EDITORIAL CORRECTION

In Table of Contents under “PROPOSED ACTION ON REGULATIONS” for the November 29, 2013 California Regulatory Notice Register 2013, 48–Z, there was an incorrect subject description for the Title 16 Board of Pharmacy notice (OAL Notice File No. Z2013–1119–07). The correct description of this notice should be “Compounding Drug Products,” not “Pedigree Requirements.” We regret the error.

The *California Regulatory Notice Register* is an official state publication of the Office of Administrative Law containing notices of proposed regulatory actions by state regulatory agencies to adopt, amend or repeal regulations contained in the California Code of Regulations. The effective period of a notice of proposed regulatory action by a state agency in the *California Regulatory Notice Register* shall not exceed one year [Government Code § 11346.4(b)]. It is suggested, therefore, that issues of the *California Regulatory Notice Register* be retained for a minimum of 18 months.

PROPOSED ACTION ON REGULATIONS

Information contained in this document is published as received from agencies and is not edited by Thomson Reuters.

TITLE 3. DEPARTMENT OF FOOD AND AGRICULTURE

The Department of Food and Agriculture amended subsection 3589(a) of the regulations in Title 3 of the California Code of Regulations pertaining to the Japanese Beetle Eradication Area as an emergency action that was effective on September 6, 2013. The Department proposes to continue the regulation as amended and to complete the amendment process by submission of a Certificate of Compliance no later than March 5, 2014.

This notice is being provided to be in compliance with Government Code Section 11346.4.

PUBLIC HEARING

A public hearing is not scheduled. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period.

WRITTEN COMMENT PERIOD

Any interested person or his or her authorized representative may submit written comments relevant to the proposed amendment to the Department. Comments may be submitted by mail, facsimile (FAX) at 916.654.1018 or by email to sbrown@cdfa.ca.gov. The written comment period closes at 5:00 p.m. on January 27, 2014. The Department will consider only comments received at the Department offices by that time. Submit comments to:

Following the public hearing if one is requested, or following the written comment period if no public hearing is requested, the Department of Food and Agriculture, at its own motion, or at the instance of any interested person, may adopt the proposal substantially as set forth without further notice.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this state and determine the probability of its spread, and the feasibility of its control or eradication (FAC Section 5321).

Existing law also provides that the Secretary may establish, maintain, and enforce quarantine, eradication, and other such regulations as he deems necessary to protect the agricultural industry from the introduction and spread of pests (Food and Agricultural Code, Sections 401, 403, 407 and 5322). Existing law also provides that eradication regulations may proclaim any portion of the State as an eradication area and set forth the boundaries, the pest, its hosts, and the methods to be used to eradicate said pest (Food and Agricultural Code Section 5761).

Section 3589, subsection (a), was amended and established El Dorado County as an eradication area for Japanese beetle, *Popillia japonica*. The effect of this action was to establish authority for the State to conduct eradication activities in El Dorado County. There is no existing, comparable federal regulation or statute.

Anticipated Benefits from This Regulatory Action

Existing law, FAC section 403, provides that the department shall prevent the introduction and spread of injurious insect or animal pests, plant diseases, and noxious weeds.

Existing law, FAC section 407, provides that the Secretary may adopt such regulations as are reasonably necessary to carry out the provisions of this code which she is directed or authorized to administer or enforce.

Existing law, FAC section 5321, provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this State and determine the probability of its spread, and the feasibility of its control or eradication.

Existing law, FAC section 5322, provides that the Secretary may establish, maintain, and enforce quarantine, eradication, and such other regulations as are in her opinion necessary to circumscribe and exterminate or prevent the spread of any pest which is described in FAC section 5321.

The existing law obligates the Secretary to investigate and determine the feasibility of controlling or eradicating pests of limited distribution but establishes

discretion with regard to the establishment and maintenance of regulations to achieve this goal. The amendment of this regulation benefits the agricultural industry (which includes native and ornamental plants) by having an eradication program to prevent the artificial spread of the Japanese beetle over short and long distances.

This amendment provides the necessary regulatory authority to prevent the artificial spread of a serious insect pest which is a mandated statutory goal. This amendment will help protect the general welfare and economy of the state and seek to maintain the economic well-being of agriculturally dependent rural communities in this State.

The California, national and international consumers of California host commodities benefit by having high quality commodities available at lower cost. It is assumed that any increases in production costs will ultimately be passed on the consumer.

The amendment of this regulation benefits homeowners who grow their own host commodities for consumption and host material which is planted as ornamentals in various rural and urban landscapes.

The amendment of this regulation benefits businesses such as baseball, golf courses, soccer and football and all parks where grass sod are a critical component of functionality.

The existing law obligates the Secretary to investigate and determine the feasibility of controlling or eradicating pests of limited distribution but establishes discretion with regard to the establishment and maintenance of regulations to achieve this goal. This amendment provides the necessary regulatory authority to prevent the artificial spread of a serious insect pest which is a mandated statutory goal.

This regulation will benefit the public's general welfare by providing authority for the State to perform detection, control and eradication activities against Caribbean fruit fly in Los Angeles County.

The implementation of this regulation will prevent:

- Direct damage to the agricultural industry growing host fruits.
- Indirect damage to the agricultural industry growing host fruits do to the implementation of quarantines by other countries and loss of export markets.
- Increased production costs to the affected agricultural industries.
- Increased pesticide use by the affected agricultural industries.
- Increased costs to the consumers of host fruits.
- Increased pesticide use by homeowners and others.
- The need to implement a State interior quarantine.

There is no existing, comparable federal regulation or statute.

The Department considered any other possible related regulations in this area, and we find that these are the only regulations dealing in this subject area, and the only State agency which can implement these eradication areas for plant pests. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of this regulation and has determined that it is not inconsistent or incompatible with existing state regulations.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Mandate on local agencies and school districts: None.

Cost or savings to any state agency: None.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None and no nondiscretionary costs or savings to local agencies or school districts.

Cost or savings in federal funding to the state: None.

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None.

Cost impacts on a representative private person or business: The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Significant effect on housing costs: None.

Small Business Determination

The Department has determined that the regulations may affect small business.

Results of the Economic Impact Analysis

Amendment of these regulations will not:

- (1) Create or eliminate jobs within California;
- (2) Create new businesses or eliminate existing businesses within California; or
- (3) Affect the expansion of businesses currently doing business within California.

The Department has determined the amendment of this regulation benefits:

- The general public
- Homeowners and Community Gardens
- Agricultural industry
- The State's general fund

There are no known specific benefits to worker safety or the health of California residents. The Department is

not aware of any specific benefits the amendment of this regulation will have to the protection of public safety of California residents or worker safety. Based upon the economic analysis, the Department believes the amendment of this regulation benefits the general welfare of California residents. [Gov. Code sec. 11346.3(b)].

ALTERNATIVES CONSIDERED

The Department of Food and Agriculture must determine that no reasonable alternative considered by the Department or that has otherwise been identified and brought to the attention of the Department would be more effective in carrying out the purpose for which the actions are proposed or would be as effective and less burdensome to affected private persons than the proposed actions.

AUTHORITY

The Department amended Section 3589, subsection (a), pursuant to the authority vested by Sections 407 and 5322 of the Food and Agricultural Code.

REFERENCE

The Department amended Section 3589, subsection (a), to implement, interpret and make specific Sections 407, 5322, 5761, 5762 and 5763 of the Food and Agricultural Code.

AMENDED TEXT

These proposed amendments will provide clarity and consistency for the use of the terms quarantine area and regulated area and correct references to subsections in the text. The effect of these proposed changes to the regulation will be to establish greater operational clarity for the affected program and interested parties.

Following the public hearing if one is requested, or following the written comment period if no public hearing is requested, the Department of Food and Agriculture, at its own motion, or at the instance of any interested person, may adopt the proposal substantially as set forth without further notice.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Mandate on local agencies and school districts: None.
 Cost or savings to any state agency: None.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None and no nondiscretionary costs or savings to local agencies or school districts.

Cost or savings in federal funding to the state: None.

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None.

Cost impacts on a representative private person or business: The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Significant effect on housing costs: None.

Small Business Determination

The Department has determined that the proposed regulations may affect small business.

Results of the Economic Analysis

Amendment of these regulations will not:

- (1) Create or eliminate jobs within California;
- (2) Create new businesses or eliminate existing businesses within California; or
- (3) Affect the expansion of businesses currently doing business within California.

The specific benefits of the amendment of this regulation are:

- These amendments will ensure consistent use of the terms regulated area and quarantined area in the text.
- Correct references to subsections in the text which resulted from a previous amendment.
- Provide greater clarity in the regulation which is operationally needed by the program and which could be more easily understood by any interested party. [Gov. Code sec. 11346.5(a)(3)(C)]

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this State and determine the probability of its spread, and the feasibility of its control or eradication (Food and Agricultural Code Section 5321).

Existing law also provides that the Secretary may establish, maintain and enforce quarantine, eradication and other such regulations as he deems necessary to protect the agricultural industry from the introduction and spread of pests (Food and Agricultural Code, Sections 401, 403, 407 and 5322). Existing law also provides that eradication regulations may proclaim any portion of the State as an eradication area and set forth the boundaries, the pest, its hosts and the methods to be used to eradicate said pest (Food and Agricultural Code Section 5761).

There is no existing, comparable federal regulation or statute regulating the intrastate movement.

The Department is the only agency which can implement plant quarantines. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of this regulation and has determined that it is not inconsistent or incompatible with existing state regulations.

Anticipated Benefits from This Regulatory Action

These proposed amendments to the regulation will provide greater clarity in the regulation and correct references to subsections in the text which are operationally needed by the program. This should ensure the existing program will have an operationally sound regulatory base which can be easily explained and enforced.

The Department is not aware of any specific benefits the amendments of this regulation will have to the health of California residents or worker safety. Based upon the economic analysis, the Department believes the amendment of this regulation benefits the general welfare of California residents. [Gov. Code sec. 11346.3(b)]. The Department has evaluated and determined that the amendment of this regulation is not inconsistent with existing State regulations. There are no other comparable existing State regulations [Gov. Code sec. 11346.5(a)(3)(D)].

ALTERNATIVES CONSIDERED

The Department must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law than the proposal described in this Notice. To date, no other interested party has come forth with any alternative regulation.

AUTHORITY

The Department proposes to amend Section 3434 pursuant to the authority vested by Sections 407, 5301, 5302 and 5322 of the Food and Agricultural Code.

REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 5301, 5302 and 5322 of the Food and Agricultural Code.

TITLE 3. DEPARTMENT OF FOOD AND AGRICULTURE

The Department of Food and Agriculture amended subsections 3591.20(a) of the regulations in Title 3 of the California Code of Regulations pertaining to the Light Brown Apple Moth Eradication Area as an emergency action which was effective on November 7, 2013, and the Department intends to complete this action by filing a Certificate of Compliance no later than May 6, 2014.

This notice is being provided to be in compliance with Government Code Section 11346.4.

PUBLIC HEARING

A public hearing is not scheduled. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this State and determine the probability of its spread, and the feasibility of its control or eradication (Food and Agricultural Code Section 5321).

Existing law also provides that the Secretary may establish, maintain and enforce quarantine, eradication and other such regulations as he deems necessary to protect the agricultural industry from the introduction and spread of pests (Food and Agricultural Code, Sections 401, 403, 407 and 5322). Existing law also provides that eradication regulations may proclaim any portion of the State as an eradication area and set forth the boundaries, the pest, its hosts and the methods to be used to eradicate said pest (Food and Agricultural Code Section 5761).

There is no existing, comparable federal regulation or statute regulating the intrastate movement.

The Department is the only agency which can implement plant quarantines. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of this regulation and has determined that it is not inconsistent or incompatible with existing state regulations.

Anticipated Benefits from This Regulatory Action

The amendment of this regulation benefits those agricultural industries which may be harmed by this general feeder including the nursery, fruit and vegetables for

domestic use and exports and the environment (urban landscapes, forests, native plants) by having an eradication program to help ensure the artificial spread of the LBAM does not occur by establishing a new uncontrolled infestation in Mendocino County.

This amendment provides the necessary regulatory authority to prevent the artificial spread of a serious insect pest which is a mandated statutory goal.

FAC Section 401.5 states, "the department shall seek to protect the general welfare and economy of the state and seek to maintain the economic well-being of agriculturally dependent rural communities in this state." The majority of Mendocino County is rural.

The amendment of this regulation benefits homeowners who grow their own host fruits for consumption and host material which is planted as ornamentals in various rural and urban landscapes.

AMENDED TEXT

This amendment established the regulatory authority for the Department to conduct eradication activities against the light brown apple moth in Mendocino County. The effect of this amendment is to enable the Department to conduct eradication activities in Mendocino County.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Mandate on local agencies and school districts: None.

Cost or savings to any state agency: None.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None and no nondiscretionary costs or savings to local agencies or school districts.

Cost or savings in federal funding to the state: None.

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None.

Cost impacts on a representative private person or business: The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Significant effect on housing costs: None.

Small Business Determination

The Department has determined that the proposed regulations may affect small business.

Results of the Economic Analysis

Amendment of these regulations will not:

- (1) Create or eliminate jobs within California;
- (2) Create new businesses or eliminate existing businesses within California; or
- (3) Affect the expansion of businesses currently doing business within California.

The specific benefits of the amendment of this regulation are to:

- Help ensure the artificial spread of the LBAM does not occur by establishing a new uncontrolled infestation in Mendocino County.
- Protect homeowners who grow their own host fruits for consumption and host material which is planted as ornamentals in various rural and urban landscapes.
- To help maintain the economic well-being of agriculturally dependent rural communities in Mendocino County. [Gov. Code sec. 11346.5(a)(3)(C).]

The Department is not aware of any specific benefits the amendments of this regulation will have to the health of California residents or worker safety. Based upon the economic analysis, the Department believes the amendment of this regulation benefits the general welfare of California residents. [Gov. Code sec. 11346.3(b).]

The Department has evaluated and determined that the amendment of this regulation is not inconsistent with existing State regulations. The Department is the only agency having eradication authority for insects. There are no other comparable existing State regulations [Gov. Code sec. 11346.5(a)(3)(D)].

ALTERNATIVES CONSIDERED

The Department must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law than the proposal described in this Notice.

To date, no other interested party has come forth with any alternative regulation.

TITLE 5. COMMISSION ON TEACHER CREDENTIALING

Division VIII of Title 5 of the California Code of Regulations

Proposed Amendments to Title 5 of the California Code of Regulations Pertaining to Designated Subjects Special Subjects Teaching Credentials

The Commission on Teacher Credentialing (Commission) proposes to take the regulatory action described below after considering all comments, objections, and recommendations regarding the proposed action.

PUBLIC HEARING

A public hearing on the proposed actions will be held:

**February 14, 2014
8:30 a.m.
Commission on Teacher Credentialing
1900 Capitol Avenue
Sacramento, California 95811**

WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written comments by fax, through the mail, or by e-mail relevant to the proposed action. The written comment period closes at 5:00 p.m. on January 27, 2014. Comments must be received by that time or may be submitted at the public hearing. You may fax your response to (916) 322-0048; write to the Commission on Teacher Credentialing, attn. Tammy A. Duggan, 1900 Capitol Avenue, Sacramento, California 95811; or submit an email at tduggan@ctc.ca.gov.

Any written comments received 15 days prior to the public hearing will be reproduced by the Commission's staff for each member of the Commission as a courtesy to the person submitting the comments and will be included in the written agenda prepared for and presented to the full Commission at the hearing.

AUTHORITY AND REFERENCE

Education Code section 44225 authorizes the Commission to adopt these proposed regulation amendments. The proposed amendments implement, interpret, and make specific Education Code section 44260.4 pertaining to Designated Subjects Special Subjects Teaching Credentials.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Summary of Existing Laws and Regulations

This rulemaking action proposes amendments to 5 California Code of Regulations (CCR) §80037 to establish a Special Teaching Authorization in Physical Education for holders of Designated Subjects Special Subjects Teaching Credentials in Basic Military Drill (BMD) and Reserve Officer Training Corps (ROTC). The proposed amendments also include general clean-up of outdated language in the existing regulation.

One of the prescribed conditions for high school graduation in subsection (a)(1)(F) of Education Code (EC) §51225.3 is completion of two courses in physical education (unless the pupil has been exempted). Subsection (b) of EC §51225.3 allows governing boards, with the active involvement of parents, administrators, teachers, and pupils, to adopt alternative means for completion of the prescribed course of study. Some LEAs grant high school graduation credit in physical education for BMD and ROTC courses under the provisions of EC §51225.3 while others do not. Pupils attending schools that do not grant high school graduation credit in physical education for BMD and ROTC courses are required to enroll in traditional physical education courses in order to meet statutory graduation requirements.

The proposed Special Teaching Authorization in Physical Education will provide the holder with a distinct physical education authorization limited to the areas of basic military drill and physical fitness training. The proposed minimum requirements for the Special Teaching Authorization in Physical Education are possession of a preliminary (which requires a minimum of four years of military experience) or clear (which requires, in addition to the requirements for the preliminary credential, completion of a Commission-approved program of personalized preparation) Designated Subjects Special Subjects Teaching Credential in BMD or ROTC; satisfaction of California's basic skills requirement; and verification of subject-matter knowledge in Physical Education. It is important to note that the Special Teaching Authorization in Physical Education will not compel LEAs to grant high school graduation credit in physical education. It will simply be an au-

thorization educators may earn upon completion of the specified requirements and that LEAs may choose to recognize in order to utilize the option provided in EC §51225.3(b).

In addition to establishing a Special Teaching Authorization in Physical Education, the proposed amendments include general clean-up of the current, outdated language in 5 CCR §80037 as outlined in the “Objectives and Anticipated Benefits of the Proposed Regulations” section.

Objectives and Anticipated Benefits of the Proposed Regulations

The objectives of the proposed amendments are to clarify and make specific the following as related to Designated Subjects Special Subjects Teaching Credentials:

- establish a Special Teaching Authorization in Physical Education for holders of Designated Subjects Special Subjects Teaching Credentials in BMD and ROTC; and
- amend the current, outdated language related to the basic skills, application, fingerprint, and health education requirements;
- specify the type of program that must be completed for the clear credential and incorporate those program standards by reference;
- clarify the recommendation process for the preliminary and clear credential;
- define the teaching experience requirement for the clear credential;
- amend the clear credential authorization to include a SDAIE authorization; and
- move the driving transcript requirement for the Limited Driver Training subject to the appropriate subsection.

The Commission anticipates that the proposed amendments will benefit the welfare of students attending public schools in the State of California by creating a Special Teaching Authorization in Physical Education that LEAs may potentially use in conjunction with EC §51225.3 to grant physical education high school graduation credit for basic military drill and physical fitness training courses taught by holders of Designated Subjects Special Subjects Credentials in BMD and ROTC, thereby increasing the students’ course options.

The proposed regulations will promote fairness and prevent discrimination by aligning 5 CCR §80037 pertaining to the requirements for Designated Subjects Special Subjects Teaching Credentials with other 5 CCR sections pertaining to Designated Subjects Adult Education and CTE Teaching Credentials. The Commission does not anticipate that the proposed regulations will result in an increase in openness and transpar-

ency in government, the protection of public health and safety, worker safety, or the environment, the prevention of social inequity, or an increase in openness and transparency in business.

Determination of Inconsistency/Incompatibility with Existing State Regulations

The Commission has determined that the proposed regulations are not inconsistent or incompatible with existing regulations. There are no other 5 CCR sections that detail the requirements for or authorizations of Designated Subjects Special Subjects Teaching Credentials.

DOCUMENTS INCORPORATED BY REFERENCE

Standards of Quality and Effectiveness for Career/Technical Education Teachers (rev. 5/09): <http://www.etc.ca.gov/educator-prep/standards/CTE-Handbook.pdf>

The Commission on Teacher Credentialing awards credentials and certificates on the basis of completion of programs that meet Standards for Educator Preparation and Educator Competence. For each type of professional credential in education, the Commission has developed and adopted standards which are based upon recent research and the expert advice of many professional educators. Each standard specifies a level of quality and effectiveness that the Commission requires from programs offering academic and professional preparation in education. There are different types of program standards.

PRECONDITIONS

Preconditions are requirements that must be met in order for an accrediting association or licensing agency to consider accrediting a program sponsor or approving its programs or schools. Some preconditions are based on state laws, while other preconditions are established by Commission policy. Preconditions can be found within each program’s standards document.

COMMON STANDARDS

The Common Standards deal with aspects of program quality that cross all approved educator preparation programs. The institution responds to each Common Standard by providing pertinent information, including information about individual programs. When a new program is proposed, the institution submits a Common Standards Addendum to address how the new program will integrate with the already approved programs.

EDUCATOR PREPARATION
PROGRAM STANDARDS

Program standards address aspects of program quality and effectiveness that apply to each type of educator preparation program offered by a program sponsor. Program standards contain statements describing the nature and purpose of each standard and language that details the requirements that all approved programs must meet. Program sponsors must meet all applicable program standards before the program application may be approved by the Commission.

DOCUMENTS RELIED UPON IN
PREPARING REGULATIONS

None.

DISCLOSURES REGARDING THE
PROPOSED ACTIONS

The Commission has made the following initial determinations:

Mandate to local agencies or school districts: None.

Other non-discretionary costs or savings imposed upon local agencies: None.

Cost or savings to any state agency: None.

Cost or savings in federal funding to the state: None.

Significant effect on housing costs: None.

Significant statewide adverse economic impact directly affecting businesses including the ability of California businesses to compete with businesses in other states: None.

These proposed regulations will not impose a mandate on local agencies or school districts that must be reimbursed in accordance with Part 7 (commencing with section 17500) of the Government Code.

Cost impacts on a representative private person or business: The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Statement of the Results of the Economic Impact Assessment [Govt. Code § 11346.5(a)(10)]: The Commission concludes that it is (1) unlikely that the proposal will create any jobs within the State of California; (2) unlikely that the proposal will eliminate any jobs within the State of California; (3) unlikely that the proposal will create any new businesses within the State of California; (4) unlikely that the proposal will eliminate any existing businesses within the State of California; and (5) unlikely the proposal would cause the expansion of businesses currently doing business within the State of California.

of businesses currently doing business within the State of California.

Benefits of the Proposed Action: The Commission anticipates that the proposed amendments will benefit the welfare of students attending public schools in the State of California by creating a Special Teaching Authorization in Physical Education that employers may potentially use in conjunction with EC §51225.3 to grant physical education high school graduation credit for basic military drill and physical fitness activity courses taught by holders of Designated Subjects Special Subjects Credentials in BMD and ROTC, thereby increasing the students' course options.

Effect on small businesses: The proposed regulations will not have a significant adverse economic impact upon business. The proposed regulations apply only to individuals who hold or seek Designated Subjects Special Subjects Teaching Credentials that authorize service in California's public schools.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Commission must determine that no reasonable alternative considered by the agency or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed, would be as effective as and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Commission invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period or at the public hearing.

CONTACT PERSON/FURTHER INFORMATION

General or substantive inquiries concerning the proposed action may be directed to Tammy A. Duggan by telephone at (916) 323-5354 or Tammy A. Duggan, Commission on Teacher Credentialing, 1900 Capitol Avenue, Sacramento, CA 95811. General question inquiries may also be directed to Martha Zavala at (916) 323-5080 or at the address mentioned in the previous sentence. Upon request, a copy of the express terms of the proposed action and a copy of the initial statement of reasons will be made available. This information is also available on the Commission's website at www.ctc.ca.gov. In addition, all the information on which this proposal is based is available for inspection and copying.

**AVAILABILITY OF STATEMENT OF REASONS
AND TEXT OF PROPOSED REGULATIONS**

The entire rulemaking file is available for inspection and copying throughout the rulemaking process at the Commission office at the above address. As of the date this notice is published in the Notice Register, the rulemaking file consists of the Notice of Proposed Rulemaking, the proposed text of regulations, the Initial Statement of Reasons, and an economic impact assessment/analysis contained in the Initial Statement of Reasons. Copies may be obtained by contacting Tammy Duggan at the address or telephone number provided above.

MODIFICATION OF PROPOSED ACTION

If the Commission proposes to modify the actions hereby proposed, the modifications (other than nonsubstantial or solely grammatical modifications) will be made available for public comment for at least 15 days before they are adopted.

**AVAILABILITY OF FINAL STATEMENT
OF REASONS**

The Final Statement of Reasons is submitted to the Office of Administrative Law as part of the final rulemaking package, after the public hearing. Upon its completion, copies of the Final Statement of Reasons may be obtained by contacting Tammy A. Duggan at (916) 323-5354.

**AVAILABILITY OF DOCUMENTS ON
THE INTERNET**

Copies of the Notice of Proposed Rulemaking, the Initial Statement of Reasons, and the text of the regulations in underline and strikeout can be accessed through the Commission's website at www.ctc.ca.gov.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

Pursuant to California Insurance Code Section 11624, the Commissioner establishes rates to be charged to those obtaining commercial automobile coverage through CAIP. Section 11624 provides: "Premium charges for the plan shall not be excessive, inadequate, nor unfairly discriminatory, and shall be actuarially sound so as to result in no subsidy of the plan." Title 10, California Code of Regulations, §2498.5 references the commercial automobile rate manual, which is approved by the Commissioner but not printed in full in the California Code of Regulations.

The Commissioner is holding the hearing referenced above to accept comments on CAARP's recent rate application. CAARP has proposed rate changes for five CAIP sub-lines, amounting to an overall average **16 percent rate increase**. The five sub-lines are

Trucks, Tractor and Trailers;
Taxis, Limousines and Van Pools;
All Buses Combined;
Zone Rated Risks and
Employers Non-Ownership Liability.

Further details appear in the rate application on file with the Commissioner and available for review as set forth below.

COMPARABLE FEDERAL LAW

There are no comparable existing federal regulations or statutes.

LOCAL MANDATE DETERMINATION

The Insurance Commissioner has initially determined that the application will not result in any new program mandates on local agencies or school districts.

MANDATES ON LOCAL AGENCIES OR SCHOOL DISTRICTS OR COSTS WHICH MUST BE REIMBURSED PURSUANT TO GOVERNMENT CODE SECTIONS 17500 THROUGH 17630

The Insurance Commissioner has initially determined that the application will not result in any cost or significant savings to any local agency or school district for which Part 7 (commencing with Section 17500) of Division 4 of the Government Code would require reimbursement, or in other nondiscretionary costs or savings to local agencies.

COST OR SAVINGS TO ANY STATE AGENCY; FEDERAL FUNDING

The Commissioner has determined that the application will result in no cost or savings to any state agency and no cost or savings in federal funding to the state.

SIGNIFICANT STATEWIDE ADVERSE ECONOMIC IMPACT ON BUSINESSES AND THE ABILITY OF CALIFORNIA BUSINESSES TO COMPETE

CAARP is proposing overall rate increases for Trucks, Tractor and Trailers; Taxis, Limousines and Van Pools; All Buses Combined; Zone Rated Risks and Employers Non-Ownership Liability. Although the number of commercial auto applications placed by CAARP is small the proposed rate changes could have a statewide economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. The proposed rate changes could also impact competition or competitiveness. The proposal could also affect the creation or elimination of jobs in California, the creation of new businesses, the elimination of existing businesses, or the expansion of businesses in California. However, California Insurance Code section 11624(e) requires that premium charges for the plan shall be actuarially sound so as to result in no subsidy of the plan by the voluntary market. Therefore, if and to the extent that CAARP is able to demonstrate that certain existing rates are no longer actuarially sound and that rate increases are warranted, the Commissioner is required to approve increased rates. Of course, the Commissioner also recognizes that section 11624(e) requires that rates not be excessive, and the Commissioner will not approve an increase that results in excessive rates.

COST IMPACTS ON PRIVATE PERSONS OR ENTITIES

The Insurance Commissioner has determined that there could be potential cost impacts on businesses directly affected by the proposed rate increases. Although the rate application involves commercial automobile insurance rates, to the extent a rate increase impacts business, it could also impact private persons employed by those businesses. The rate increase could also impact private persons wishing to purchase goods or services from businesses if the price of goods or services is increased to cover the increased cost of insurance coverage.

IMPACT ON HOUSING COSTS

The Insurance Commissioner has initially determined that the application will not affect housing costs.

IMPACT ON SMALL BUSINESS

The proposed rate changes could affect small businesses.

SPECIFIC TECHNOLOGIES OR EQUIPMENT

The application would not mandate the use of specific technologies or equipment.

ALTERNATIVES

The Insurance Commissioner must determine that no reasonable alternative considered by the agency, or that has otherwise been identified and brought to the attention of the agency, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

PLAIN ENGLISH

The application describing the proposal is in plain English. However, the application itself is based on technical actuarial principles.

TEXT AND INITIAL STATEMENT OF REASONS

The Department has prepared an Initial Statement of Reasons addressing the proposed rate application in addition to the Informative Digest included in this notice. The Initial Statement of Reasons and this Notice of Proposed Action are available for inspection or copying, and will be provided at no charge upon request to the contact person listed above. Further details on CAARP's proposal are on file with the Commissioner and available for review as set forth below.

FINAL STATEMENT OF REASONS

A Final Statement of Reasons will be prepared at the conclusion of this proceeding. Upon written or e-mail request to the contact person listed above, the Final Statement of Reasons will be made available for inspection and copying once it has been prepared. A copy of the Final Statement of Reasons will also be posted on the Department's web site.

ACCESS TO RULEMAKING FILE

Any interested person may inspect a copy of or direct questions about CAARP's application, the statement of reasons, and any supplemental information contained in the rulemaking file by contacting the contact person listed above. **By prior appointment**, the rulemaking file is available for inspection at 45 Fremont Street, 21st Floor, San Francisco, California 94105, between the hours of 9:00 a.m. and 4:30 p.m. Monday through Friday.

AUTOMATIC MAILING

A copy of this Notice, including the Informative Digest, is being sent to all persons on the Insurance Commissioner's mailing list.

AVAILABILITY OF DOCUMENTS ON THE INTERNET

Documents concerning this proceeding are available on the Department's website. To access them, go to <http://www.insurance.ca.gov>. On the right-hand column of the page, click the drop-down menu under the

heading 'For Insurers.' In this section, scroll down until you see the subheading 'Regulations.' Below this subheading, click on the 'Proposed Regulations' link and then click on the 'Search for Proposed Regulations' link. When the 'Search or Browse for Documents for Proposed Regulations' screen appears, you may choose to find the documents either by conducting a search or by browsing for them by name.

To search, enter "REG-2012-00021" (the Department's regulation file number for these regulations) in the 'Search for' field. Alternatively, search using as your search term the California Insurance Code number of a code section that the regulations implement (for instance, "11624"), or search by keyword ("commercial auto," for example). Then, click on the 'Submit' button to display links to the various filing documents.

To browse, click on the 'Browse All Regulations' button near the bottom of the screen. A list of the names of regulations for which documents are posted will appear. Find in the list the 'Statistical Plan Enforcement Remedies' link, and click it. Links to the documents associated with these regulations will then be displayed.

AVAILABILITY OF MODIFIED TEXT OF REGULATIONS

If the Department amends the application with changes that are sufficiently related to the original application, the Department will make the full text of the amended rates, with the changes clearly indicated, available to the public for at least 15 days before the date the Department adopts the amended rates.

TITLE 16. BOARD FOR PROFESSIONAL ENGINEERS, LAND SURVEYORS, AND GEOLOGISTS

NOTICE IS HEREBY GIVEN that the Board for Professional Engineers, Land Surveyors, and Geologists (Board) is proposing to take the action described in the Informative Digest. The Board does not intend to hold a hearing in this matter. If an interested party wishes that a hearing be held, he or she must make the request in writing to the Board no later than 5 p.m. on January 13, 2014. The Board, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals substantially as described below or may modify such proposals if such modifications are sufficiently related to the original text.

With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in the Notice as the contact person and will be mailed to those persons who submit written or

oral testimony related to this proposal or who have requested notification of any changes to the proposal.

Written comments, including those sent by mail, facsimile, or e-mail to the addresses listed under Contact Person in this Notice, must be received by the Board at its office no later than 5:00 p.m. on January 27, 2014.

Authority and Reference: Pursuant to the authority vested in sections 7818 and 7851 of the Business and Professions Code, and to implement, interpret or make specific sections 7846 and 7887 of said code, the Board is considering changes to Division 29 of Title 16 of the California Code of Regulations (CCR) as follows:

INFORMATIVE DIGEST

California Business and Professions Code section 7818 authorizes the Board to adopt, amend and repeal regulations as may be reasonably necessary to enable the Board to implement laws relating to the practice of geology and geophysics.

The Board's intent is to ensure that all regulations are clear, relevant, unambiguous, and functional in accordance with the Board's 2011-2014 Strategic Plan.

Senate Bill 822 (Chapter 319, Committee on Business, Professions and Economic Development, Statutes of 2013) which will become effective on January 1, 2014, adds Business and Professions Code section 7851 and amends section 7887 of the Geologist and Geophysicists Act. Section 7851 establishes a retired license status for Professional Geologists and Geophysicists. Section 7887(i) establishes the authority to set a retired license status fee. Business and Professions Code section 7851 indicates that the Board shall issue a retired license to a geologist or geophysicist upon application and payment of a fee if the individual has been licensed by the Board for at least 5 years within California and at least 20 years within the United States (or its territories), and the license has not been disciplined or is not pending disciplinary action. After an individual obtains a retired license, they cannot engage in any activity that requires an active geologist or geophysicist license; and they may use the following titles: "retired professional geologist" or "professional geologist, retired," or "retired professional geophysicist" or "professional geophysicist, retired." The individual will not have to renew the retired license, and in order for the individual to restore the license back to an active status, he or she will have to pass the examination(s) required for initial licensure. Business and Professions Code section 7887(i) has been amended to read: "The fee for a retired license shall be fixed at not more than 50 percent of the fee for filing an application for licensure as a geologist or a geophysicist in effect on the date of application for a retired license."

An amendment to Title 16, California Code of Regulations Section 3005 is necessary to implement the retired license status for Professional Geologists and Geophysicists. As a result it is proposed that subsection (h) be added to Title 16, California Code of Regulations Section 3005 to establish a retired license status fee of \$62.50 and explain that no other fee, including a renewal fee, shall be charged for the retired license. In addition the proposed language indicates that the fee applies to the license types (Professional Geologist and Professional Geophysicist) as well as the certifications (Certified Engineering Geologist and Certified Hydrogeologist).

In addition, Title 16, California Code of Regulations Section 3005(b)(3) needs to be repealed due to the passage of Senate Bill 152 (Chapter 178, Roth, Statutes of 2013), which repeals Business and Professions Code sections 7848 and 7848.1 (Temporary Authorization for geology and geophysics) and deletes what is currently Business and Professions Code section 7887(d) (Temporary Authorization registration fee) from the Geologist and Geophysicist Act, effective January 1, 2014.

POLICY STATEMENT
OVERVIEW/ANTICIPATED BENEFITS OF
PROPOSAL

The proposed regulation changes will allow the Board to carry out its statutory authority to issue a retired license and charge a fee for the service in accordance with Business and Professions Code sections 7851 and 7887(i), which become effective on January 1, 2014.

Consistency and Compatibility with Existing State Regulations

After conducting a review for any regulations that would relate to or affect this area, the Board has evaluated this regulatory proposal, and it is neither inconsistent nor incompatible with existing state regulations.

FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

The Board anticipates a minor, absorbable revenue impact to the Board. The Board does not anticipate a cost impact to any other state agency or any impact to federal funding to the state.

In accordance with Business and Professions Code section 7887(i), the Board must establish a retired status fee that is no more than 50 percent of the fee for filing an

application for licensure as a geologist or a geophysicist. The current application filing fee as established by Title 16, California Code of Regulations Section 3005 (b)(1) and (b)(2) is \$250.00. Based on the statute, the Board could set a regulation fee up to \$125 for the retired license; however, the proposed fee for the retired license for Professional Geologists and Geophysicists is a one-time fee of \$62.50. The fee applies to each license and specialty certification that the individual has. For example, if the individual is a Professional Geologist and he or she is also a Certified Engineering Geologist or Certified Hydrogeologist (a Professional Geologist license is required before an individual is eligible for a specialty certification), the individual would need to pay \$62.50 for each license and certification to be retired.

The retired license status fee supports the cost that the Board incurs to process the retired status license application. In order for the Board to process a Professional Geologist or Geophysicist retired license request, the Board must use staff time and materials to do the following: (1) verify that the individual is eligible for the retired license status in accordance with Business and Professions Code section 7851; (2) key the data into the appropriate databases, which in return changes the licensee's status on the Board's website; and (3) create and mail out a retired license wall certification.

Nondiscretionary Costs/Savings to Local Agencies: None.

Local Mandate: None.

Cost to Any Local Agency or School District for Which Government Code Sections 17500–17630 Require Reimbursement: None.

Business Impact:

The Board has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

Impact on Jobs/New Businesses:

The Board has determined that this proposed regulatory action will not have an impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

Cost Impact on Representative Private Person or Business:

The proposed regulation will only affect individuals that choose to place their license into a retired license status; the regulation will not affect businesses.

The retired status license is a voluntary option that will be available to licensees. After the proposed fee regulation is adopted, if a Professional Geologist or Geophysicist retires from his or her profession and will

no longer be working in a capacity that requires a license, he or she will have the option to either: (1) stop paying renewal fees which will cause the license to go to a "delinquent" status after the license expiration date, and eventually to a "cancelled" status, (five years after the license expiration date); (2) continue to pay the biennial renewal fee of \$270 (plus \$67.50 if there is also a specialty certification) to keep an "active" status even though the individual is no longer working in a capacity that requires a license; or (3) the individual can submit an application and fee to be placed in a retired license status upon payment of the proposed fee of \$62.50. Individuals that have multiple licenses and/or specialty certifications will pay \$62.50 to retire each license and specialty certification. The retired status option is beneficial to licensees because they can still be in a public license status that is perceived of as positive, but they only have to pay a one-time fee to maintain it, instead of paying the biennial renewal fee. It is important to licensees because their status is public and is displayed on the Board's website.

Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

The Board has determined that the proposed regulations would not affect small businesses. The Board does not license businesses; the Board licenses individuals.

RESULTS OF THE ECONOMIC IMPACT ASSESSMENT/ANALYSIS

Impact of Jobs/Businesses:

The Board has determined that this regulatory proposal will not have a significant impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

Benefits of the Regulations:

The Board has determined that this regulatory proposal is required in order to carry out the statutory provisions outlined in Business and Professions Code sections 7851 and 7887(i). Business and Professions Code section 7887(i) requires the following: "The fee for a retired license shall be fixed at not more than 50 percent of the fee for filing an application for licensure as a geologist or a geophysicist in effect on the date of application for a retired license."

Please also see the additional benefits described under the "Cost Impact on Representative Private Person or Business" section.

CONSIDERATION OF ALTERNATIVES

The Board must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action described in this Notice, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

INITIAL STATEMENT OF REASONS AND INFORMATION

The Board has prepared an Initial Statement of Reasons for the proposed action and has available all of the information upon which the proposal is based.

TEXT OF PROPOSAL

Copies of the exact language of the proposed regulation and of the initial statement of reasons, and all of the information upon which the proposal is based, may be obtained upon request from the Board at 2535 Capitol Oaks Drive, Suite 300, Sacramento, CA 95833.

**TITLE 16. MEDICAL BOARD
 OF CALIFORNIA**

NOTICE IS HEREBY GIVEN that the Medical Board of California is proposing to take the action described in the Informative Digest. Any person interested may present statements or arguments orally or in writing relevant to the action proposed at a hearing to be held at Embassy Suites San Francisco Airport — Waterfront, 150 Anza Blvd, Burlingame, CA 94010, at 9:00 a.m., on February 7, 2014. Written comments, including those sent by mail, facsimile, or e-mail to the addresses listed under Contact Person in this Notice, must be received by the Medical Board of California at its office not later than 5:00 p.m. on January 27, 2014, or must be received by the Medical Board of California at the hearing. The Medical Board of California, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals substantially as described below or may modify such proposals if such modifications are sufficiently related to the original text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

Authority and Reference: Pursuant to the authority vested by Sections 2018, 3502, and 3510 of the Business and Professions Code, and to implement, interpret or make specific Sections 2058, 3502, and 3502.1 of said Code, the Medical Board of California is considering changes to Division 13.8 of Title 16 of the California Code of Regulations as follows:

A. Informative Digest

The Board is proposing the following changes:
 Amend Section 1399.541 in Article 4 of Division 13.8.

The existing regulation permits a physician assistant (PA) to act as a first or second assistant in surgery under the supervision of an approved supervising physician.

This proposal would permit a PA to act as a first or second assistant in surgery without the personal presence of the supervising physician if the supervising physician is immediately available to the PA. "Immediately available" means able to return to the patient, without delay, upon the request of the PA or to address any situation requiring the supervising physician's services.

This proposal would also delete the word, "approved" as a modifier to the supervising physician. Senate Bill 1981 (Stats. 1998, Chapter 736) repealed Business and Professions Code Section 3515. SB 1981 deleted the requirement that the Board review and approve applications for PA supervisors.

B. Policy Statement Overview/Anticipated Benefits of Proposal

The Board's highest priority is the protection of the public and the proposed regulations will provide protection of the people of California by updating and clarifying supervision requirements while a PA acts as a first or second assistant in surgery. This regulatory proposal benefits the health and welfare of California residents because it represents the current standard of practice within the medical community, and will enhance consumer protection by allowing better access to care while still protecting the consumer. This proposal would permit the physician to address other patient needs while authorized PA services are being performed. Under this proposal the physician is still responsible for supervising the PA and is required to be "immediately available" to the PA, if needed, at the request of the PA or to address any situation requiring the supervising physician's services.

C. Consistency and Compatibility with Existing State Regulations

After conducting a review for similar regulations, the Board has found that these are the only regulations concerning this subject area. Therefore, the Board has determined that the proposed regulatory changes are neither inconsistent nor incompatible with existing regulations.

FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

Nondiscretionary Costs/Savings to Local Agencies:
None.

Local Mandate: None.

Cost to Any Local Agency or School District for Which Government Code Sections 17500–17630 Require Reimbursement: None.

Business Impact

The Medical Board of California has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. This initial determination is based on the following facts or evidence/documents/testimony:

The Medical Board regulates physicians and surgeons in the State of California, and the Physician Assistant Board, within the jurisdiction of the Medical Board, regulates PAs. The Medical Board currently has approximately 128,641 licensees and the Physician Assistant Board has approximately 9,101 licensees for FY 2012–2013. PAs work in a variety of practice settings and specialties under the supervision of licensed physicians. The boards do not have data on either the number of physicians who supervise PAs by practice setting or the number of PAs who work as first or second assistants in surgery.

This regulation will clarify supervision requirements for PAs and supervising physicians as to the availability of the supervising physician when PAs are acting as first or second assistants in surgery. However, according to comments received at public board meetings, this proposed regulatory change represents the current evolution of the standard of practice within the medical community and, therefore, it is the Medical Board’s understanding that this proposal would not have an adverse economic impact on the physicians or PAs who would be subjected to this requirement.

Cost Impact on Representative Private Person or Business

The Medical Board of California is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

The Medical Board of California has determined that the proposed regulations would not affect small businesses. The Board does not license businesses, the Board licenses individuals; therefore, there is no impact on small businesses or any business.

**RESULTS OF ECONOMIC IMPACT
ASSESSMENT/ANALYSIS**

Impact on Jobs/Businesses

The Medical Board of California has determined that this regulatory proposal will not have any impact on the creation of jobs or new businesses, the elimination of jobs or existing businesses, or the expansion of businesses in the State of California.

Benefits of Regulation

The Medical Board of California has determined that this regulatory proposal will have the following benefits to health and welfare of California residents, worker safety, and the state’s environment:

This proposal will update and clarify supervision requirements while a PA acts as a first or second assistant in surgery. Consumer protection is enhanced because physician supervision of PAs acting as first or second assistants in surgery is precisely defined. This regulatory proposal benefits the health and welfare of California residents because it represents the current standard of practice within the medical community and will enhance consumer protection by allowing better access to care while still protecting the consumer. This proposal would permit the physician to address other patient needs while authorized PA services are being performed. Under this proposal the physician is still responsible for supervising the PA and is required to be “immediately available” to the PA if needed at the request of the PA or to address any situation requiring the supervising physician’s services.

CONSIDERATION OF ALTERNATIVES

The Medical Board of California must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposal described in this Notice, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above-mentioned hearing.

**INITIAL STATEMENT OF REASONS
AND INFORMATION**

DEPARTMENT OF MOTOR VEHICLES

Notice of Public Hearing

Proposed Regulatory Action
for the California Code of Regulations

Title 13, Division 1, Chapter 1,
Article 3.7 — Autonomous Vehicles

Pursuant to Government Code section 11346.8 and Vehicle Code section 38750, the Department of Motor Vehicles (department) will be conducting a public hearing beginning at 10:00 a.m. on Tuesday, January 14, 2014 at the department's headquarters office at 2415 First Avenue, Sacramento, California. The hearing will be held in the Assembly Room, which is accessible to persons with disabilities. The Assembly Room is located in a secure area of the building so please check in at the security station. Parking near the headquarters complex is limited so please plan accordingly.

Senate Bill 1298 (Chapter 570; Statutes of 2012) requires the department to adopt regulations establishing insurance, bond, and application requirements, vehicle registration and certificates of title requirements, reporting requirements. This public hearing is being held to address only those topics being implemented with the proposed regulatory action published on November 29, 2013.

At the hearing, any interested person may present statements, arguments, or contentions that are relevant to the action described in the published notice. Persons requiring an interpreter are requested to notify the department as early as possible by calling the contact person named in this notice. A sign-in sheet will be provided at the hearing in order to schedule the presenters and to conduct an orderly meeting.

The hearing will continue until all comments are presented; however, since the department is not able to anticipate the number of participants, the department reserves the right to limit the length of time each participant has to comment. The hearing will be webcast;

however, those who desire to provide oral comment must be present. It is requested, **but not required**, that persons making oral comments at the hearing submit a written copy of their testimony at the hearing.

Materials related to the proposed action (Notice of Proposed Regulatory Action, Initial Statement of Reasons and Express Terms) may be accessed on the department's Regulatory Actions web page at www.dmv.ca.gov/about/lad/regactions.htm.

Any inquiries related to the public hearing should be directed to Randi Calkins at (916) 657-6469, by fax at (916) 657-6243 or by e-mail at LRegulations@dmv.ca.gov.

SAFE DRINKING WATER AND TOXIC
ENFORCEMENT ACT OF 1986

CHEMICALS KNOWN TO THE STATE
TO CAUSE CANCER OR
REPRODUCTIVE TOXICITY
DECEMBER 13, 2013

The Safe Drinking Water and Toxic Enforcement Act of 1986 requires that the Governor revise and republish at least once per year the list of chemicals known to the State to cause cancer or reproductive toxicity. The identification number indicated in the following list is the Chemical Abstracts Service (CAS) Registry Number. No CAS number is given when several substances are presented as a single listing. The date refers to the initial appearance of the chemical on the list. For easy reference, chemicals which are shown underlined are newly added. Chemicals which are shown with a ~~strikeout~~ were placed on the list with the date noted, and have subsequently been removed.

**CHEMICALS DELISTED EFFECTIVE
DECEMBER 13, 2013 AS KNOWN TO THE
STATE OF CALIFORNIA TO CAUSE
REPRODUCTIVE TOXICITY**

DECEMBER 13, 2013

Effective December 13, 2013, the California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA) is removing tert-amyl methyl ether, 2-ethylhexanoic acid, ethyl-tert-butyl ether, p,p'-oxybis(benzenesulfonyl hydra-

zide) and 1,3,5-triglycidyl-s-triazinetriene from the list of chemicals known to the State to cause reproductive toxicity for purposes of Proposition 65¹. Tert-amyl methyl ether and ethyl-tert-butyl ether were added to the list on December 18, 2009 and 2-ethylhexanoic acid, p,p'-oxybis(benzenesulfonyl hydrazide) and 1,3,5-triglycidyl-s-triazinetriene were added to the list on August 7, 2009.

These five chemicals were originally added to the Proposition 65 list as causing reproductive toxicity pursuant to Labor Code Section 6382(d), which is incorporated by reference in Health and Safety Code Section 25249.8(a). Based on changes to certain federal regulations that affect the bases for the original listings, OEHHA referred these chemicals to the Developmental and Reproductive Toxicant Identification Committee (DART IC) for reconsideration. In its official capacity as the "state's qualified experts" at a public meeting held on November 21, 2013, the DART IC determined

¹ The Safe Water and Toxic Enforcement Act of 1986, Health and Safety Code section 25249.5 et seq.

that the five chemicals have not been clearly shown, through scientifically valid testing according to generally accepted principles, to cause reproductive toxicity and should be removed from the list. Regulations governing the listing of chemicals by the DART IC are set out in Title 27, California Code of Regulations, section 25305(b)(1).

A complete, updated chemical list is published in this issue of the California Regulatory Notice Register and is available on the OEHHA website at <http://www.oehha.ca.gov/prop65/prop65list/Newlist.html>.

AMEND REGULATIONS**

California Code of Regulations
Title 13, Division 1, Chapter 1, Article 2.0
Section 20.05 — Gender Change

PETITIONER

Catherine Atkins, Esq.
Deputy Chief Executive Director
Alain Montgomery, Staff Attorney
California Association of Marriage & Family
Therapists (CAMFT)
7901 Raytheon Road
San Diego, CA 92111-1606

SUMMARY OF PETITION

On November 4, 2013, the Department of Motor Vehicles (DMV) received CAMFT's email letter requesting a review of California Code of Regulations, Title 13, Sections 20.05(a), 20.05(b), 20.05(b)(1) and 20.05(b)(A) pursuant to California Government Code Section 11340.6. CAMFT's letter requests that the DMV amend the above-referenced regulations to allow a Licensed Marriage and Family Therapist (LMFT) to render a professional opinion on the DMV Form 329

Medical Certification and Authorization (Gender Change).

BACKGROUND

Section 20.05 was adopted in 2009 to provide a means by which an individual may request a gender different from that identified on an approved document used to establish identity for purposes of being issued a California driver's license or identification card. Currently, an applicant is required to have a DMV Form 329 completed by either a physician or psychologist, who provides his or her professional opinion of the applicant's gender identification and demeanor and whether the identification status is transitional. Only a physician is authorized to evaluate whether a gender identification is complete.

PETITION

The CAMFT is requesting that an LMFT be authorized to render a professional opinion on DMV Form 329 regarding an applicant's gender identification, demeanor, and transitional status. In support of its petition, the CAMFT has made the following arguments:

- 1) LMFTs are trained and qualified in the diagnosis and assessment of Gender Identification Disorder (GID), also known as Gender Dysphoria, and
- 2) Failure to allow a treating LMFT to act as certifying providers places an unnecessary burden on transgender applicants.

DEPARTMENT'S DECISION

After review, the DMV accepts the petition and will begin the process of seeking to amend Section 20.05 to authorize an LMFT to attest to an applicant's gender, demeanor, and transitional status on the DMV Form 329. Additionally, the Department will be seeking the CAMFT's expertise, as well as the comments of other affected groups and individuals, to better understand the impact of the regulation and lessen any unnecessary burden on transgender applicants while ensuring the integrity of the Department's driver license records.

BOARD OF STATE AND COMMUNITY CORRECTIONS
 Minimum Standards for Juvenile Facilities

In this resubmitted regulatory action, the Board of State and Community Corrections (BSCC) is updating standards for local juvenile detention facilities. One major revision throughout the regulations changes the agency name from "Corrections Standards Authority" to "Board of State and Community Corrections." Another significant modification to Title 15 of the California Code of Regulations is the replacement of the term "minor" with the word "youth." Other revisions relate to certain definitions, staffing and supervision issues, policies and procedures manual, non-discrimination provisions, admittance and release procedures, use of force, use of physical restraints, education programs, recreation and exercise programs, discipline, health care and mental health services, medication, clothing and bedding, diet, and the update of a suicide prevention program.
