WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written comments relevant to the proposed regulatory actions to the Department. Comments may be submitted by mail, facsimile (FAX) at 916.654.1018 or by email to smccarthy@cdfa.ca.gov. The written comment period closes at 5:00 p.m. on April 11, 2011. AUTHORITY AND REFERENCE

The Department amended Section 3437 pursuant to the authority vested by Sections 401.5, 403, 407, 5301, 5302 and 5322 of the Food and Agricultural Code of California. The Department amended Section 3437 to

implement, interpret and make specific Sections 5301, 5302 and 5322, Food and Agricultural Code.

**INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW**

Existing law provides that the Secretary is obligated to investigate the existence of any pest that is not generally distributed within this State, determine the probability of and prevent its spread, and investigate the feasibility of its control or eradication (Food and Agricultural Code (FAC) Sections 403 and 5321).

Existing law also provides that the Secretary may establish, maintain and enforce quarantine, eradication and other such regulations as he deems necessary to protect the agricultural industry from the introduction and spread of pests (FAC Sections 401, 403, 407 and 5322). Existing law also provides that eradication regulations may proclaim any portion of the State as an eradication area and set forth the boundaries, the pest, its hosts and the methods to be used to eradicate the pest (FAC Section 5761).

The proposed amendment of Section 3437 will remove Lake County from the area under quarantine for European Grapevine Moth (EGVM); and will exempt the following articles from meeting the requirements of the quarantine: almonds in dried/split husks ready for harvest, nuts extracted from fruit, olive fruit (with or without stems or twigs), petioles and leaf blades of *Vitis*, spp. and fermented wine, must and pomace. The effect of the amendment will be to remove authority for the State to regulate movement of hosts and possible carriers of EGVM within and from Lake County, and to remove the authority for the State to regulate movements of the exempted articles.

**DISCLOSURES REGARDING THE
PROPOSED ACTION**

The Department has made the following initial determinations:

Mandate on local agencies and school districts: None.

- (2) create new business or eliminate existing businesses within California; or
- (3) affect the expansion of businesses currently doing business within California.

Significant effect on housing costs: none.

Small Business Determination:

AUTHORITY AND REFERENCE

Pursuant to the authority vested by Sections 60.5 and 7350 of the Labor Code, and to implement, interpret or make specific Sections 7340 through 7357 of the Labor Code and Section 11010 of the Government Code, the Division is considering changes to Division 1 of Title 8 of the California Code of Regulations as follows: Amendment of Chapter 3.2, Section 343 to modify fees charged by the Division for inspections, major alterations and consultations of tramways.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

Pursuant to Labor Code sections 60.5 and 6308, the Division is charged with the administration and enforcement of the provisions of the California Occupational Safety and Health Act, commencing with Labor Code section 6300, as well as other provisions of law impacting upon the health and safety of employees and the public in the State of California.

As part of its mandate, the Division regulates aspects of the operation, repair and inspection of aerial passenger tramways.

Pursuant to the Aerial Passenger Tramway Law (Labor Code sections 7340 through 7357) the Division is charged with establishing and administering a state system for the permitting and inspection of Aerial Passenger Tramways. The Division is authorized to collect fees for the inspection of Aerial Passenger Tramways to cover the costs it incurs in having inspections performed by a Division safety engineer and in administer-

ing its Aerial Passenger Tramway inspection program. (See, also, Government Code section 11010.)

Currently, the Division's Aerial Passenger Tramway fee schedule (found at Title 8, Section 343) is based on a calculated hourly rate of \$125.00 per hour. In other words, when the Division promulgated its existing aerial passenger tramway fees, it calculated that it would need to charge \$125 per billed hour of its inspectors' time to fund the administration of its aerial passenger tramway program. That hourly rate is no longer sufficient to cover the cost of the program.

Thus, the purpose of the Proposed Rulemaking is to increase the Aerial Passenger Tramway fees to a level which will adequately fund this program. To that end, the Division proposes to make the following amendments:

Section 343 — Aerial Passenger Tramways Fee Schedule.

The Proposed Rulemaking would change the fees prescribed in Section 343. The change in the dollar amount of the fees would be the only change made by this rulemaking.

The Division proposes to add a new Subsection 343(a)(4) that will establish a flat fee equal to one hour (\$245.00) that shall be charged to cover travel to each operator site for new inspections, major alterations, operational inspections, and consultations performed by a Division engineer. This fee shall be charged regardless of the actual travel time expended. The Division shall also charge an owner/operator either the inspector's actual travel time or the 1 hour flat fee, whichever is greater, at the hourly billing rate to a rescheduled inspection if the inspection was rescheduled because the owner/operator either failed to show up or was unprepared for the originally-scheduled inspection.

LOCAL MANDATE

The Proposed Rulemaking does not impose a mandate on local agencies or school districts.

FISCAL IMPACT ESTIMATES

The Proposed Rulemaking does not impose costs on any local agency or school district for which reimbursement would be required pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code. The Proposed Rulemaking does not impose other nondiscretionary costs or savings on local agencies. The Proposed Rulemaking does not result in any costs or savings in federal funding to the state.

COSTS OR SAVINGS TO STATE AGENCIES

No additional costs or savings to state agencies are anticipated.

BUSINESS IMPACT/SMALL BUSINESSES

The Division has determined that the Proposed Rulemaking will not result in a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The Proposed Rulemaking would not affect small businesses, as that term is defined in Government Code section 11342.610, since that section specifically excludes entertainment activities such as ski parks from the definition of "small business."

ASSESSMENT REGARDING EFFECT ON JOBS/BUSINESSES

The Division has determined that the Proposed Rulemaking will not have any impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California. It is anticipated that most owners/operators will either absorb the fee increase and/or pass fee increases on to the public through increased prices, and that the proposed fee increase will not result in cutting staff or terminating operations.

COST IMPACT ON REPRESENTATIVE PERSON OR BUSINESS

Because of the wide range of aerial passenger tramway owners/operators in the State of California, it is not possible for the Division to identify or describe a "representative" private person or business engaged in the operation of aerial passenger tramways, or to quantify the cost impacts that such a "representative" business would incur in reasonable compliance with the proposed fee increase. Instead, the Division has selected five tramway owners/operators and has shown the inspections costs for these owners/operators and tramways under the existing and proposed fee structures. (See Attachment "A.")

As shown in Attachment "A," five different owner/operators were listed ranging in size by the number of inspected units from 4 to 34 representing a small to large operator. The fee increase expressed as a percentage ranged from 112% to 123% with an average increase of 117%. This is the first increase in inspection fees in the past 18 years.

EFFECT ON HOUSING COSTS

The Proposed Rulemaking will have no effect on housing costs in California.

ALTERNATIVES

The Division must determine that no reasonable alternative considered by the agency, or that has other-

wise been identified and brought to the agency's attention, would be more effective in carrying out the purpose for which the amendment of these regulations is proposed, or would be as effective as, and less burdensome to, affected private persons than the Proposed Rulemaking.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

Chapter 3, Division 4, Title 9 CCR currently contains regulations for licensure of DUI programs, which provide education and counseling services to individuals convicted of a Driving Under the Influence (DUI) offense. This rulemaking will modify existing regulations concerning DUI programs, their administration and procedures for enrollees and providers. Current regulations do not provide for the term Multiple Offender and they are not as specific regarding the counselor duties versus the duties for the administration of these programs. The current regulations will be updated to be consistent with the statutes in the Health and Safety Code and changes in 2007 to the Vehicle Code. The proposed regulations will contain language indicating an increase in program services from six months to nine months for participants ordered by the court to participate in a DUI program pursuant to Assembly Bill 1353 (Chapter 164, Statutes of 2005). In addition, significant portions of these changes were supported by the former DUI Advisory Workgroup, which was composed of licensed providers of DUI program services, County alcohol and drug program administrators, the Department of Motor Vehicles, and other interested parties. Major highlights and changes of this regulation action are listed below:

- The definition section has been revised modifying the existing terminology of Drinking Driver Program to "Driving Under the Influence Program" or "DUI."
- The term "Multiple Offender" was updated for consistency with the Vehicle Code which was amended in 2007.
- In addition, the term "Significant Other" was added and defined in order to maintain consistency with Health and Safety Code section 11837(e).
- The term "Working Days" was also added and defined because it carries a distinction from "Days" which is already defined in the existing regulations.
- Program enrollment and intake interviews have been combined and procedures for program

enrollment have been added, allowing administrative or clerical staff to conduct the non counseling program enrollment.

- Certified counseling staff shall be required to conduct the intake interview in lieu of other program staff. Existing regulations require the licensee to conduct the first face-to-face interview within 21 days of enrollment. These regulations now specify that the "counselor" shall conduct these interviews instead of licensee. Modification of the face-to-face interview schedule will maintain consistency with changes to the Health and Safety Code section 11837(c) (2) as enacted by AB 1353. (Chapter 164, Statutes of 2005).
- Program services were increased from six months to nine months for participants ordered by the court to participate in a DUI program pursuant to Assembly Bill 1353. (Chapter 164, Statutes of 2005)
- The program director/administrator is required to review requests for leave of absence instead of the county alcohol and drug program administrator.
- The inter-program transfer process has been updated to reflect actual practice.
- Standards for dismissal of participants have been clarified and strengthened to allow DUI programs to dismiss participants who act in a threatening manner toward staff or other participants.
- The program may charge participants a maximum fee of \$5 (instead of \$10) for processing a transfer to another licensed DUI program for those participants who are eligible for the minimum fee. Ancillary fees have been limited and specified in this regulation.
- These modified regulations require that the licensee justify to ADP any charges for additional ancillary services which exceed the minimum amount listed.
- The maximum fine assessed for a missing Notice of Completion is limited to \$1,500 per Certificate. (Not to exceed a maximum of \$5,000 per Health & Saf. Code § 11838.4.)

DISCLOSURES REGARDING THE
PROPOSED ACTION

Local Mandates: The Department has determined that the proposed action imposes no mandate upon local agencies or school districts.

Fiscal Impact Statement: The Department has made the following initial determinations:

- Cost to any local agency or school district which must be reimbursed in accordance with Gov. Code §§ 17500 through 17630: **None**

- Cost or savings to any state agency: **None**
- Other non-discretionary cost or savings imposed on local agencies: **None**
- Cost or savings in federal funding to the state: **None**

Significant Statewide Adverse Economic Impact on Business: The Department has determined that there is no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

Cost Impacts on Representative Private Persons or Businesses: The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Assessment of Effects on Job and/or Business Creation, Elimination or Expansion: The Department has determined that adoption of this regulation will not: (1) create or eliminate jobs within California; (2) create new businesses or eliminate existing business within California; or (3) affect the expansion of businesses currently doing business within California.

Effect on Housing Costs: The Department has made an initial determination that the proposed action will have no significant affect on housing costs.

Small Business Determination: The Department has determined that the proposed regulation does not have an adverse economic impact on small business because this regulation merely codifies existing policy into regulation.

CONSIDERATION OF ALTERNATIVES

**TITLE 10. CALIFORNIA DEPARTMENT
OF CORPORATIONS**

NOTICE IS HEREBY GIVEN

The California Corporations Commissioner (Commissioner) proposes to adopt rules to regulate a newly created financial lending pilot program. Senate Bill 1146 (Chap. 640, Stats. 2010) established the Pilot Program for Affordable Credit-Building Opportunities under the California Finance Lenders Law, to expand access to responsible, reasonably priced small-dollar loans in California. Specifically, the Commissioner proposes to amend Sections 1550 and 1552; and to adopt Sections 1580 through 1596 to Article 13 of Subchapter 6 of Title 10 of the California Code of Regulations.

INFORMATIVE DIGEST/PLAIN ENGLISH
OVERVIEW

The Department licenses and regulates both payday lenders and finance lenders. While almost 12 million loans were made by payday lenders in 2008 in California, finance lenders licensed under the California Finance Lenders Law made less than 82,000 small loans (unsecured loans under \$2,500). Finance lenders assert that small-loan lending is prohibitively expensive for lenders and therefore not profitable because the California Finance Lenders Law limits the amount of interest and fees that lenders may charge on small loans. The lenders contend that because administrative costs are the same in underwriting a small or large loan, they are unable to profitably offer affordable small-dollar loans under the California Finance Lenders Law.

In an effort to expand access to responsible, reasonably priced small-dollar loans in California, Senate Bill 1146 (Chap 640, Stats. 2010) created the Pilot Program for Affordable Credit-Building Opportunities under the California Finance Lenders Law. The pilot program seeks to increase the availability of credit-building opportunities for individuals, particularly the unbanked community, by providing on a trial basis a less costly alternative to payday loans. The pilot program is effective January 1, 2011 until January 1, 2015, and the bill requires the Department to evaluate the performance of the program in making affordable credit more available in California.

Specifically, the pilot program seeks to develop a market for small-dollar loans by making small-loan lending more profitable for finance lenders under the California Finance Lenders Law; increase the availability of reasonably priced small loans for consumers; and move consumers, including unbanked individuals, away from costly fringe banking and into more traditional forms of lending in which they can learn financial responsibility and borrow at better interest rates. By permitting approved lenders to charge a higher interest rate and fees on small loans made under the pilot program, the program seeks to create a market for reasonably priced small loans. At the same time, the pilot program provides borrowers with many consumer protections such as requiring lenders to consider the borrower's ability to repay the loan and by making consumer credit education available to borrowers at no charge.

This rulemaking action also makes changes to the Department's procedures for reviewing advertising

copy of licenses and to the time lenders are required to keep advertising copy, in accordance with SB 1146.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Department must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the Department would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

FISCAL IMPACT

- Cost or savings to any state agency: none.
- Direct or indirect costs or savings in federal funding to the state: none.
- Cost to local agencies and school districts required to be reimbursed under Part 7 (commencing with Section 17500) of Division 4 of the Government Code: none.
- Other nondiscretionary costs/savings imposed on local agencies: none.

DETERMINATION GOVERNMENT CODE SECTION 11346.5(a)(8)

The Commissioner has made an initial determination that the proposed regulatory action:

- Does not affect small businesses. Finance lenders are not considered a small business under Government Code Section 11342.610.
- Does not impose a mandate on local agencies or school districts, or a mandate that is required to be reimbursed pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code.
- Does not have an effect on housing costs.
- Does not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.
- Does not significantly affect the creation or elimination of jobs within the State of California; the creation of new businesses or the elimination of existing businesses within the State of California; or the expansion of businesses currently doing business within the State of California.

COST IMPACTS ON REPRESENTATIVE PRIVATE PERSON OR BUSINESS

A business seeking to participate in the voluntary pilot program will incur costs for preparing and submitting an application, complying with the consumer

education requirements, ensuring compliance with the program requirements, collecting data and reporting annually to the Department.

EFFECT ON SMALL BUSINESS

The Commissioner has determined that the adoption of these regulations will not affect small business. Under Government Code Section 11342.610, “small business” does not include the professional or business activity of finance lenders.

AUTHORITY AND REFERENCE

Authority cited: Sections 4551, 4551.5, 4581, 4593, 21082 and 21086, Public Resources Code. Reference: Sections 4512, 4513, 4551, 4551.5, 4552, 4593, 21082, 21084 and 21086, Public Resources Code; and Sections 15300, 15300.3, 15300.4 and 15304, Title 14, California Code of Regulations (CCR).

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The Board is authorized under Public Resources Code 4551 et seq. to adopt regulations to assure the continuous growing and harvest of commercial forest trees and specify the conduct of commercial timber harvesting. The Board is proposing a regulation to establish a new type of Modified Timber Harvesting Plan, called the Modified Timber Harvesting Plan for Fuel Hazard Reduction. The new harvesting plan is a permit that provides standards and requirements for removal and commercialization of forest products for purposes of fire hazard reduction. It is intended to encourage forest landowners to consistently manage their fuel loads for long term resiliency to the impacts of fire and provide an efficient permit that is less costly to prepare and implement compared to a conventional Timber Harvesting Plan.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Board has determined the proposed action will have the following effects:

- Mandate on local agencies and school districts: None are known.
- Costs or savings to any State agency: None are known.
- Cost to any local agency or school district which must be reimbursed in accordance with the applicable Government Code (GC) sections commencing with GC section 17500: None are known.
- Other non-discretionary cost or savings imposed upon local agencies: None are known.
- Cost or savings in federal funding to the State: None are known.
- Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None are known.
- Potential cost impact on private persons or directly affected businesses: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable

compliance with the proposed action. The proposed regulation provides a voluntary harvest permit that is intended to reduce plan preparations costs and implementing costs compared to a regular Timber Harvest Plan that would otherwise be needed in the absence of the Modified Timber Harvesting Plan for Fuel Hazard Reduction permit.

- Effect on small business: None. The Board has determined that the proposed amendments will not affect small business because the proposal is voluntary.
- Significant effect on housing costs: None are known.
- Adoption of these regulations will not create or eliminate jobs within California.
- Adoption of these regulations will not: (1) create new businesses or eliminate existing businesses within California; or (2) affect the expansion of businesses currently doing business within California.

The proposed Rules do not conflict with, or duplicate Federal regulations.

BUSINESS REPORTING REQUIREMENT

The regulation does not require a report, which shall apply to businesses.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5(a)(13), the Board must determine that no reasonable alternative it considers or that has otherwise been identified and brought to the attention of the Board would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

Summary of Existing Laws:

California Penal Code Section 6035 authorizes the CSA to establish standards for local corrections and probation officers.

Summary of Existing Regulations:

Existing standards that prescribe requirements for local corrections and probation officers are promulgated by the Corrections Standards Authority. These regulations are contained in Title 15 — Crime Prevention and Corrections, Division 1, Chapter 1, Subchapter 1 of the California Code of Regulations (CCR).

Article 3. Minimum Standards for Training

173. Probation Officer Core Course.

This section states the minimum number of hours for the length of the Probation Officer Core Course. The proposed revision calls for an increase to 196 hours from a current standard of 174 hours.

The proposed revision to the regulation will result in an increase in the minimum hours of instruction from 174 hours to 196 hours, for the Probation Officer Core Course. In response to concerns from the field regarding the adequacy of the Core Course, the Corrections Standards Authority conducted the Probation Officer Core Course Revision project. This project was divided into the following three phases: initial information gathering; curriculum revision; and review and distribution. Information about the Probation Officer Core Course and the Probation Officer job specifications was incorporated from the most recent job analysis and from various constituents of the course. Representatives of the Chief Probation Officers of California (CPOC), were provided with a review of the research that was going to be conducted to revise the course. The next phase consisted of identifying the topics for the course and developing the course objectives. Finally, a total of 7 task force meetings were held at the CSA, involving 50 representative participants to complete the comprehensive recommended revisions. The job analysis involved input from local probation officers, supervisors, instruc-

tors and subject matter experts. The information was collected through a process of task force groups, on-site observations, document reviews, and written surveys.

The data and subsequent input indicated the need to increase the minimum number of hours in the Probation Officer Core Course from 174 hours to 196 hours in order to ensure staff proficiency in performing newly identified and expanded tasks.

Authority and Reference: Pursuant to the authority vested by Section 5630 of the Business and Professions Code (BPC), and to implement, interpret or make specific Section 5650 of the Business and Professions Code, the Board is considering changes to Sections 2615 and 2620 of Division 26 of Title 16 of the California Code of Regulations (CCR), as follows:

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

Business and Professions Code Section 5630 authorizes the Board to adopt, amend, or repeal rules and reg-

ulations, in accordance with the provisions of the Administrative Procedure Act that are reasonably necessary in order to carry out the provisions of law relating to the practice of landscape architecture. BPC section 5650 requires an applicant to have six years of training and educational experience in landscape architecture in order to take an examination for a license to practice landscape architecture.

Amend Section 2615 — Form of Examinations

CCR section 2615 requires candidates applying for licensure as a landscape architect to pass the Landscape Architect Registration Examination (LARE) and the California Supplemental Examination subject to specified provisions.

The Landscape Architects Technical Committee (LATC) formed the Education Subcommittee in 2004 in response to the Joint Legislative Sunset Review Committee’s (JLSRC) recommendation to further evaluate California’s eligibility requirements and access to landscape architecture licensure in California. Further, the LATC adopted a new Strategic Plan objective in 2005 to review the existing six-year education and experience requirement for examination, identify eligibility issues and propose solutions. At its January 2010 meeting, the LATC approved the Education Subcommittee’s final report, which included recommendations and proposed regulatory changes to allow applicants with specified educational experience to take the LARE before meeting the work experience requirements. The Board approved the Education Subcommittee’s final report and recommendations at its March 2010 meeting.

This proposal would modify CCR section 2615 with the following changes: 1) add new language that clarifies the education and work experience requirements to apply for eligibility to take the LARE; and 2) add new language that allows candidates with specific educational experience defined under CCR 2620 to apply for eligibility to take the multiple-choice sections of the LARE.

Amend Section 2620 — Education and Training Credits:

CCR section 2620 specifies the Board’s evaluation criteria of a candidate’s training and educational experience.

The LATC’s Education Subcommittee also recommended that the Board grant credit for accredited professional architecture degrees and for partial completion of specific educational experience.

This proposal would retain the Board’s existing education and training credits and make the following changes: 1) add new language under Section 2620(a) allowing education credit for partial completion of a de-

gree in landscape architecture from an approved school; education credit for partial completion of an extension certificate in landscape architecture from an approved school and a degree from a school with a four-year curriculum; and education credit for an accredited degree in architecture with a four-year curriculum; 2) add new language under Section 2620(b) that defines “partial completion” as specified under subdivisions (a)(7) and (8); 3) add new language under Section 2620(c)(1)(B) allowing candidates with education credit under subdivisions (a)(7) and (8) to gain one year of training/practice credit under the direct supervision of a landscape architect licensed in a United States jurisdiction; and 4) make additional clarifying edits to the language.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Board has made the following initial determinations:

Local Mandate: None

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Cost/Savings in Federal Funding to the State: None

Cost to Any Local Agency or School District for Which Government Code Sections 17500 through 17630 Requires Reimbursement: None

Nondiscretionary Costs/Savings to Local Agencies: None

Business Impact: The Board has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The following studies/relevant data were relied upon in making the above determination: N/A

Impact on Jobs/New Businesses: The Board has determined that this regulatory proposal will not have any impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

Cost Impact on Representative Private Person or Business: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Adoption of these regulations will not:

Project: Sonoma Interstate 101 Rock Slope Protection Installation

Location: Sonoma County

Applicant: California Department of Transportation

Background

The Department of Transportation (Applicant) proposes to stabilize two cut slopes (Area 1 and Area 2) on southbound State Route (SR) 101 in Sonoma County between post miles 11.6 and 11.9 by armoring the slopes with large rock material also known as rock slope protection. The Sonoma Interstate 101 Rock Slope Protection Installation (Project) includes excavating a combined 1,780 cubic yards of material from Area 1 and Area 2. Following excavation, both Areas will be lined with rock slope protection fabric prior to being filled with rock slope protection. This project also includes the restoration of an existing storm water runoff ditch located near the middle of the slope and immedi-

ately uphill of the proposed rock slope protection areas. Construction staging and access will be conducted from an existing paved road shoulder on SR 101.

The activities described above are expected to incidentally take California tiger salamander (*Ambystoma californiense*). In particular, California tiger salamander could be incidentally taken as a result of being crushed and/or entombed in burrows. The Sonoma County Distinct Population Segment (DPS) of the California tiger salamander is listed as an endangered species under the federal Endangered Species Act (ESA) (16 U.S.C. § 1531 et seq.) and as a threatened species throughout its range under the California Endangered Species Act (CESA) (Fish and Game Code, § 2050 et seq.). (See Cal. Code Regs., tit. 14, § 670.5, subd. (b)(3)(G).)

The presence of California tiger salamander is documented within 1.3 miles from the Project area and there is suitable California tiger salamander habitat within and adjacent to the Project area. Because of the proximity of the nearest documented California tiger salamander, dispersal patterns of California tiger salamander, and the presence of suitable California tiger salamander habitat within the Project area, the U.S. Fish and Wildlife Service (Service) determined that California tiger salamander is reasonably certain to occur within the Project area and is expected to be incidentally taken as a result of Project activities. According to the Service, construction of the Project will result in the permanent loss of 0.24 acre of upland California tiger salamander habitat.

Because the Project is expected to take a species designated as endangered under the federal ESA, the Applicant consulted with the Service as required by the ESA. On December 9, 2010, the Service issued a biological opinion (Service file No. 81420–2010–F–0477–2) (BO) to the Applicant. The BO describes the Project actions, requires the Applicant to comply with terms of the BO and its incidental take statement, and incorporates additional measures. The measures in the BO include, among others:

- Applicant will compensate for the loss of 0.24 acre of California tiger salamander habitat with the acquisition and preservation of 0.24 acre of habitat for the Sonoma County DPS of the California tiger salamander. Compensation will be achieved within one year following the start of construction by purchase of credits at a conservation bank approved by the Service and the California Department of Fish and Game to sell California tiger salamander credits in Sonoma County.
- The Applicant will provide a funding assurance letter stating that sufficient funds for habitat compensation have been budgeted into the

expenditure authorization. The funding assurance letter will be signed by the District Deputy Director of Project Management and the District Deputy Director of Environmental Planning and Engineering and approved by the Department of Fish and Game's (DFG) Office of General Counsel. The funding assurance letter will provide evidence that the Applicant has allocated sufficient funding to purchase habitat conservation credits.

On January 12, 2011, the Director of DFG received a notice from Frank Meraz, on behalf of the Applicant, requesting a determination pursuant to Fish and Game Code section 2080.1 that the BO and its related ITS are consistent with CESA for purposes of the Project and California tiger salamander. (See Cal. Reg. Notice Register 2011, No. 4–Z, p. 105.)

Determination

After review and consideration of the BO, including its ITS, DFG has determined that there is substantial evidence to conclude the BO and ITS are **not consistent** with CESA because the required measures do not meet the conditions set forth in Fish and Game Code section 2081, subdivisions (b) and (c), for authorizing incidental take of CESA-listed species. This determination is based on the following considerations:

1. The BO does not state that credits will be purchased from a conservation bank for which the project is within the Bank's Service Area, nor does it require DFG approval of credit purchases. Credits that are purchased outside the Bank's Service Area may not provide benefits for the population segment of California tiger salamanders that will be taken incidentally to Project-related activities. Therefore, DFG cannot find that the impacts will be minimized and fully mitigated as required by Fish and Game Code section 2081, subdivision (b)(2).
2. The BO does not state when the Applicant is required to provide the funding assurance letter. Because it is unclear when the funding assurance letter will be provided, DFG cannot find that the applicant has ensured adequate funding as required by Fish and Game Code section 2081, subdivision (b)(4).
3. The BO does not provide DFG with any authority to approve various conditional take minimization and mitigation measures, nor does it require the applicant to provide notification to DFG for issues related to conditions in the BO, including: notification of Resident Engineer, approval of biological monitors, approval of biologists, documentation of training, reporting of trapped

CTS, project implementation reports, submission of completed design plans, notification of project suspension, post-encounter coordination, and post-construction implementation and compliance reporting. Since the BO does not provide DFG with such approval authority or notification, DFG cannot ensure that take minimization and mitigation measures will be properly implemented. Thus, DFG cannot find that the impacts will be minimized and fully mitigated as required by Fish and Game Code section 2081, subdivision (b)(2).

For the reasons described above, DFG has determined there is substantial evidence that the BO, including its ITS, are not consistent with CESA as it pertains to incidental take of CTS by the Applicant during implementation of the Project because DFG cannot find that the impacts have been minimized and fully mitigated as required by Fish and Game Code section 2081, subdivision (b)(2), and DFG cannot find that the applicant has ensured adequate funding as required by Fish and Game Code section 2081, subdivision (b)(4). Pursuant to Fish and Game Code section 2080.1, subdivision (c), with this determination the incidental take of CTS resulting from implementation of the Project may only be authorized by DFG pursuant to Fish and Game Code section 2081, subdivision (b).

The Office of Environmental Health Hazard Assessment (OEHHA) within the California Environmental Protection Agency is adding *S,S,S-tributyl phosphorotrithioate (Tribufos, DEF)* (CAS No. 78-48-8) to the list of chemicals known to the state to cause cancer for purposes of the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65¹). The listing of *S,S,S-tributyl phosphorotrithioate (Tribufos, DEF)* is effective **February 25, 2011**.

S,S,S-tributyl phosphorotrithioate (Tribufos, DEF) (CAS No. 78-48-8) is being listed as a chemical known to the State of California to cause cancer. The listing of *S,S,S-tributyl phosphorotrithioate* is based on formal identification by an authoritative body², the U.S. Environmental Protection Agency (U.S. EPA), that the chemical causes cancer. The criteria used by OEHHA for the listing of chemicals under the "authoritative bodies" mechanism can be found in Title 27, Cal. Code of Regs., section 25306.

The reader is directed to the Notice of Intent to List *S,S,S-tributyl phosphorotrithioate (Tribufos, DEF)* published in the August 13, 2010 issue of the *California Regulatory Notice Register* (Register 2010, No. 33-Z) for the documentation supporting OEHHA's determination that the criteria for administrative listing have been satisfied for this chemical.

A complete, updated Proposition 65 list is published elsewhere in this issue of the *California Regulatory Notice Register* and is available on the OEHHA website at <http://www.oehha.ca.gov/prop65.html>.

The Office of Environmental Health Hazard Assessment (OEHHA) within the California Environmental Protection Agency is adding *acrylamide* (CAS No. 79-06-1) to the list of chemicals known to the state to cause reproductive toxicity for purposes of the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65¹). The listing of *acrylamide* is effective **February 25, 2011**.

Acrylamide is being listed as a chemical known to the State of California to cause developmental and male reproductive toxicity. The listing of *acrylamide* is based on formal identification by two authoritative bodies², the National Institute for Occupational Safety and Health (NIOSH) and the National Toxicology Program's Center for Evaluation of Risks to Human Reproduction (NTP-CERHR), that the chemical causes developmental and male reproductive toxicity. The criteria used by OEHHA for the listing of chemicals under the "authoritative bodies" mechanism can be found in Title 27, Cal. Code of Regs., section 25306.

A Notice of Intent to List *acrylamide* was published in the February 26, 2010 issue of the *California Regulatory Notice Register* (Register 2010, No. 9-Z). That Notice includes the documentation supporting OEHHA's determination that the criteria for administrative listing have been satisfied for this chemical.

A Notice of Proposed Rulemaking identifying a proposed Maximum Allowable Dose Level (MADL) for *acrylamide* was released concurrently with the Notice

Committee Meeting**

The Office of Environmental Health Hazard Assessment (OEHHA) announces the availability for public review of the hazard identification document entitled: "Evidence on the Developmental and Reproductive Toxicity of Sulfur Dioxide." This notice marks the beginning of a 60-day public comment period on this document. The public comment period will close on April 26, 2011. Copies of the document are available from OEHHA's web site at the following address: <http://www.oehha.ca.gov/prop65.html>. The document may also be requested from OEHHA's Proposition 65 Implementation Office by calling (916) 445-6900.

OEHHA also announces that the next meeting of the Developmental and Reproductive Toxicant Identifica-

tion Committee (DARTIC) is scheduled for **Thursday and Friday, May 12 and 13, 2011**. Sulfur dioxide will be considered for possible listing under Proposition 65 at this meeting. The meeting will be held in the Coastal Hearing Room at the Cal/EPA Headquarters building, 1001 I Street, Sacramento, California. The meeting will begin each day at 10:00 a.m. and will last until all business is conducted or until 5:00 p.m. A full agenda listing all meeting items will be provided in a future public notice. If consideration of all agenda items is completed on May 12, the meeting will not be convened on May 13.

OEHHA, a department of the California Environmental Protection Agency, is the lead agency for the implementation of Proposition 65¹. The DARTIC advises and assists OEHHA in compiling the list of chemicals known to the State to cause reproductive toxicity, as required by Proposition 65. The DARTIC serves as the State's qualified experts for determining whether a chemical has been clearly shown through scientifically valid testing according to generally accepted principles to cause reproductive toxicity. It is in this capacity that the DARTIC will consider sulfur dioxide at its meeting in May. OEHHA will send comments received on the sulfur dioxide hazard identification document to DARTIC members prior to the meeting.

OEHHA provided an opportunity for input on the document as it was being developed. A data call-in period for sulfur dioxide opened on January 18, 2008, and closed on March 18, 2008. In preparing the hazard identification materials, OEHHA considered all information received that was relevant to the evidence of reproductive toxicity for sulfur dioxide.

OEHHA must receive comments and any supporting documentation on the sulfur dioxide document by 5:00 p.m. on Tuesday, April 26, 2011. We encourage you to submit comments in electronic form, rather than in paper form. Comments transmitted by e-mail should be addressed to coshita@oehha.ca.gov.

CHEMICALS KNOWN TO THE STATE
TO CAUSE CANCER OR
REPRODUCTIVE TOXICITY
February 25, 2011

The Safe Drinking Water and Toxic Enforcement Act of 1986 requires that the Governor revise and republish at least once per year the list of chemicals known to the State to cause cancer or reproductive toxicity. The identification number indicated in the following list is the Chemical Abstracts Service (CAS) Registry Number. No CAS number is given when several substances are presented as a single listing. The date refers to the initial appearance of the chemical on the list. For easy reference, chemicals which are shown underlined are newly added. Chemicals which are shown with a ~~strikeout~~ were placed on the list with the date noted, and have subsequently been removed.

The Office of Environmental Health Hazard Assessment (OEHHA) announces the release of a draft Interpretive Guideline. This Interpretive Guideline provides general scientific guidance on how to estimate lead intake from the handling of consumer products in the context of Proposition 65¹. It builds upon the approach developed previously by OEHHA for calculating the intake of lead from the handling of fishing tackle during recreational fishing (Interpretive Guideline No. 2008-001, released March 2008).

¹ The Safe Drinking Water and Toxic Enforcement Act of 1986, codified as Health and Safety Code section 25249.5 *et seq.*

This notice initiates an opportunity for public review and comment on the draft guideline. In order to be considered, **OEHHA must receive comments by 5:00 p.m. on Monday, April 11, 2011.** We encourage you to submit comments in electronic form, rather than in paper form. Comments transmitted by e-mail should be addressed to coshita@oehha.ca.gov. Comments submitted in paper form may be mailed, faxed, or delivered in person to the addresses below:

DEPARTMENT OF FOOD AND AGRICULTURE
Assessments for Control of Beet Leafhopper

The Department of Food and Agriculture submitted this rulemaking action to decrease the assessment rates that producers or producer-handlers are required to pay in connection with specified agricultural crops to fund the Curly Top Virus Program. The Curly Top Virus Program controls the Beet Leafhopper, *Circulifer tenellus*, which is the only known vector of the curly top virus. Curly top virus is an extremely serious plant virus affecting many commercial crops in California. Oriental Fruit Fly Interior Quarantine

This certificate of compliance makes permanent the prior emergency regulatory action (OAL file no. 2010-0730-01E) that established approximately 89 square miles surrounding the Pasadena and San Marino areas of Los Angeles County as a quarantine area for the Oriental fruit fly ("*Bactrocera dorsalis*"). The effect of the quarantine provides authority for the State to regulate movement of hosts of Oriental fruit fly from, into and within this area to prevent the artificial spread of the fly to noninfested areas to protect the public and California's agricultural industry. The total area in California under regulation is now approximately 168 square miles.

Light Brown Apple Moth Interior Quarantine

The Department of Food & Agriculture submitted this timely certificate of compliance action to make permanent the emergency expansion of the quarantine area for the Light Brown Apple Moth, *Epiphyas postvittana*, in OAL file number 2010-0818-01. This emergency action expanded portions of the existing contiguous quarantine area in the counties of Alameda, Contra Costa, Monterey, and Sonoma counties by approximately 205 square miles. New quarantine areas were established in the South Sacramento area of Sacramento County of approximately 16 square miles and in the South Park area of San Diego County of approximately 10 square miles. The quarantine area in the Long Beach area of Los Angeles County was expanded by approximately one square mile. This resulted in a total of approximately 5,147 square miles under regulation within California.

Karnal Bunt Disease Interior Quarantine

This regulatory action revises the quarantine area against Karnal bunt, a disease of wheat, durum wheat, and triticale (a hybrid of wheat and rye) that is detected in bunted wheat and other host kernels based on microscopic examination for spores of *Tilletia indica*. Karnal bunt disease does not affect human health but negatively impacts yield, quality, color, odor and palatability of flour and foodstuffs made from wheat, so if allowed to spread and become permanently established in California, California's production of wheat and other host grains would be detrimentally impacted. This regulatory action removes the Palo Verde Valley area of Riverside County from the quarantine area because on November 10, 2010 the Secretary of Agriculture issued a Federal Order releasing all remaining areas of California from the Karnal Bunt Disease Interior Quarantine.

This regulation removes all of the remaining quarantine areas in Riverside County from regulation.

 Electronic Benefit Transfer Regulation Changes

The federal government regulates the Supplement Nutrition Assistance Program (SNAP), formerly known as the Food Stamp Program, and federal regulations provide rules to follow regarding account aging and expunging of aged SNAP accounts. State Electronic Benefit Transfer (EBT) regulations have reflected

those rules in providing counties guidance on when to change account status. Effective October 1, 2008, the Food and Nutrition Act of 2008 changed the time period for account aging and de-obligated food stamp coupons as legal tender. The Department of Social Services submitted this rulemaking action to amend regulations in chapter 16 of the Manual of Policies and Procedures that govern the SNAP for consistency with these changes in federal law.
