## IV. ACCESS TO HEARING ROOM

The hearing room will be accessible to persons with mobility impairments, and it can be made accessible to persons with hearing or vision impairments upon advance request to the Regulation Coordinator.

## V. AUTHORITY AND REFERENCE

The Board has general authority to take regulatory action under GC §§ 22750, 22751, 22775, 22794, 22796, 22797, and 22818. The Board has specific authority to amend § 599.500, subdivision (o). Reference citation: California Government Code §§ 22775 and 22796.

## VI. INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

During the amnesty period of the CalPERS Dependent Eligibility Verification (DEV) project (the purpose of which is to verify enrollment eligibility of more than 738,000 health dependents in the program), subscribers were allowed to voluntarily remove dependents from their coverage before their verification cycles began. Out of the amnesty disenrollments, Parent-Child Relationship (PCR) dependents accounted for more than 50% of the total population. Since the project's inception and to date, the overall number of PCR dependent disenrollment has decreased by more than half. Staff attributes this reduction to the subscriber's inability to validate his/her "assumption of parental status or duties" through supporting documentation.

CalPERS provides health care benefits to State and contracting agency employees, annuitants, and eligible family members under the Public Employees' Medical and Hospital Care Act (PEMHCA) in GC § 22750 et seq. Pursuant to Section 22775, a family member includes a natural, step and adopted child. PEMHCA regulations allow the definition of a family member to also include a child for whom the subscriber has assumed a parental role, labeled as a PCR dependent. Under GC § 22775, the definition of "family member" specifically allows the Board to "prescribe age limits and other conditions and limitations pertaining to children."

Current PEMHCA regulations do not clearly specify the types of documentation required to certify the existence of the parental role within a PCR. Subscribers are required to submit a signed Affidavit of Parent-Child Relationship form (HBD 40, rev. 6/13) at the time of enrollment and annually thereafter (up to the child reaching age 26). By signing this form, the subscriber agrees to "provide supporting documentation such as, but not limited to, court records, birth certificate, tax returns, statement of financial liability, or any other documents, when requested by my employer or CalPERS." But Health Benefit Officers (HBOs) at each of CalPERS 1,200+ contracting agencies and State departments do not have the clear guidance through regulations for accepting or denying the dependent's eligibility for health benefits aside from the HBD 40.

The form HBD 40 also requires the member to sign under penalty of perjury that the member has *either*: assumed a primary custodial role, is considered the parent, or has assumed responsibility for providing essential needs for the child, among other *optional* criteria. The member is required to sign and submit this form annually upon the arrival of his or her birthday. For consistency purposes, CalPERS will modify this portion of the form to reflect the regulatory text and state that the supporting documentation named above will be re-

quired upon enrollment and recertification. This language will replace the optional eligibility criteria currently listed.

CalPERS will continue to use the HBD 40 in its current state to allow appropriate time for adjustment and preparation for the changes. Members and employers will be given ample notification before these changes are enforced.

The specific benefits anticipated by the proposed amendments are nonmonetary. However, amending CCR § 599.500, subdivision (o), would increase productivity and efficiency in the workplace by streamlining the enrollment processes among all State and contracting agency employers, by implementing clear-cut enrollment eligibility criteria for CalPERS health plan subscribers.

CalPERS has performed an evaluation of whether there are any other regulations related to this area and has concluded that these are the only regulations dealing with the enrollment eligibility criteria of parent-child relationships. Therefore, the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

#### VII. EFFECT ON SMALL BUSINESS

The proposed regulatory action does not affect small business because it applies only to CalPERS health plan subscribers.

#### VIII. DISCLOSURES REGARDING THE PROPOSED REGULATORY ACTION/RESULTS OF THE ECONOMIC ANALYSIS/ASSESSMENT

#### INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Welfare and Institutions Code (WIC) section 5325 et al. establishes the legal and civil rights of persons involuntarily detained pursuant to the Lanterman–Petris–Short (LPS) Act (WIC 5000–5550). California Code of Regulations, Title 9, Division 1, Chapter 4, Article 6, Section 864 describes the complaint procedures for local mental health facilities and does not apply to the California Department of State Hospitals. This regulatory action will add Section 864.1 to provide the specific provisions for the patient complaint and appeal procedures for individuals admitted to a state hospital under the LPS Act. Amendments to Title 9, Section 885 will provide individuals admitted to a state hospital under statutes other than LPS with the same complaint and appeal procedures.

##### Effect of the Proposed Rulemaking

This action describes specific roles, responsibilities and timelines for patients, state hospital staff and the Patients’ Rights Advocate related to the review and resolution of patients’ rights complaints and appeals for all state hospital patients. This rulemaking action will eliminate confusion with current regulations and facilitate the correction of potential patient rights violations.

##### Comparable Federal Regulations or Statutes

The Department of State Hospitals has conducted an evaluation for comparable federal regulations or statutes and has determined this regulatory action is consistent with the provisions of the 42 U.S. Code § 9501 — Bill of Rights for mental health patients and the Federal Constitution.

##### Benefits Anticipated from the Proposed Action

- The proposed actions will eliminate confusion for patients, patient advocates and state hospital staff in interpreting and applying the current regulations.
- The proposed actions will provide additional health, safety and security for the patients and staff at the state hospitals through the timely review and resolution of potential patient rights violations.

##### Consistency Evaluation

During the process of developing this regulation amendment, the Department has conducted a search of any similar regulation on this topic and has concluded that these regulations are neither inconsistent nor incompatible with existing state regulations.

##### DOCUMENT OR FORMS INCORPORATED BY REFERENCE

None.

#### THE DEPARTMENT OF STATE HOSPITALS HAS MADE THE FOLLOWING INITIAL DETERMINATIONS

##### Mandated by Federal Law or Regulations

42 U.S. Code § 9501 — Bill of Rights provides recommendations for states to ensure that mental health patients receive the protection and services they require. This is a permissive regulation and not a mandate.

##### Mandates on Local Agencies or School Districts

The Department has determined that this regulation will not impose a mandate on local agencies or school districts.

##### Mandate Requires State Reimbursement Pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code

The Department has determined that this regulation will not impose a mandate on local agencies or school districts and therefore no state reimbursement is required.

##### Fiscal Impact

Costs to Any Local Agency or School District that Requires Reimbursement Pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code: The Department has determined that this regulation will not impose costs to any local agency or school district that require reimbursement.

Costs or Savings to Any State Agency: The Department anticipates there will be no fiscal impact to any State agencies.

Non-discretionary Costs or Savings Imposed on Local Agencies: The Department anticipates there will be no fiscal impact to local agencies.

Costs or Savings in Federal Funding to the State: The Department anticipates there will be no fiscal impact in federal funding to the State.

Significant Effect on Housing Costs

The Department anticipates there will be no impact on housing costs.

Significant, Statewide Adverse Economic Impact Affecting Businesses, Including Ability to Compete

The Department has initially determined that the proposed regulation will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

Costs or Savings to Individuals or Businesses

The Department is not aware of any cost impacts that an individual or business would necessarily incur in reasonable compliance with the proposed action.

STATEMENT OF THE RESULTS OF THE ECONOMIC IMPACT ASSESSMENT

Adoption of these regulations will not:

- create or eliminate total jobs within California;
- create new businesses or eliminate existing businesses within California; or
- affect the expansion of businesses currently doing business in California.

Benefits

These regulations allow the Department to provide additional clarification to state hospital staff, patients, and patient advocates on the patients’ rights complaint and appeal procedures. This rulemaking action will also facilitate the resolution of potential patients’ rights violations, including abuse and punitively withholding or unreasonably denying patients their rights. Finally, this regulatory proposal furthers the goal of the Department which is to promote fairness to patients while maintaining standards for a healthy and safe environment, and responsible stewardship.

Cost Impacts on a Representative Person or Business

The Department is not aware of any cost impacts that a representative person or business would necessarily incur in reasonable compliance with the proposed action.

Business Report

This regulation does not require a business report to be made.

Small Business Determination

The Department is not aware of any impact this proposed action will have on small businesses, because this regulatory action serves to clarify/update the patients’

right complaint and appeal procedures within the state hospitals.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Department must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

DSH invites interested persons to present statements or arguments with respect to alternatives to the proposed regulation amendment at the scheduled hearing or during the written comment period.

However, the Board will hold a hearing if it receives a written request for a public hearing from any interested person, or his or her authorized representative, no later than 15 days before the close of the written comment period. Written or facsimile comments submitted during the prescribed comment period have the same significance and influence as oral comments presented at a public hearing.

If one were to be scheduled, the purpose of a public hearing would be to receive oral comments about the proposed regulations. It would not be a forum to debate the proposed regulations, and no decision regarding the permanent adoption of the proposed regulations would be rendered at a public hearing. The members of the Board would not be present at a public hearing.

#### INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The Board proposes to amend California Code of Regulations, Title 15, Section 2275, which governs California Penal Code section 3000.1 proceedings. This action is necessary to implement, interpret, and comply with the Chelsea King Child Predator Prevention Act of 2010 (Assembly Bill 1844 (approved by Governor, September 9, 2010 (2009-2010 Reg. Sess.))) (hereafter Chelsea's Law). This action is also necessary to implement, interpret and comply with reforms to California's parole system, legislation collectively referred to as "Criminal Justice Realignment" (Assembly Bill 109 (approved by Governor, April 4, 2011 (2011-2012 Reg. Sess.)), as modified by Assembly Bill 117 (approved by Governor, June 30, 2011 (2011-2012 Reg. Sess.)), Assembly Bill 116 (approved by Governor, July 27, 2011 (2011-2012 Reg. Sess.)), Assembly Bill 17X (approved by Governor, September 20, 2011

(2011–2012 1st Ex. Sess.), and Senate Bill 1023 (approved by Governor, June 27, 2012 (2011–2012 Reg. Sess.)).

As a result of the above changes effected by Chelsea’s Law and Criminal Justice Realignment, California Code of Regulations, Title 15, Section 2275, the Board’s regulation for the implementation of Penal Code section 3000.1 proceedings, now conflicts with statutory law. Specifically, current laws for parole consideration hearings describe the process through which a panel consisting of a Board commissioner and deputy commissioner provide a hearing to consider the release of an inmate whose parole, for first–degree or second–degree murder only, had been revoked. Under Criminal Justice Realignment, Penal Code section 3000.08 removed the Board’s authority to conduct parole revocation proceedings and Chelsea’s law expanded the category of inmates subject to Board proceedings upon adjudication of a new crime or violation of a condition of parole. Moreover, Penal Code sections 3000(b)(4)(C) and 3000.1(d) provide different standards and procedures for hearings depending upon whether the Board of Parole Hearings is conducting an initial Penal Code 3000.1 proceeding following a court’s determination of a parole violation or new crime, or an annual parole consideration hearing after the offender was returned to prison. Section 2275 must be updated to clarify these issues and reflect the Board’s implementation of these changes.

These proposed regulations will clarify the Board’s new role in Penal Code section 3000.1 proceedings, the composition of a hearing panel, and the three statutory categories of crimes for which an offender on parole could be subject to “Penal Code section 3000.1 proceedings.” The proposed regulations also clarify the requirement for a lawful determination that the parolee violated a law or condition of parole before the matter is remanded to the Board for an initial Penal Code section 3000.1 hearing, and clarify that such a determination will be considered an interruption in parole for purposes of parole discharge. Additionally, the proposed regulations describe scheduling timelines for Penal Code section 3000.1 initial and annual hearings and clarify notice to stakeholders, parolee’s rights, and the application of decision review and Governor’s review to those hearings.

ANTICIPATED BENEFITS OF THE PROPOSED REGULATIONS

These proposed regulations will promote both inmate rehabilitation and better protection of public safety. Additionally, the regulations increase protections to both victims and inmates.

DETERMINATION OF INCONSISTENCY/INCOMPATIBILITY WITH EXISTING STATE REGULATIONS

The Board has determined that this proposed regulation is not inconsistent or incompatible with existing regulations. After conducting a review for any regulations that would relate to or affect this area, the Board has concluded that these are the only regulations that concern the Board’s role and requirements in conducting Penal Code 3000.1 proceedings.

DISCLOSURES REGARDING THE PROPOSED ACTION

**Local Mandates:** The Board has determined that the proposed action imposes no mandate upon local agencies or school districts.

**Fiscal Impact Statement:** The Board has made the following initial determinations:

- Cost to any local agency or school district which must be reimbursed in accordance with Government Code §§ 17500 through 17630: **None.**
- Cost or savings to any state agency: **None.**
- Other non–discretionary cost or savings imposed on local agencies: **None.**
- Cost or savings in federal funding to the state: **None.**

**Significant Statewide Adverse Economic Impact on Business:** The Board has determined that there is no significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

**Cost Impacts on Representative Private Persons or Businesses:** The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

**Assessment of Effects on Job and/or Business Creation, Elimination or Expansion:** The Board has determined that adoption of this regulation will not (1) create or eliminate jobs within California; (2) create new businesses or eliminate existing business within California; or (3) affect the expansion of businesses currently doing business within California.

**Effect on Housing Costs:** The Board has made an initial determination that the proposed action will have no significant effect on housing costs.

**Small Business Determination:** The Board has determined that the proposed regulation does not have a significant adverse economic impact on small business because small businesses are not affected by the internal management of State prisons.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS/ASSESSMENT

The Board concludes that it is (1) unlikely that the proposed regulations will create or eliminate any jobs in California, (2) unlikely that the proposed regulations will create any new business or eliminate any existing businesses, and (3) unlikely that the proposed regulations will result in the expansion of businesses currently doing business within the state.

**Anticipated Benefits to the health and welfare of California residents, worker safety, and the state's environment:** As further explained in the Economic Impact Analysis, contained within the Initial Statement of Reasons, these proposed regulations will promote both inmate rehabilitation and better protection of public safety. Additionally, the regulations increase protections to both victims and inmates.

CONSIDERATION OF ALTERNATIVES

The Board must determine that no reasonable alternative it considered, or that has otherwise been identified and brought to its attention, would be more effective in carrying out the purpose for which the action is proposed, or would be as effective and less burdensome to affected private persons, than the proposed regulatory action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law. Interested parties are accordingly invited to present statements or arguments with respect to any alternatives to the proposed changes during the public comment period.

AVAILABILITY OF PROPOSED TEXT

The Board will make the rulemaking file available to the public throughout the rulemaking process at its offices located at 1515 K Street, Suite 600, Sacramento, California. As of the date this Notice is published in the Office of Administrative Law's Notice Register, the rulemaking file consists of this Notice, Form 400 (Notice of Submission of Regulation), the Proposed Text of the Regulation and Initial Statement of Reasons. AVAILABILITY OF CHANGES TO PROPOSED TEXT

After considering all timely and relevant comments received, the Board may adopt the proposed regulations

substantially as described in this Notice. If the Board makes modifications which are sufficiently related to the originally proposed text, it will make the modified text (with the changes clearly indicated) available to the public for at least 15 days before the Board adopts the regulations as revised. If the Board makes modifications, the Board will accept written comments on the modified regulations for 15 days after the date on which they are made available.

AVAILABILITY OF THE FINAL STATEMENT OF REASONS

Upon its completion, copies of the Final Statement of Reasons may be obtained from the Board's Contact Person identified in this Notice or by visiting the Board's website at: [http://www.cdcr.ca.gov/BOPH/reg\\_revisions.html](http://www.cdcr.ca.gov/BOPH/reg_revisions.html).

**GENERAL PUBLIC INTEREST**

**DEPARTMENT OF FISH AND WILDLIFE**

**PROPOSED RESEARCH ON FULLY PROTECTED SPECIES**

**Monitoring and Research on California Clapper Rail**

The Department of Fish and Wildlife (Department) received a proposal on February 18, 2014 from Mr. Matthew S. Ricketts, LSA Associates, El Cerrito, California, requesting authorization to take California clapper rail (*Rallus longirostris obsoletus*) ('rail'), for scientific research purposes, consistent with conservation and recovery of the species. The rail is a Fully Protected bird, and is also listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act.

Mr. Ricketts is planning to conduct surveys throughout the range of the rail in California, in accordance with a standard protocol approved by the Department and the U.S. Fish and Wildlife Service (Service). The proposed research activities consist of searching for vocalizing individuals of the rail, and employing broadcasts of recorded, species-specific vocalizations to determine distribution and status of local populations. Mr. Ricketts and any others deemed qualified for this purpose would collect data by interpreting calls received

from marsh birds responding to the tape and by observing individual rails. There would be no attempt to capture individual rails or to approach nests of the rail, unless specifically approved by the Department. Rail carcasses and unviable eggs will be salvaged and donated to a scientific institution open to the public, as designated by the Department and the Service. No adverse effects on individual rails or rail populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Mr. Ricketts as the Principal Investigator, to carry out the proposed activities. The applicants are also required to have a valid federal recovery permit for the rail, and a scientific collecting permit (SCP) to incidentally take other bird species in California.

Pursuant to California Fish and Game Code (FGC) Section 3511(a)(1), the Department may authorize take of Fully Protected bird species after 30 days' notice has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 3511 for take of Fully Protected birds, it would issue the authorization on or after December 8, 2014, for an initial and renewable term of up to, but not to exceed four years. ### PROPOSED RESEARCH ON FULLY PROTECTED SPECIES

Monitoring and Research on California Clapper Rail and California Black Rail

The Department of Fish and Wildlife (Department) received a proposal on September 22, 2014 from Mr. Daniel Edelstein, independent contractor, Novato, California, requesting authorization to take California clapper rail (*Rallus longirostris obsoletus*; 'clapper rail') and California black rail (*Laterallus jamaicensis coturniculus*; 'black rail') ('rails'), Fully Protected birds, for scientific research purposes, consistent with conservation and recovery of the species. The clapper rail is listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act, and the black rail is listed as Threatened under the California Endangered Species Act.

Mr. Edelstein is planning to conduct surveys throughout the range of each species in California, in accor-

dance with a standard protocol approved by the Department and the U.S. Fish and Wildlife Service (Service). The proposed research activities consist of searching for vocalizing individuals of the rails, and employing broadcasts of recorded, species-specific vocalizations to determine distribution and status of local populations. Mr. Edelstein and any others deemed qualified for this purpose would collect data by interpreting calls received from marsh birds responding to the tape and by observing individual rails. There would be no attempt to capture individual rails or to approach nests of the rails, unless specifically approved by the Department. If any rails are found dead, they will be salvaged and donated to a scientific institution open to the public, as designated by the Department and the Service. No adverse effects on individual rails or rail populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Mr. Edelstein as the Principal Investigator, to carry out the proposed activities. The applicants are also required to have a valid federal recovery permit for the clapper rail, and a scientific collecting permit (SCP) to incidentally take other bird species in California.

Pursuant to California Fish and Game Code (FGC) Section 3511(a)(1), the Department may authorize take of Fully Protected bird species after 30 days' notice has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 3511 for take of Fully Protected birds, it would issue the authorization on or after December 8, 2014, for an initial and renewable term of four years. ### PROPOSED RESEARCH ON FULLY PROTECTED SPECIES

Monitoring and Research on California Clapper Rail and California Black Rail

The Department of Fish and Wildlife (Department) received a proposal on May 28, 2013 from Mr. Leonard Y. Liu, independent contractor, Oakland, California, requesting authorization to take California clapper rail (*Rallus longirostris obsoletus*; 'clapper rail') and California black rail (*Laterallus jamaicensis coturniculus*; 'black rail') ('rails'), Fully Protected birds, for

scientific research purposes, consistent with conservation and recovery of the species. The clapper rail is listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act, and the black rail is listed as Threatened under the California Endangered Species Act.

Mr. Liu is planning to conduct surveys throughout the range of each species in California, in accordance with a standard protocol approved by the Department and the U.S. Fish and Wildlife Service (Service). The proposed research activities consist of searching for vocalizing individuals of the rails, and employing broadcasts of recorded, species-specific vocalizations to determine distribution and status of local populations. Mr. Liu and any others deemed qualified for this purpose would collect data by interpreting calls received from marsh birds responding to the tape and by observing individual rails. There would be no attempt to capture individual rails or to approach nests of the rails, unless specifically approved by the Department. Nest monitoring of black rails may be authorized under special conditions. If any rails are found dead, they will be salvaged and donated to a scientific institution open to the public, as designated by the Department and the Service. No adverse effects on individual rails or rail populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Mr. Liu as the Principal Investigator, to carry out the proposed activities. The applicants are also required to have a valid federal recovery permit for the clapper rail, and a scientific collecting permit (SCP) to incidentally take other bird species in California.

Pursuant to California Fish and Game Code (FGC) Section 3511(a)(1), the Department may authorize take of Fully Protected bird species after 30 days' notice has been provided to affected and interested parties through publication of this notice. **PROPOSITION 65**

**OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT**

**SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65)**

**NOTICE OF INTENT TO LIST A CHEMICAL BY THE "FORMALLY REQUIRED TO BE LABELED OR IDENTIFIED" MECHANISM: MITOXANTRONE HYDROCHLORIDE**

The California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA) intends to list mitoxantrone hydrochloride as known to the State to cause cancer under the Safe Drinking Water and Toxic Enforcement Act of 1986<sup>1</sup>. This action is being proposed under the "Formally Required to Be Labeled or Identified" listing mechanism<sup>2</sup>.

Chemical	CAS No.	Toxicological Endpoints	Reference
Mitoxantrone hydrochloride*	70476-82-3	Cancer	FDA (2012)

\*Note: This chemical has been listed under Proposition 65 as causing reproductive toxicity (developmental endpoint) since July 1, 1990.

<sup>1</sup> Commonly known as Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 is codified in Health and Safety Code section 25249.5 *et seq.*

<sup>2</sup> See Health and Safety Code section 25249.8(b) and Title 27, Cal. Code of Regs., section 25902.

**Background on listing via the formally required to be labeled or identified mechanism:** A chemical must be listed under Proposition 65<sup>3</sup> and its implementing regulations (Section 25902<sup>4</sup>) when a state or federal agency has formally required it to be labeled or identified as causing cancer or reproductive toxicity.

OEHHA is the lead agency for Proposition 65 implementation, and evaluates whether listing under Proposition 65 is required pursuant to the definitions set out in Section 25902. According to Section 25902(b):

- “[F]ormally required’ means that a mandatory instruction, order, condition, or similar command, has been issued in accordance with established policies and procedures of an agency of the state or federal government to a person or legal entity outside of the agency. The action of such agency may be directed at one or more persons or legal entities and may include formal requirements of general application;”
- “[L]abeled’ means that a warning message about the carcinogenicity or reproductive toxicity of a chemical is printed, stamped, written, or in any other manner placed upon the container in which the chemical is present or its outer or inner packaging including any material inserted with, attached to, or otherwise accompanying such a chemical;”
- “[I]dentified’ means that a required message about the carcinogenicity or reproductive toxicity of the chemical is to be disclosed in any manner to a person or legal entity other than the person or legal entity who is required to make such disclosure”; and
- “As causing cancer” means: “For chemicals that cause cancer, the required label or identification uses any words or phrases intended to communicate a risk of cancer or tumors.”

**OEHHA’s determination:** *Mitoxantrone hydrochloride* has been identified and labeled to communicate a risk of cancer (FDA, 2012) in accordance with formal requirements by the US Food and Drug Administration (FDA). The FDA–approved label indicates that *mitoxantrone hydrochloride* therapy in patients with multiple sclerosis and in patients with cancer increases the risk of developing secondary acute myeloid leukemia (a type of cancer of the lymphohematopoietic system). NOVANTRONE® is a trade name of mitoxantrone hydrochloride.

Language from the FDA–approved product label which meets the requirements of Section 25902 is quoted below:

<sup>3</sup> See Health and Safety Code section 25249.8(b).

**Request for comments:** OEHHA is requesting comments as to whether this chemical meets the criteria set forth in the Proposition 65 regulations for listings via the formally required to be labeled or identified mechanism (Section 25902). Because these are ministerial listings, comments should be limited to whether FDA requires that *mitoxantrone hydrochloride* be labeled to communicate a risk of cancer or tumors. OEHHA cannot consider scientific arguments concerning the weight or quality of the evidence considered by FDA when it established the labeling requirement and will not respond to such comments if they are submitted.

In order to be considered, **OEHHA must receive comments by 5:00 p.m. on December 8, 2014.** We encourage you to submit comments in electronic form, rather than in paper form. Comments transmitted by e-mail should be addressed to [P65Public.Comments@oehha.ca.gov](mailto:P65Public.Comments@oehha.ca.gov). Please include “mitoxantrone hydrochloride” in the subject line. **NOVEMBER 7, 2014**

The California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA) is the lead agency for the implementation of Proposition 65<sup>1</sup>. The Carcinogen Identification Committee (CIC) of OEHHA's Science Advisory Board serves as the state's qualified experts and renders an opinion about whether a chemical has been clearly shown to cause cancer. The chemicals identified by the CIC are added to the Proposition 65 list.

*Diaminotoluene (mixed)* was added to the Proposition 65 list of chemicals known to the state to cause cancer on January 1, 1990, under the authoritative bodies provision of Proposition 65.<sup>2</sup> It was formally identified

<sup>1</sup> Safe Drinking Water and Toxic Enforcement Act of 1986, Health and Safety Code section 25249.5 *et seq.*

<sup>2</sup> Title 27, Cal. Code of Regs., section 25306.

by the US Environmental Protection Agency (US EPA) as causing cancer (US EPA, 1988<sup>3</sup>).

OEHHA received a petition from Big Lots Stores, Inc. for reconsideration of listing for *diaminotoluene (mixed)* on October 21, 2014. While the US EPA (1988) basis document indicates that the hazard ranking of diaminotoluene (mixed) "is applicable to all isomers of diaminotoluene", and that the "evidence on potential carcinogenicity from animal studies is "sufficient", the US EPA document also indicates that "this evidence is based on the carcinogenic properties of the isomer 2,4-diaminotoluene". No other information on the mixture or individual isomers is included in the US EPA document.

In order to clarify the scope of the listing, OEHHA is referring diaminotoluene (mixed) to the CIC for a determination as to whether the chemical should continue to be included on the list of chemicals known to the state to cause cancer pursuant to Title 27, Cal. Code of Regs., section 25306 (j).

At a future meeting, the committee will consider the available scientific evidence on the chemical group diaminotoluene (mixed) as well as on the individual isomers in that group, and make a determination on whether diaminotoluenes as a group, the mixtures or any of five individual isomers named in the table below should be listed under Proposition 65. 2,4-Diaminotoluene will not be re-considered, as it was individually added to the list by the Science Advisory Panel (the predecessor entity to the CIC) on January 1, 1988.

In preparation for the review by the CIC, OEHHA is initiating the development of hazard identification materials on the chemicals in the table below.

The publication of this notice marks the start of a 45-day data call-in period, ending on Monday, December 22, 2014. The information received during this period will be reviewed and considered by OEHHA as it prepares the cancer hazard identification materials on these chemicals.

Hazard identification materials are made available to the public for comment prior to the CIC’s consideration of the chemical for possible listing. Their availability for comment will be announced in the *California Regulatory Notice Register* and on OEHHA’s website. Public comments received on these materials are sent to the CIC for its consideration prior to the CIC meeting at which the chemicals will be considered for listing. The time, date, location, and agenda of the CIC meeting will also be published in the *California Regulatory Notice Register* and posted on OEHHA’s website.

Mr. Mitchell:

NOTICE OF DECISION ON PETITION TO AMEND REGULATIONS

Pursuant to Government Code 11340.7, this letter acknowledges receipt of your petition dated September 26, 2014, and received in our office on October 3, 2014.

Summary of Petition: You request that the Department amend section 3044, subsection (f) of the California Code of Regulations, Title 15, Division 3. You state the section is “arbitrary, capricious, and constitutionally vague” in that it does not indicate criteria that would allow a classification committee to retain an inmate in Privilege Group C beyond thirty days, does not indicate criteria that an inmate must meet to be removed from this privilege group, and does not specify a length of time for which an inmate may be retained in this privilege group beyond thirty days. You contend that inmates placed in Privilege Group C “for periods in excess of 180 days” are subject to enforcement of an underground regulation.

You ask that the section be amended to state that an inmate who submits a request to be removed from Privilege Group C shall be scheduled for a hearing within thirty days of receipt of the request, and shall be removed from Privilege Group C as of the date of the hearing. Alternatively, you suggest the regulation set forth specific criteria which outlines the steps an inmate must take to be removed from the privilege group, and state a determinate amount of time an inmate shall remain in the privilege group.

Department Decision: The Department denies the petition to amend section 3044, subsection (f) in whole. Subsections 3044(f)(1)(A) through (C) establish clear criteria for the placement of an inmate into Privilege Group C: refusal to accept or perform a work assignment, or being deemed a program failure as defined in section 3000; being placed into the privilege group temporarily by a hearing official as a disposition pursuant to section 3314 (Administrative Rules Violations) or 3315 (Serious Rules Violations); or being placed into the privilege group by a classification committee action pursuant to section 3375. Inmates placed into Privilege Group C by a classification committee may apply to be removed from the privilege group after 30 days.

An inmate may be removed from Privilege Group C status once he/she accepts and performs the work assignment, ceases to be in program failure status, completes the temporary assignment to the privilege group resulting from a disciplinary hearing, or is removed from the privilege group by a classification committee.

An inmate who continues to refuse to accept or perform a work assignment or who remains in program failure status as defined in section 3000 may remain in Privilege Group C indefinitely.

The aforementioned section was properly adopted pursuant to the Administrative Procedure Act (APA) and therefore not an “underground” regulation. The regulation met all standards required by the APA including clarity.

An inmate in Privilege Group C remains entitled to request a review of his/her status thirty days after the classification committee hearing.

Authority: Under authority established in Penal Code section 5058 the Secretary may prescribe and amend regulations for the administration of prisons and for the administration of the parole of persons.

Please direct inquiries regarding this action to Timothy M. Lockwood, Chief, Regulation and Policy Management Branch, Department of Corrections and Rehabilitation, P.O. Box 942883, Sacramento, CA 94283-0001, or telephone (916) 445-2269. A copy of this notice and your petition shall be transmitted to the Office of Administrative Law for publication in the California Regulatory Notice Register as soon as practicable. A copy of the petition is available to any interested person upon request directed to the Department’s contact person.

DECISION SUMMARY

On September 8, 2014, the California Department of Managed Health Care (Department) submitted to the Office of Administrative Law (OAL) this rulemaking action which concerns regulatory provisions for health plan cancellations, rescissions, and non-renewals of coverage. The action proposed to codify a Department Guidance document on this subject which was exempt from the Administrative Procedure Act (APA) through 2013. The action also proposed regulatory provisions governing notice requirements for cancellations and non-renewals of coverage and for retroactive rescissions of coverage for fraud, as well as provisions concerning consumers' rights to initiate Requests for Review of coverage terminations and regarding grace periods and reinstatements, among other provisions.

OAL disapproved the proposed regulations for the Department's failure to comply with the necessity and clarity standards and with various procedural requirements of the APA, pursuant to Government Code sections 11349, 11349.1, 11346.2, 11347.1, 11347.3, 11346.5, and 11346.3 and certain regulations that implement those statutes.

CONCLUSION

For the foregoing reasons, OAL disapproved the above-referenced rulemaking action. All items listed above shall be corrected in any resubmission of this rulemaking action to OAL. Pursuant to Government Code section 11349.4(a), the Department may resubmit revised regulations within 120 days of its receipt of this Decision of Disapproval. The Department shall make all substantial regulatory text changes, which are sufficiently related to the original text, and all additional documents relied upon, as well as its addendum to the ISR, available for at least 15 days for public comment pursuant to Government Code sections 11346.8 and 11347.1, respectively. The OAS reserves the right to re-

view the Department's resubmitted regulations and rulemaking record for compliance with all substantive and procedural requirements of the APA.
