This regulation does not require a report to be made.

EFFECT ON SMALL BUSINESSES

OSHPD has made an initial determination that the proposed regulatory action would have no adverse economic impact directly affecting small businesses. Federal HIPAA regulations (45 CFR §162.1002) have already been amended to require that all covered entities switch, as of October 1, 2014, from using ICD–9–CM to using ICD–10–CM and ICD–10–PCS. These regulations will enable small business facilities that have already completed the conversion process to also use ICD–10 code sets to report diagnosis and procedure data to OSHPD.

RESULT OF THE ECONOMIC IMPACT ANALYSIS/ASSESSMENT

OSHPD concludes that the proposed regulatory action would have no adverse economic impact because federal HIPAA regulations (45 CFR §162.1002) have already been amended to require that all covered entities switch, as of October 1, 2014, from using ICD-9-CM to using ICD-10-CM and ICD-10-PCS. OSHPD adoption of regulations requiring the use of ICD-10 code sets for reporting to OSHPD would not significantly affect the following:

1. The creation or elimination of jobs within the State of California.
2. The creation of new businesses or the elimination of existing businesses within the State of California.
3. The expansion of businesses currently doing business within the State of California.

BENEFITS OF THE PROPOSED ACTION

These regulations will enable facilities that have already completed the ICD-10 conversion process to extend the use of the conversion to OSHPD reporting. OSHPD data will contain more-specific diagnostic and procedural information. These regulations will prevent the practical, administrative and cost burdens that would be associated with maintaining two concurrent ICD coding systems (9 and 10). These regulations will also benefit the health and welfare of California residents, worker safety, and the state's environment.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code Section 11346.5(a)(13) OSHPD must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

Failure of OSHPD to adopt these regulations would be burdensome to facilities, both administratively and from a cost perspective.

WRITTEN COMMENT PERIOD

OSHPD invites interested persons to present statements or arguments with respect to alternatives to the

proposed regulations during the written comment period, or at the public hearing if one is requested.

PROPOSITION 65

**OFFICE OF ENVIRONMENTAL
 HEALTH HAZARD ASSESSMENT**

**SAFE DRINKING WATER AND TOXIC
 ENFORCEMENT ACT OF 1986
 (Proposition 65)**

**NOTICE TO INTERESTED PARTIES
 September 27, 2013**

**CHEMICAL LISTED EFFECTIVE
 SEPTEMBER 27, 2013
 AS KNOWN TO THE STATE OF CALIFORNIA
 TO CAUSE CANCER:
 CHLORAMPHENICOL SODIUM SUCCINATE**

Effective **September 27, 2013**, the Office of Environmental Health Hazard Assessment (OEHHA) is adding *chloramphenicol sodium succinate* (CAS No. 982-57-0) to the list of chemicals known to the State to cause cancer for purposes of Proposition 65¹.

The listing of *chloramphenicol sodium succinate* is based on a formal requirement by a state or federal agency that the chemical be identified or labeled as causing cancer² as provided under the Act. *Chloramphenicol sodium succinate* has been identified or labeled to communicate a risk of cancer in accordance with formal requirements by the U.S. Food and Drug Administration. Regulations governing the listing of chemicals under the “formally required to be labeled or identified” mechanism are published in Title 27, California Code of Regulations, section 25902.

The documentation supporting OEHHA’s determination that the criteria for administrative listing have been satisfied for *chloramphenicol sodium succinate* is in-

cluded in the Notice of Intent to List A Chemical by the “Formally Required to Be Labeled or Identified” Mechanism: Chloramphenicol Sodium Succinate, published in the August 2, 2013 issue of the California Regulatory Notice Register (Register 2013, No 31-Z). No public comments were received.

A complete, updated chemical list is published elsewhere in this issue of the *California Regulatory Notice Register* and is available on the OEHHA website at www.oehha.ca.gov.

In summary, the following chemical is listed under Proposition 65 as known to the State to cause cancer:

 REPRODUCTIVE TOXICITY
 SEPTEMBER 27, 2013**

The Safe Drinking Water and Toxic Enforcement Act of 1986 requires that the Governor revise and republish at least once per year the list of chemicals known to the State to cause cancer or reproductive toxicity. The identification number indicated in the following list is the Chemical Abstracts Service (CAS) Registry Number. No CAS number is given when several substances are presented as a single listing. The date refers to the initial appearance of the chemical on the list. For easy reference, chemicals which are shown underlined are newly added. Chemicals which are shown with a strikethrough were placed on the list with the date noted, and have subsequently been removed.

³Listing Mechanism:

FR — “formally required to be labelled or identified” mechanism (Health and Safety Code section 25249.8(b) and Title 27 Cal. Code of Regs., section 25902).

¹ The Safe Drinking Water and Toxic Enforcement Act of 1986, Health and Safety Code section 25249.5 et seq.
